That is to say, your lungs. Also all your breathing machinery. Very wonderful machinery it is.

When these are clogged and choked with matter which ought not to be there, your lungs cannot half do their work.

Call it cold, cough, croup, pneumonia, catarrh, consumption or any of the family of throat and nose and head and lung obstructions, all are bad.

Blowing up Hell Gate has been a laborious and costly work, but the end justifies the effort. Obstruction in any important channel means disaster.
