

Local Girl To Represent Rotary Club

Constance Chandler, daughter of Mr. and Mrs. Edward S. Chandler was chosen by the Rotary Club at their regular luncheon meeting in the Charlottetown Hotel yesterday to represent them at the annual Canadian youth citizenship conference in Ottawa next summer.

The event is sponsored each year by the Rotary Club of Ottawa and is attended by locally chosen boys and girls and financed in part by the home town club. A variety of activities at Ottawa are arranged for by the club there. Four club directors, each in turn, explained in detail to the members, the various functions of the committees coming under their direct supervision. Frank Curtis dealt with club service. Austin Seales spoke on vocational service, Bob Parent on community service and George Fisher on international service.

An interesting point was stressed by Dr. Fisher when speaking of the fourth object of Rotary, dealing with the advancement of international understanding which was framed by Don MacRae of the Halifax Club and a native of P. E. Island.

The Rotary Foundation, started with a gift of \$25,500 by Missouri club in 1918 now totals 3 and a half million dollars. 601 select college students from 57 countries have attended colleges in countries other than their own, under the project.

Rotary's world membership is 396,000 in 8,431 clubs in 89 countries. There are 305 clubs in Canada.

Percy Turner introduced the speakers and Edwin Johnstone thanked them for the interesting points in Rotary so fully dealt with.

Guests present were Neil A. Matheson, M.P., W. F. Alan Stewart, Dennis Inwood and Rotarian Meyer MacKenzie.

Beaverbrook Provides For Retired Clergy

Retired Presbyterian Ministers and widows of the Presbyterian Ministers living in Prince Edward Island will benefit from the generosity of Lord Beaverbrook.

It was made known today by the Rev. E. H. Bean of Kensington, Clerk of the Synod of the Maritime Provinces of the Presbyterian Church, that Lord Beaverbrook has set up a fund from which a pension will be made available for retired ministers and widows of ministers on the Island.

Lord Beaverbrook has manifested interest in the work of the Presbyterian Church in Newcastle, N. B., where his father was for many years a minister, and the town where Lord Beaverbrook spent his boyhood days.

It is typical of His Lordship that he should look for a means of being of greater service to the church which his father, the Rev. William Aitken served so faithfully. Thus came into being the present plan of assisting retired ministers and widows of ministers which will apply to those of New Brunswick and Nova Scotia as well as to Prince Edward Island.

NO TRIMMINGS — Stroke Newington district authorities, fearing accidents, have forbidden use of frogmen's equipment at the local swimming pool.

YMCA Annual Maintenance Campaign Is Launched

The Y.M.C.A. annual maintenance campaign got underway last evening with an enthusiastic drive over a quarter of a million dollars and calls for continued support and careful administration of the Board.

Special names co-chairman J. C. Montgomery presided and his co-chairman, F. W. Hyndman outlined the current financial position, pointing out that the Association represents an investment of over a quarter of a million dollars and calls for continued support and careful administration of the Board.

Organized into twenty-five teams of two canvassers were assigned selected cards and urged to make early calls in an effort to reach the campaign objective before week-end. General secretary Harold Mitchell, and Mr. Gordon Maxwell outlined the official receipt forms attached to the campaign cards, handling pledges and returning the completed cards as urged a prayerful approach as workers begin their vital Christian service.

Archbishop Berry Recalls Achievements Of Diocese

High tribute to the Diocese of Charlottetown was paid by His Grace Archbishop Berry of Halifax in the course of an eloquent sermon, following his installation of Bishop MacEachern at St. Dunstan's Basilica last evening.

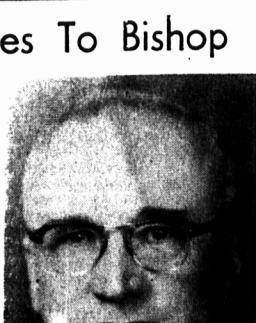

The ceremony itself, His Grace remarked, is one which links the past of Charlottetown with the See of Peter in Rome. It has something of the flavour of antiquity in it and yet it is repeated in this age of the atom bomb and of other vast changes in the life of the people and therefore in the life of the Church.

"Your presence here testifies that the faith implanted in this island by the early missionaries has not only been passed down to this generation but flourishes in so many ways throughout the Diocese," said Archbishop Berry. "Established here with the considerable handicap of extreme poverty, the faith in Christ and the Catholic Church was planted and watered and took solid root. It is edifying to read of the early 19th century settlers that they could afford for many years only the crudest log churches but that in them at the first visit of the first Bishop they would approach the Holy Communion table all the way from their benches on their knees. So great was their appreciation of holy Mass and Communion.

"Since those days the numbers of the faithful have greatly multiplied, churches have been erected that vie with any elsewhere; the sons and daughters of the faith have made this Island famous and have built up several parts of this great country. "The chief of these glories of Prince Edward Island is without doubt the kindly Archbishop of Toronto and the first Cardinal to grace a metropolitan see in Canada west of Quebec. Federal Bldg. Steel Work To Begin Today

Steel is scheduled to start skyward on the Charlottetown Federal Building job today, according to the members of the Advisory Council of Construction Gus Savoy of the Anglin Norcross Company.

Seven steel workers including a crane driver arrived yesterday headed by their superintendent from Amherst and conditions appear favourable to get along with the job of starting the first storey of the building with the four carloads of heavy steel which also arrived yesterday.

22 men were busy yesterday stripping the framework away from the cement walls which have been well set for some weeks and Mr. Savoy is looking forward to the employment of more help as soon as steel advances to the point where some of the work can be done by local men.

ers to guard against this practice, otherwise they could not be assured that the act of incriminating work under such conditions. He told the House that the Veterinary Committee is now investigating the possibility of establishing an artificial insemination unit in the Province and added, "I don't think the public has any interest in this will be. He said that information received from the Fredericton, N. B. Unit, indicated that semen could be imported from that Province.

BANGS DISEASE Mr. Baker said that the number who have had their cattle vaccinated for Bangs Disease was disappointingly small. He felt that it would not be too many years before the demand for cattle which were not immune to Bangs Disease would be less than the demand for exhibition stock.

Mr. Baker said that the number who have had their cattle vaccinated for Bangs Disease was disappointingly small. He felt that it would not be too many years before the demand for cattle which were not immune to Bangs Disease would be less than the demand for exhibition stock.

Speaking about hogs, Mr. Baker said, "There is too much talk about hogs. We hear every day that we have the best hogs in the world and that this Province has the highest percentage of Grade A hogs in Canada. It is regrettable that in 1952 and 1953, there was such a cut down in hog production when the floor price was reduced from 26c to 23c. Evermore thought that the price was going to go down but it never reached the 23c. Instead it went up and up. This should be a lesson to Island hog producers not to be an "In and Outers."

The Minister said that poultry production was up for the past year but prices were down and the poultry producer had a tough time. "There is no doubt about it, we can produce the finest flavoured meat on any place in North America. This is evidenced by the fact that Island Poultry for two years in a row was winner at the Royal Winter Fair."

He told the House that the tendency in poultry products was toward the eviscerated bird, since the modern housewife no longer wants to go to the trouble of drawing and preparing it for the meal. He noted that there was a splendid market developing for the cut up chicken parts and packaged poultry.

DAIRYING The value of Prince Edward Island dairy products last year was \$3,644,539 from 222,000 lbs of milk yielding 6,125,000 lbs of butter with an average price of 61.63c per lb. "Someone is buying the milk we can't get Island cheese in the local retail stores," said Mr. Baker, "because it is used every week in my home and it bears the label 'Island Cheddar Cheese'."

John A. MacDonald (Third King's) what effect the New Zealand cheese going to have?" Mr. Baker: "It should have a good effect, since the importation of cheese should be one of the strongest arguments for the maintaining of the 58c support price on butter which is really a support price for all dairy products," the Minister added. "The evaporated milk industry should be encouraged since it will tend to lessen the surplus of cheese and butter products."

"That demonstrations in pruning and spraying of fruit trees will be carried out in the Province with a view to getting the production of apples back on a more productive basis, was noted by Mr. Baker. He noted that the production of strawberries could be doubled and was pleased that the Federal Government was carrying out some valuable experiments in connection with the growing of blueberries.

Tenders To Be Called For Remodeling Market Bldg.

Tenders for the remodeling of the Market Building will be called for immediately, it was decided yesterday afternoon at a special meeting of the City Council in the City Hall. His Worship Mayor J. D. Stewart presided.

The Market Building will be remodelled to include the offices of the P.E.I. Travel Bureau and the I.M.T. Bus Stop. Target date for the completion of the work has been set for May 1 with the operation to cost approximately \$20,000.

Revised specifications for the remodeling of the building were submitted to the Council yesterday by the architect, Mr. J. F. Toomey.

According to plans a wall will be built through the centre of the building separating the East and West ends. The offices of the Travel Bureau and Bus Stop will be in the West end. Entrance to the Travel Bureau will be from Queen Street and entrance to the Bus Stop from Market Square on Richmond Street. Entrance to the market will be from Market Street.

Work is expected to get underway early in March. The Council also voted yesterday to send Constables James Howatt and Preston Hillier to the Maritime Police School at Halifax for a 12-day course. This school is held annually and each year two men from the local force attend.

Local Kinsmen Observe Anniversary Of Founding

Charlottetown Kinsmen last night celebrated founder's night observing the 35th anniversary of the founding of the organization. The function was held at the Clover Club with approximately 175 in attendance.

The president, Percy MacDonald, presided, including in the program were toasts to the ladies of the association, the founder, the district, the City of Charlottetown, all of which were fittingly proposed and responded to.

The highlight of the evening was the presentation by Councilor Walthen Gaudet of the key to the association to the founder, the city speaker, former general secretary and past national president, S. H. (Banty) Bantick of Toronto. Councilor Gaudet pointed out that this was the first such presentation to distinguished persons in this, Charlottetown's centennial year.

The guest speaker dealt at some length with the record of the association since he took office back in 1935 when there were 34 clubs. The organization had grown to 296 clubs at the time of his retirement on Dec. 31, 1954.

He sketched the accomplishments to guard against this practice, otherwise they could not be assured that the act of incriminating work under such conditions.
