THE EASTERN QUESTION — OMER PASHA'S REPORT OF HIS VICTORIES AND WORK IN CANDIA.

A telegram from Constantinople, dated on the 22nd of July, says the following official despatch has been received from Omer Pasha, dated Sphakia, July 18:—Our soldiers, after two fights, have routed the insurgents and occupied the heights of Calikratie and Spendo, and, after securing possession of the mountains and villages of the same name, they proceeded across the plain of Askigo, where they effected their junction with the corps which came from Apocoren.

All the villages of the eastern part of Sphakia, and lastly, the whole district of Sphakia, excepting eight villages, which will be easily reduced, are now in the hands of the Imperial troops. The only resource left to the insurgents is to take refuge in the rocky and narrow valleys of the village of Samasia, where they can only remain a few days, after which there will be nothing left to them but complete submission.

The Ferekale Beni Pasha has subdued the district of Kissamo.

Colonel Mustapha Bey has just cut to pieces the four hundred Hellenic volunteers lately disembarked on the island, together with their commander, Captain Mietti, and two Greek officers. He also captured three hundred tons of biscuit, four hundred overcoats and twelve thousand rifles.

ESCOBEDO'S SANGUINARY LETTER.

The following is a copy in full of the letter of Gen. Escobedo, of Mexico, to the Governor of Neuvo Leon, threatening the pillage and extirpation of foreigners:—

"The execution of the traitors, which I had the satisfaction of directing, is good food for digestion. It will satisfy the Europeans, and the Yankees, too, that to trifle with Mexicans is death by the law. Had we complied with the request of the Yankees to spare the filibustero and his associate traitors, it would have been taken for cowardice, and the next thing would have been a request to give up our lands, our mines, and women. After this we shall be allowed to worship our own God, till our own soil, work our own mines, and not have our women defiled by Yankee libertines.

"I am now in favor of making clean work of the detested 'Gringos.' This country belongs to God and us, and just so long as one foreigner remains on our soil our liberty is in jeopardy. By every means in our power we should make the country Mexican; and as all the property in the hands of foreigners was made by our misfortunes, we should take it, now that we have the power, and hunt them from the country. My motto now is—Death to all estrangeros!

"There is no danger of the Yankees interfering with us so long as the Southern States (Estados del Sud) are kept out of the Union; beside, the black men would side with us, and may at any time pronounce against the whites. Before we get through with the foreigners the Yankees will think we are in earnest, and the time will come when their notables will be begging for their own heads instead of begging for the Austrian.

"In our struggles for liberty we have lost nearly all. Our lands and our mines, and our liberty, and our women, and our honors, we still have; but the foreigners have all the available wealth of the Republic; but they will see in less than three years that Mexicans will have what they want in Mexico. You will understand from this my position, and should I by any chance whatever become a candidate, you will understand my unalterable platform. Whenever the time comes you can make this letter public in such manner as you may think proper. I know that you and I think alike on these matters, and I know that my countrymen will applaud our patriotic determination."

The Ottawa as a Pleasant Route.—Mr. Mause Tracy Walworth, in a letter to the *Home Journal*, thus describes the scenery of the Ottawa River:

"The trip up the Ottawa from Montreal to the falls, at the new seat of government, a distance of one hundred and twenty miles, is worthy the attention of those tourists who have exhausted the northern scenery of the States. The river is alternately wild, serene, tortuous, and beautiful, spreading into broad lakes, dotted with islands, rushing between grassy peninsulas, and again serenely moving amid the forests, whose dark shadows fall into its mirror. Mountains gaze into it, rocky bluffs guard it and silver rapids ripple its surface. It is a charm by day, and silver wonder by moonlight. As the glories of the sunset fade away from its western bank, the clear, sweet music of the whip-poor-will rings out from the bordering shrubbery, and on the dark background of its forests glimmer the insect lights of the wilderness. The firefly here swings golden and green lamps along the shore clearer, brighter, and more continuous than in the haunts of men. It is a noble stream, seven hundred miles in length, and navigable above the falls of Ottawa one hundred and twenty miles, with the exception of some half-dozen rapids which have to be passed in car or stage. It will ever be remembered as the haunt of the beautiful, the serene, and the grand."

The Killing of Capt. Spear.—St. Louis, July 26.—The killing of Capt Spear, an officer of the English army, by a soldier on board the steamer *Octavia* in the Upper Missouri River, some time ago, is likely to become an international affair. Courtney Terry, of the 68th Royal Rifles, a personal friend of Capt. Spear, is now here taking testimony in the case under the instructions of the English Minister at Washington.

Miss Burdett Coutts has erected a market for the poor of London, near Columbia Square, Bethnal-green. It is a model establishment—elegant, substantial, convenient.

SOME OF THE EFFECTS OF THE LATE GALE MELANCHOLY ACCIDENT.

On the evening of Friday last, the 2d inst, previous to the heavy gale, a Boat containing five persons, left Cape John, near Brule, Nova Scotia, for a night's fishing, and all on board are supposed to have perished. The boat has subsequently been picked up near Point Prim. The names of the parties were Charles Stranberg, John McLeod and Paul McDonald, farmers, Cape John; Charles R. Stranberg, teacher in the Academy, River John, and David J. Stranberg,—containing, we understand, an uncle and two brothers of Mr. N. P. Stranberg, of this city.

☞ The "Volunteer Pic Nic" came off on Wednesday last, on the delightful grounds of Col. Cumberland, "Warren Farm." The Steamer *Heather Belle* made three trips between Charlottetown and Rocky Point Wharf, for the purpose of conveying the Volunteers and their friends to the vicinity of the grounds on which they were to spend the day. The Pic Nic was largely attended by all classes of the community, and passed off to the entire satisfaction of all concerned. The only thing that occurred to mar the pleasure of the day was the setting on fire—by some parties residing on that side of the river—the woods in the vicinity of Warren Farm, the heat and smoke from which was very oppressive.—*Isl.*

We beg to call the attention of our readers to the Annual Caledonia Gathering advertised for Wednesday, the 21st inst. The games are this year more numerous and varied than on any previous occasion; and the fact that the proceeds are to be given to the fund for completing the monument now in course of erection to the memory of Sir William Wallace, one of Caledonia's most illustrious sons, will make the present meeting of the Clans the largest ever held in Prince Edward Island. Every Scotchman ought to have a stone in the Wallace Monument. In addition to prizes for All-Comers, we may remind the Volunteers that the games are open for competition to two members in uniform from each Company. Among the distinguished visitors expected, we may mention Kennedy, the great Vocalist. The Government have ordered a public holiday in honor of the gathering. A military review is also announced for the 21st, which promises to be one of the "biggest days" of the season.—*Pat.*

A correspondent of the Boston *Journal* describes a disaster which occurred at Mount Desert, Maine, on Wednesday last:—

"We have had a sad occurrence here to-day. A boat from Southwest Harbor—a locality fifteen miles from this—came round to Bow Harbor in charge of a man by the name of Robinson, having as passengers, Rev. Mr. Chase and wife, of Philadelphia; Mr. and Mrs. T. F. Clark, of Framingham; Miss Julia Blake of Framingham. Mr. Harmar and two young ladies from Philadelphia. The party spent an hour here, lunched and started to return, (just as I came in from fishing, when I reported the wind as heavy outside); when about three miles out a strong breeze overtook them and threw the boat on her beam ends, and her passengers into the sea. The boat righted, but filled and sunk in a moment. Two boats were in sight, only one of which was able to reach the spot of the disaster in time to be of service, and she could only save one, Miss Blake. Capt. Higgins, late of U. S. Coast Survey, was in charge of this boat, and had with him a small boy as an assistant, and Rev. Mr. Maseley, of Brookline, Mass, as passenger. Miss Blake was rescued while clinging to an oar, wholly unconscious; and her safety is the result of the noble conduct of Capt. Higgins, and the kind nursing of Rev. Mr Maseley."

A letter from Wiesbaden gives some details of a singular calamity that has befallen that town. A few evenings back a waterspout greater than those of 1810 and 1832, broke over the place, causing incalculable damage. The Kursaal has been all but destroyed. Enormous stones and articles of furniture were carried along the streets by the torrent, which in one place made a channel for itself nearly six metres deep. Three houses are said to have fallen, and the celebrated Meroburg vine, belonging to the Duke de Noyau, is totally ruined. Two women and three children are reported to have perished. In the evening the mud and the dead fish—several carp had been at an earlier hour caught in the Place du Theatre—exhaled so bad an odor that an epidemic is feared. Some persons say they felt the shock of an earthquake.

The New York Evening *Post* says:—"The 'New Dominion,' we are told, has a really good opportunity, just now, to benefit herself at our expense. Every industry in the United States is now oppressed by our absurd high tariff. Let the Canadians fling open their ports, and they will draw thither the greater part of the commerce we are driving away from our ports, and will allure to their own region also many industries that are suffering and perishing here. Our folly gives the statesmen of the new Dominion a very great opportunity to accomplish what they have been sighing for and talking about for many years, to make the British Provinces the seat of a varied industry and thriving commerce. The protectionists in this country have done their best to fetter and destroy our commerce; they have, by their absurd and criminal legislation, already driven several important industries into the British Provinces, such as shipbuilding, a part of the lumber trade, &c. Make the ports of the new Dominion free, and the people will see such a rush of commerce, industry and capital to them."

Singular Presentiment.—A lady in Reading, Mass., while conversing with some callers, suddenly turned pale, and sinking into a chair, exclaimed, "Did you hear that gun? It affected me strangely;" and wept inconsolably. Her visitors had heard no report, and it afterward appeared that no gun had been fired at the time or the place. News came, however, that her brother, residing a hundred miles away, was at that very hour fatally shot by the accidental discharge of his fowling-piece, while hunting in a grove near his house.

A Duel with Pocket Knives.—The New Orleans *Times* of the 19th, vouches for the truth of the following:—A Captain Clarke, recently connected with the Freedmen's Bureau, and a Mr. Jacob Garret, recently had a dispute regarding the interest of the Captain in a plantation, which led to threats, defiance, and an agreement to settle the matter by means of a duel, to be fought with pocket knives. This frightful proposition being agreed upon, the two desperate, infuriated men immediately proceeded to execute it by drawing their knives and rushing together. We are told that the fearful combat lasted a considerable time, the men grasping each other by the left hand, and with the right cutting, slashing, and stabbing indiscriminately in the back and body, on the face and hands, until Captain Clarke fell, exhausted from the loss of blood. Both men presented a horrible appearance, being literally hacked and gashed all over the upper part of the body and arms. Captain Clarke expired about twelve hours after the fight, and at last accounts Mr. Garrett was considered beyond the hope of recovery.

Henry Ward Beecher says the "item" column in a newspaper is worth all the rest, for "like a caravan, it stretches along with packages and parcels, spices and gems, bits of fragrance or cunningly wrought metals, gathered from the Orient and from the whole world besides. The items of the paper, like the stuffing of the Thanksgiving turkey, represents everything in the house, crusts of bread, crackers and all spices."

An enterprising merchant of Cincinnati proposes to send wheat down the Mississippi to New Orleans and thence to New York for half the ruling rates, or for 30 c. a bushel.

California papers say that San Francisco sends away forty tons of silver and six tons of gold every month, and that the State exports 10,000 tons of copper annually.

The New York distillers were sentenced on Wednesday to the penitentiary for one and two years respectively, for attempting to defraud the government.

California editors love to tell large stories of California products. The San Francisco Bulletin states that near Monterey there are frogs weighing twenty five pounds, and their croaking can be heard six miles. The same veracious authority avers that they are used in place of fog bells, and cost nothing to keep in repair.

It is said that the French Emperor will be one or two hundred thousand dollars in debt before the Exhibition closes, in consequence of the magnificent entertainments he has so constantly given during the summer.

"Gertrude Grey," rather a plain looking girl of about twenty-five years, has been swindling people in Boston under the pretence that she has just escaped from a nunnery, has been robbed, &c. She has been a swindler for some years.

The newest expedient of the illicit whisky distillers in New York, to cheat the government, is to construct their "stills" on board vessels in the harbour. One of these has been seized, and the detectives are now on the tracks of others.

GEORGE LEWIS, Market Clerk.

A Human Time-Piece.—A wonderful story is told of a man named J. D. Chevalley, a native of Switzerland, who had in 1865, at the age of 66, arrived at an astonishing degree of perfection in reckoning time by an internal movement. He was, in fact, a human time-piece or living clock. In his youth he was acustomed to pay great attention to the ringing of bells and vibrations of pendulums, and by degrees he acquired the power of counting a succession of intervals exactly equal to those which the vibration of the sound produced. Being on board a steamboat on Lake Geneva on July 14, 1832 he engaged to indicate to the crowd around the lapse of a quarter of an hour, or as many minutes and seconds as any choose to name, and this during a most diversified conversation with those standing by; and further, to indicate by his voice the moment when the hand passed over the quarter, minutes, or any other subdivision previously stipulated during the whole course of the experiment. This he did without mistake, notwithstanding the exertions of those about him to distract his attention, and clapped his hands at the conclusion of the fixed time. His own account of his gift was as follows: "I have acquired by imitation, labor and patience a movement which neither thought nor labor nor anything can stop It is similar to that of a pendulum, which, in its going and returning gives me the space of three seconds, so that 20 of them make a minute, and these I add to others continually."

Sir Morton Peto's creditors are likely to get about three cents on a dollar of the fifty or sixty millions of dollars due them.

Holloway's Pills—Stomach and Bowel Complaints.—The stomach is the commissariat of the physical system. It furnishes the material sustenance of every organ. If disordered, the whole body languishes; but however severely affected, its tone and vigour may always be restored by a course of these irresistible Pills. Biliousness, indigestion and liver complaints can easily be cured by the use of Holloway's Pills. Thousands attest this assertion, and no sufferer who has ever tried them will deny their supreme efficacy. In every case of stomach disease, from the mildest case of dyspepsia to the horrifying cancer, from the nausea of the free liver to the vomiting accompanying ulcerated stomach, these Pills immediately relieve—generally cure.

A Clergyman (Rev. J. McMurray,) writing from Halifax, N. S., says, "Having suffered several years with throat affection, to which clergymen are especially subject, and having used various remedies, I have pleasure in giving my testimony as to the relief I have had in the discharge of my Sabbath labors from the use of "*Brown's Bronchial Troches*." They have been a great comfort. Others to whom I have recommended them have used them with advantage." For Coughs and Colds the Troches are equally efficacious.

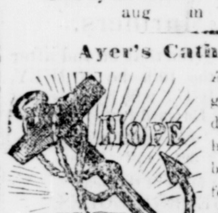
Ayer's Cathartic Pills



Are the most perfect purgative we are able to produce, and, as we think, has ever yet been made by any body. Their effects have abundantly shown to the community how much they excel the other medicines in use. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood, and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impart tone and strength to the whole system. Not only do they cure the every day complaints of everybody, but formidable and dangerous diseases. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and, being purely vegetable, are entirely harmless. Cures have been made that would surpass belief, were they not substantiated by men of such exalted character, as to forbid the suspicion of untruth. Many eminent clergymen and physicians certify to the public the reliability of our remedies, while others have sent us the assurance of their conviction that our Preparations contribute immensely to the relief of our afflicted fellow-men.

The Agent below named is pleased to furnish gratis our American Almanac, containing directions for the use of these medicines and certificates of their cures of the following complaints:—

Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Diseases which require an evacuant medicine. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred disorders arising from a low state of the body, or obstruction of its functions.

Do not be put off by unprincipled dealers with other preparations on which they make more profit. Demand Ayer's and take no others. The sick want the best aid there is for them, and they should have it.

Prepared by Dr J. C Ayer & Co, Lowell, Mass. and sold by all Druggists and dealers in medicine everywhere.

W. R. Watson, General Agent for Prince Edward Island. [july 1 2m
