ADVERTISING RATES

For small advertisements which are ordered for only one or two weeks the charge is cents per inch for the first insertion, and 0 cents for each continuation. Rate cards are furnished on application at the office. Special contract prices at a reduced rate are quoted for advertisements four inches in size or larger, which are to run for three months or longer.

No special notices inserted unless paid for at the rate of 10 cents per line, and under no circumstances will such paid notices appear in the local column.

Special discounts made on all advertisements connected with Church Fairs, Bazaars, Picnics, etc. No notices will be inserted with the same unless the regular rate of 10 cents per inch is paid.

That THE EXAMINER is considered by our Merchants and Manufacturers to be the leading newspaper in P. E. Island, and consequently the most valuable advertising medium through which to make their announcements public, is abundantly proved by the fact that in order to accommodate our advertisers we have been compelled to enlarge the paper to its present size.

THE DAILY EXAMINER is for sale by the following agents:—

Prince Edward Island ELECTRIC COMPANY.

With a view of meeting the numerous applications recently made by the residents of Charlottetown for Electric Lights, this Company begs to inform the public that it will increase its plant in the course of May next, if the number of new subscribers for Electric Light justifies the outlay.

With a view also of lowering the cost of Electric Lighting, the Company will furnish to its consumers from this date the Packard Incandescent Lamps at cost, i. e., 35 cents each.

Lamps will only be delivered daily, between the hours of 10 a. m. and 8 p. m., so as not to interfere with the working of the Station.

LOGIC!

Statements founded on facts need no pillars of support. It is an open secret that we can and do sell cheaper than any other Grocery House in the city. We are caterers for all kinds of trades, and we warrant every article we sell.

We have a large stock of FLOUR, KEROSENE OIL and TEA, which we have bought at the lowest figures touched this season, and we intend giving our customers the benefit of these low figures.

Flour from $3.00 per barrel up; 4 gallons best American Kerosene Oil, with good heavy tin can, for $1.00; 5 pounds of Choice Blended Tea for $1.10.

Eggs and Butter taken in exchange for cash or goods. Goods delivered to all parts of the town free of charge.

LETTERS TO THE EDITOR.

OUR WATER SYSTEM.

SIR,—Your correspondent, Mr. L. P. Tanton, by his flippant style of dealing with the subject, seems to know all about water. Kindly permit me to ask him what is meant by the following sentences, taken from his letter of the 23rd inst.:

"Take for illustration two lengths of pipe one perfectly sound, and the other thickly perforated with small holes over its entire length. Place both pipes on a level with each other, one end of each pipe closed up and the other end of each attached to a reservoir. In the sound pipe you will find the pressure the same at both ends and on all sides. In the perforated pipe the further you get away from the reservoir the weaker the pressure. The question then is whether or not the larger number of taps in use along the line of transit accompanied by the retarding influence of turns in the pipes and the resistance of friction is not calculated to send this theory of 'equal pressure' to school for a second term."

I was going to say that Mr. Tanton was "all at sea," had it not been for the fact that he tells us—quite deliberately too—that he has some knowledge of the subject under consideration. If I understand the matter aright, the proposed pipe line on the Malpeque Road is to be placed there to complete the circuit. When it is laid there will be a complete single pipe-line from the reservoir along the Mount Edward and St. Peter's roads to the city, and back again via the Malpeque road to the reservoir, after connecting with the pumps at the pumping station. If this be so, then Mr. Tanton's theory about "perforated pipe" and "perfectly sound pipe" and the placing of them "on a level with each other" is utter nonsense, as the perforations and taps do not apply, there being no second line with which to make the comparison, but only one continous circuit.

The laying of the additional pipes to complete the system costs money, and if it can be demonstrated that our water system in its present condition is sufficiently safe, it is folly to think of laying down the Malpeque Road portion. I am not in a position to say whether or not it is so; but this I am prepared to say that, with the Malpeque Road line completed, we will have two lines, instead of one—as at present — to supply the city for all purposes; and also have two pipe lines to supply the reservoir. For instance, should a break take place on the direct line between the pumping station and the reservoir, the city could be supplied and the reservoir kept full, at the same time, by the direct line via. Malpeque Road. Or if a break should occur on the Mt. Edward line the city could be supplied either from the reservoir or from the pumping station, direct, as completely as if no break had occurred. Or if a break should occur at College hill, for instance, water takers on the Malpeque Road could still be supplied via. Mt. Edward and St. Peter's Roads through the city back to College hill. The advantage to be gained by this additional line is self-evident, and it does not require a knowledge of the science which treats of fluids or any other science to understand this. A little hydrostatics mixed with common sense is good indeed, but hydrostatics without common sense is useless.

MR. McKENZIE ADDRESSED.

The following address explains itself:—

Charlottetown, P. E. I.,
23rd January, 1895.

To Daniel McKenzie, Esq., St. George's L. O. Lodge, No. 1171.

DEAR SIR AND BROTHER,—We, your brethern, having learned with regret, your intention of leaving Prince Edward Island, take this opportunity of expressing to you our sincere sorrow at your departure, and the loss of St. George's Lodge will sustain in not having your presence. We look back with pleasure to the many interesting meetings we had in our lodge room, and to your good advice and timely counsel at all times in matters pertaining to our glorious order and to the honor of our institution.

We trust that if you adhere to the same principles which have always characterized your conduct while amongst us, our loss will be the gain of those with whom your lot may be cast. We also hope that you may be blessed with health and prosperity, and that the Holy Bible, on which our noble Order is founded, may be your guide through life.

Signed on behalf of the Lodge.

A Noted Physician's Views on the Subject.

Asthma has hitherto baffled the skill of our best physicians. Within a comparatively recent period Dr. R Schiffman, of St. Paul, Minn., who has devoted many years of study to the treatment of asthma, bronchitis, and croup, has prepared a remedy for these affections which is meeting with great success wherever introduced. With this remedy there is no waiting for results. It is not a nauseating compound to be swallowed, but is used by inhalation, thus reaching the seat of disease direct. Its action is immediate and certain. Acting directly on the mucuous membrane of the air passages, it relieves the spasm and constriction instantaneously, facilitates free and easy expectorations, and insures comfortable rest to those otherwse unable to sleep, except in a chair. All druggists have this remedy in stock, but in order that every sufferer who has in vain tried every other means of relief may test its efficacy, the doctor's representative will give away a free trial package, solely as an advertisement, to every one who applies today or to-morrow, at G. E. Hughes' Drug Store, Queen Square, Charlottetown, thus convincing the most skeptical. Persons living at a distance who wish to try a free sample should address Lyman, Knox & Co., Wholesale Agents for Canada, 374 St. Paul Street, Montreal.

School Teachers, Beware!

A Profession Not Overpaid that has Many Dangers.

BADLY VENTILATED SCHOOLS AND CONTACT WITH DISEASE.

Paine's Celery Compound Cleanses the Blood and Keeps up Strength and Vitality.

It Banishes Languor, Despondency and Irritability.

The majority of our public school teachers, male and female, have many dangers to face in a profession that is never overpaid.

Many teachers are suffering to-day from maladies and diseases contracted in crowded and badly ventilated school buildings; the seeds of fatal troubles are taken into the system from imperfect drainage, and contact with children who carry infectious diseases from their homes.

At this moment hundreds of school teachers are invalids, or go about the performance of their duties in a half-dead way. Nervous troubles are prevalent amongst teachers; headache, dyspepsia, languor, irritability and despondency are common troubles, and make life truly miserable.

The school teachers' friend and lifegiver, Paine's Celery Compound, has done a wondrous work in the ranks of the afflicted ones. During the year 1894 scores of cases have come before our notice of sick and suffering ones having been restored to new life, energy and activity through the use of nature's wonderful medicine.

Paine's Celery Compound has been a true blessing to every teacher who used it. The great medicine has done its work promptly and efficaciously. It always begins its operations at the great nerve centres; it cleanses and purifies the blood, and takes all impurities from the system; it strengthens every digestive organ, and builds up the entire system. Every school teacher in the land, male and female, should use Paine's Celery Compound if sound health and perfect bodily strength is desired.

MME. EMMA EAMES.

The Great Soprano.

Very beautiful are the features of Mdme. Emma Eames, the great singer, whose art has delighted many thousands. Her presence is gracious, her intellectuality unquestioned and her voice a perfect delight. Praise from one so celebrated, then, has a high value, and this is what Mdme. Emma Eames says of "Vin Mariani," the famous tonic wine:—"Vin Mariani" is a most delightful and efficacious tonic, of inestimable value." All public characters, doing a great deal of brain work, feel the beneficial effects of this tonic-stimulant, which is a great nourisher of the brain, imparting at the same time to the body, debilitated or depressed, new vigor, so that it has been well called by Zola, the elixir of life. "Vin Mariani" is more tonic than iron or quinine, and does not produce constipation. Send your address to Lawrence A. Wilson & Co., Montreal, the Canadian Agents, and you will receive an album, containing the portraits of a large number of celebrities, who have spoken enthusiastically of this notable stimulant, prepared from pure grapes and coca leaves.

OPENING THEIR CELLARS,

Montreal Gazette says:

A very pleasant little affair was the inspection of the Bordeaux Claret Company's cellars by His Honor Lieutenant-Governor Chapleau. The manager has sent out invitations to several prominent citizens, who were in attendance to meet His Honor. Among those present were Hon. Peter Mitchell, Mr. Richard White, Lieut.-Colonel Hughes, Messrs. Henry Dalby, E. N. St. Jean, Q.C., J. P. B. Casgrain, J. M. Fortier, Geo. W. Stephens, jr., D. Z. Bessette, A. Terroux, S. S. Silverman, ex-Ald. Dufresne, Ald. Préfontaine, Hon. A. Archambault, M.L.C., etc. After the visit of inspection to the cellars had been paid and the different arrangements for bottling, etc., highly commented upon, toasts were in order. A beautiful speech was uttered by the Lieutenant-Governor, who wished the Company success in their great enterprise. Write for price list to the Bordeaux Claret Company, 30 Hospital Street, Montreal.

Referring to the Egyptian situation, the Journal des Debats, Paris, insists that it is the task of France to rouse continental Europe so that it will give unmistakable evidence that its sympathy is with Egypt as against Great Britain.

Paris theatres took in $5,900,000 in 1894. The Grand Opera heads the list with $630,000; then follow the Comedie Francaise, $400,000; the Opera Comique, $309,000: the Vaudeville, $298,000; the Renaissance, $261,000; and the variety performance at the Folies Bergeres, $223,000.

More than half the world's supply of tin is mined in the Straits settlement at the tip of the Malay peninsula. The output in 1891 was 36,061 tons, out of a total of 56,651 tons; 12,106 tons came from the Dutch East Indies, chiefly rom the Island of Banka, leaving only 8,384 tons for the rest of the world.

In the Government of Kherson, Russia, the plague of field mice, which is devastating the province, is to be met by inoculating the mice with bacilli. Some have been found that proved fatal to 95 per cent. of the mice experimented upon, and the Ministry of Agriculture has ordered the method tried throughout the district as soon as the snow disappears.

The Montreal Press, which has the largest circulation of all the French-Canadian papers, says that Mr. Laurier's declaration on the Manitoba school question clearly establishes that the Liberal party has decided to do nothing towards restoring to the Manitoba Catholics the rights which they possessed before 1890, which the Privy Council has ruled were taken from them by Mr. Greenway's Liberal Government.

Scrofula in the Neck—Bunches All Gone Now.

Sangerville, Maine.

"C. I. Hood & Co., Lowell, Mass.:

"Gentlemen:—I feel that I cannot say enough in favor of Hood's Sarsaparilla. For five years I have been troubled with scrofula in my neck and throat. Several kinds of medicines which I tried did not do me any good, and when I commenced to take Hood's Sarsaparilla there were large bunches on my neck so sore that I could not bear the slightest touch. When I had taken one bottle of this medicine, the soreness had gone, and before I had finished the second the bunches had entirely disappeared." BLANCHE ATWOOD, Sangerville, Maine.
