Atoms For Peace Plan Approved Unanimously By U. N. Committee

P. E. I. Appointments Under Recent Reorganization of Reserve Army

Brigadier G. G. K. Peake, D.S.O., E.D., Commander No. 2 Group Headquarters. Lieut. Col. J. A. MacDonald, D.S.O., E.D., Staff Officer in charge of Training.

Colonel J. H. Shaw, R.C.A.M.C., attached to No. 2 Group Headquarters Staff from the Medical Advisory Staff of Eastern Command Headquarters. Lieut. Col. J. T. Davies, C.D., Administration Branch Group Headquarters Staff Commander.

Brigadier G. G. K. Peake, D.S.O., E.D., has been named Commander of No. 2 Group Headquarters, Charlottetown, under the recent reorganization of Reserve Forces on a group basis, with each Military Group located in a specific geographic area.

The Reserve Force, one of the several components of the Canadian Army, provides the basis for the organization of a field force in the event of emergency.

In September of this year there was an extensive reorganization of this Force based on the recommendations of a special committee, set up by the Department of National Defence.

Believe Foreign Sub Saw Exercises
PRETORIA, South Africa (Reuters)—An unknown foreign submarine is believed to have been lying off Durban during sea-air exercises last June, the South African defence department said Tuesday.

LOCAL ARMY UNITS
The function and responsibilities of this Militia Group Headquarters is to control and coordinate the following local Army (Militia) units which are under its command.

Churchill Didn't Trust Russians
WOODFORD, Eng. (Reuters)—Prime Minister Churchill said Tuesday night that before the Second World War ended, he gave orders that German arms should be collected carefully and stacked "so they could easily be issued again to the German soldiers with whom we should have to work if the Soviet advance continued."

(By William Harcourt, Canadian Press Staff Writer) UNITED NATIONS, N. Y. (CP)—Russia has joined the rest of the United Nations in unanimously approving President Eisenhower's plan for the peaceful development of atomic energy.

The 60-member political committee Tuesday adopted a resolution endorsing negotiations for an international atomic energy agency to operate the plan, and for an international conference of atomic scientists to be held next summer.

It was the second time in three weeks that the West and Russia have agreed on a major subject. On Nov. 4, the assembly unanimously instructed the UN disarmament commission to resume talks toward limitation of armaments and prohibition of nuclear weapons.

80-YEAR STALEMATE
Until this unanimous agreement on disarmament, the West and Russia had been stalemated on major issues for eight years.

U. S. delegate Henry Cabot Lodge, who acted as spokesman for the seven powers sponsoring the resolution in private conciliatory talks with the late Soviet delegate Andrei Vishinsky, hailed the unanimous action as a "historic moment" that promised "enormous good to mankind."

Lodge and his co-sponsors—the delegates of Canada, Britain, France, Australia, South Africa and Belgium—obviously were relieved when Soviet delegate Arkady Sobolev raised his hand along with the others in unanimously approving the resolution as a whole.

Publisher Heads Group To Attend December Meeting of NATO Council

LONDON (CP)—Roy H. Thomson, Canadian publisher, will attend the December meeting of the North Atlantic Treaty Organization council in Paris as the head of an eight-country delegation.

Mr. Thomson, who owns a group of Canadian and United States newspapers and publishes four dailies and weeklies in Britain, has been asked to lead the group which will present a "declaration of Atlantic unity" to the council.

The delegation represents 170 leading citizens of Canada, the United States, Britain, France, Belgium, Holland, Denmark and Norway.

Among those included are Canadian labor leaders Percy Bough and A. R. Mosher, former U. S. President Harry Truman, Malcolm Muggeridge, editor of the British magazine Punch, and Clement Davies, leader of the British Liberal party.

Israeli Trawler Asks Tow To Port

HALIFAX (CP)—The 500-ton Israeli trawler D'Vora ran low on fuel 450 miles east of St. John's, Nfld., Tuesday and asked for a tow to port.

RCAF search and rescue centre here said the trawler was hoisted with only enough fuel for 24 hours. The 350-ton tanker Elizabeth B., about 80 miles away, changed course to go to her aid and was expected to reach the D'Vora this morning.

Lloyd's Register lists the Elizabeth B. as British-owned.

News Briefs From Home And Abroad

QUEBEC (CP)—Liberal leader George Lapalme said in the legislative assembly Tuesday Transport Minister George Marler may be Prime Minister St. Laurent's successor to the leadership of the Liberal party.

LINDEN, N. J. (AP)—Standard Oil Co. N. J. Tuesday announced plans for a major atomic research project. An atomic radiation laboratory will be built here by the company's research affiliate, Standard Oil Development Co.

HALIFAX (CP)—The Dutch freighter Telesias captured the port of Halifax plaque Tuesday as the first ship to arrive here during Port of Halifax Week.

NEW YORK (AP)—French Premier Pierre Mendes-France took off for home Tuesday night, ending a 10-day North American visit. He left aboard a chartered plane from Idlewild airport after expressing gratitude to the U. S. government and the American people for his reception here.

U. S. Considering Investing Billions In Undeveloped Countries of World

WASHINGTON (AP)—Eisenhower administration officials are reported to be considering a big new foreign economic program which may lead to the investment of billions of dollars in undeveloped countries of the world, notably in non-Communist Asia.

Truckers Accuse Railways of Waging Needless And Destructive Rate War

TORONTO (CP)—The Canadian railways were accused by a trucking industry spokesman Tuesday of pouring their financial resources into a "fanatical, needless and mutually-destructive rate war" with highway transport.

John Magee of Ottawa, executive secretary of Canadian Trucking Associations, said the move has wrecked any chance of favorable 1954 operating results for the railroads.

He addressed the annual convention of the Automotive Transport Association of Ontario, a GTA affiliate, GTA is the national organization of about 7,000 over-the-road truck operators.

The statements were included in a text of a speech issued to the press before delivery.

"The president of the CNR," he said, "confessed his 'crushing' disappointment that the CNR—the recapitalized Canadian National that was to be deficit-free—would look to the people of Canada for payment of a \$20,000,000 deficit this year."

Cayuga Home For Christmas

OTTAWA (CP)—The Canadian destroyer Cayuga, on her way to Victoria after completing her third tour of duty with United Nations naval forces in the Far East, will be home for Christmas.

Naval headquarters announced Tuesday that the 2,700-ton ship left Sasebo, Japan, Monday and is due to arrive at her home base at Esquimalt, B. C. Dec. 12.

By the time she gets back she will have been absent from Canada for 13 months, one of the longest Korean tours by any Canadian naval ship.

The navy said the two other Canadian ships now serving in the Far East, the Halifax-based destroyer escort Huron and Iroquois, will leave Japan Dec. 26 and sail to Canada by way of the Suez canal, the Mediterranean and the Atlantic. They are due in Halifax March 19.

Canadian Air Force Officer To Be Released Sunday By Chinese Reds

OTTAWA (CP)—Air Force headquarters said Tuesday Sgdn. Ldr. A. R. MacKenzie of Montreal will be released Sunday, Dec. 5, by the Chinese Communists.

Sgdn. Ldr. MacKenzie, 34, shot down during the Korean war in December, 1952, will be released at the border of Hong Kong, British crown colony. The air force said in a statement news of his release was received by the external affairs department in "an informal communication."

MacKenzie, credited with destroying 8½ enemy planes during the Second World War, was one of 21 RCAF fighter pilots who served with the U. S. Air Force in the Korean War.

MacKenzie was shot down northeast of Sinuiju in North Korea, not far from the Yalu river boundary with Manchuria. No one saw his plane or parachute come down but subsequent reports by repatriated prisoners-of-war indicated he had been seen in a Communist pris-

Some basic recommendations for operations in the new field may come before Christmas from Joseph M. Dodge, former budget director, Detroit banker and government adviser on various economic and financial problems over many years.

Red Carpet Out For Queen Mother Today

SOUTHAMPTON, Eng. (Reuters)—The red carpet is out for the Queen Mother today as she arrives in London for her visit to the United States and Canada.

Although she arrived Tuesday night aboard the liner Queen Mary, the Queen Mother did not disembark until this morning.

She will walk to the red-carpeted platform and board the train which will take her to Waterloo station in London where the Queen, the Duke of Edinburgh and Princess Margaret will be waiting.

Thousands of Londoners are expected to turn out to welcome Britain's "ambassador-at-large" and to see the royal procession in which she will drive to her own home, Clarence House.

DEFENDS TRUCKERS

Of the rate slashes this year on the Montreal-Toronto run—heaviest traffic route in Canada—he said there had been rate-cutting provocation from truckers for initial railway reductions early in the year.

But there had been none for a second "drastic" railway drop in September averaging 35 per cent below existing truck rates.

"Instead," Mr. Magee said, "they were a naked attempt to use the mighty economic resources of the railways—in the case of the CNR, limited only to the extent of the credit of Canada—to force to the wall interprovincial trucking companies whose services are of vital importance to industry, agriculture and, not least of all, to national defence."

"All this," he said, "is clearly and irrevocably the concern of the people of Canada... Inevitably, the federal government will be shaken from its aloofness on the competitive rate situation, shaken into action, an event which the trucking industry must await with fortitude while facing the storm and weathering it."

WAS PREPARED TO USE GERMANS IF RED ADVANCE CONTINUED

Churchill Didn't Trust Russians

WOODFORD, Eng. (Reuters)—Prime Minister Churchill said Tuesday night that before the Second World War ended, he gave orders that German arms should be collected carefully and stacked "so they could easily be issued again to the German soldiers with whom we should have to work if the Soviet advance continued."

Churchill, who was speaking in his constituency here, said he believed he was the first prominent person "to publicly state the fact that we must have Germany on our side against Russian Communist aggression."

He said the directions about collecting German arms had been sent to Lord Montgomery, then British commander in Germany.

The prime minister said that with the Labor party vote to support the London and Paris agreements, more than three-quarters of the British people's representatives now have declared themselves for rearming Germany and including her in the ranks of the NATO powers.

OUTLINE ADVOCACY
Outlining his early public advocacy of German help against Russian aggression, Churchill surrendered unconditionally had predicted that we should be allies within 10 years very few people would have believed them here and still fewer in America.
