STORMY CAUCUS OF LIBERAL MEMBERS

They Want an Addition to Sessional Indemnity

NOTHING DONE ABOUT PROHIBITION

Vigorous Kicks by Liberal Politicians.

[SPECIAL TO THE EXAMINER.]

OTTAWA, July 24.—The Government caucus held on Saturday is said to have been a stormy affair.

The members made strong and instant demands for extra indemnity, which the ministers resisted.

Some who had received promises from Mr. Tarte of public works grants are doing vigorous kicking.

The caucus closed without finishing its work and will meet in a day or two again.

The question of Mr. Flint's provincial prohibition resolution is still to be fought out.

The opinion is gaining force that the Government will appeal to the country before the year is out.

There are certainly strong indications of this; but it is not probable that a final determination has yet been reached.

Asthma Cured

After Twelve Years' Suffering—Toronto Physicians Advised Leaving Her Home to go to Manitoba—Clarke's Kola Compound Cured.

Mrs. McTaggart, 80 Vanauley st., Toronto, writes: "I have been troubled with asthma and bronchitis for twelve years, which gradually grew worse each year in spite of the hundreds of dollars my husband has spent with several doctors, and almost every remedy we could procure, which only afforded temporary relief. For the past two years I could not lie on my left side, and during the past year previous to taking Clarke's Kola Compound the asthma became so severe that I had not had a full night's sleep, and during most of that time we had a doctor in attendance. We gave up several doctors, as I was becoming no better, and the last doctor, after about two months' treatment, told me he could do nothing for me, and advised me to go to Manitoba or some dry climate. We heard of Clarke's Kola Compound being a cure for asthma, and before taking this remedy made several inquiries from those who had taken it, and in each case found the result so satisfactory that we resolved to try it. After taking the first bottle I became much better, and began to sleep well at nights. Since taking the third bottle I have not felt the slightest symptoms of my former trouble. I have during the past six months gained nearly 20 pounds in flesh and feel perfectly healthy in every way. I can assure you that I will do all in my power to induce any sufferer from this terrible disease to try it."

ALASKAN BOUNDARY.

Sir Charles Tells the Government What Ought to be Done.

[SPECIAL TO THE EXAMINER.]

OTTAWA, July 24.—In the House of Commons Saturday Sir Charles Tupper reviewed the Alaskan Boundary controversy supporting the attitude of the Government in maintaining the rights of Canada.

After a careful examination of the whole question he had reached the conclusion that the Government should take power at this session to do two things: First, to build an all-Canadian line of railway into the Yukon; second to proclaim in the Yukon, laws relating to the United States miners similar to those in force in the United States regarding alien ownership of mines.

Sir Wilfred Laurier said that he appreciated the spirit of Sir Charles, treatment of the case and thanked him for refraining from embarrassing the government in these difficult negotiations.

PREMIER LAURIER CAUSES A SENSATION

By His Rash Words About War.

UNITED STATES AS WELL AS CANADIAN NEWSPAPERS

Make a Great Spread About the Matter.

[SPECIAL TO THE EXAMINER.]

OTTAWA, July 24.—Saturday evening papers in Ontario have placed sensational headlines over the report of Sir Wilfrid Laurier's words on the Alaska Boundary question.

The Toronto Telegram heads its reports "we may be on the brink of war," and refers to the Premier's remarks as "portentous statements." The Government organs, in this city use equally strong words.

New York and Boston papers are also making a great spread over the matter and Goldwin Smith, in an interview, strongly condemns the rash language of the Premier.

A CHILD'S FUNERAL.

Yesterday through the streets of our city wound a funeral procession. A funeral procession is at all times a sad spectacle; but, when the funeral procession follows to the grave the body of a child, the sadness becomes intensified and the only relief to the pent up feelings of sorrow is to be found with the flow our tears. The little white coffin covered with flowers, the pall borne by her school companions, with dresses and veils of snowy whiteness, and the draped horses preceded by her class mates, clad in garments emblematic of the innocence of her own young spirit, gave unmistakable evidences that the frosts of death had killed the budding flower even with the summer sun. On the 22nd day of June, on the platform of the hall of the convent of Notre Dame, Ehel McGonnell, a child of eleven years, daughter of Peter McGonnell, of the surveying steamer Gularre, was as strong and as vigorous as any of the pupils; on the 22nd day of July, exactly one month from that night she died. At first there was hope for her speedy recovery. A few days proved to the physician that restoration to health was an impossibility and that death was only a matter of a week or two. She continued to grow worse and on Saturday, at three o'clock, she breathed her last. Yesterday when the news of her death was announced, the children in crowds came to her father's residence to take a last look, in death, at the face of their little companion. Broken accents, and sobs and sighs were heard on every hand. Sorrow, childlike and sincere, was in every line on every brow. St. Dunstan's Cathedral, where the funeral services were held, was well filled. Rev. Dr. Morrison, intoning the Litanies, the choir responding. The pall-bearers were, Ida Byrne, Winnie Griffith, Josie McAree, George Smith, Clemie Clarken, Blanch Trainor.

The mourners preceding the hearse were Mable Duffy, Minnie McCourt, Mary Walsh, Amy Kelly, Anastasia Powse, May McQuaid, Millie Steele, Ada Gillian, Gerie Fitzgerald, Mary Butler.

The services at the grave were impressive and much sympathy was expressed.
