ELLEN'S DIARY

By An Island Farmer's Wife

It comes to mind on this the close of another May week, which has been altogether delightful and beautiful, that in our own country as well as in many another, tomorrow will mark the tenth anniversary of the founding of an international Shut-ins Day. We remember that the idea originated in the heart and mind of a Canadian: Ernest Barker of Goderich, Ontario, in the year 1940.

Man's Viewpoint

Women Responsible For Most Divorces, Says This Reader

"It's the women who are responsible for most of the broken home," said a man the other day. "The fact that women are the petitioners in three-fourths of the divorce cases isn't just a gallant gesture on the part of men to give ladies what they want, no matter whether it is coming to them or not; neither does it mean that men are less satisfactory as husbands than women are as wives."

HUSBANDS ENDURE MORE

"At any rate, wives won't stand for the things in their husbands that husbands meekly endure in their wives. Thousands of women, for instance, get divorces from their husbands because they are not good providers, but you never hear of a man getting a divorce from his wife because she isn't a good housekeeper."

DOROTHY DIX SAYS -

Modern Etiquette

By Roberta Lee

Q. If someone is relating a story in a group of persons, and you have heard it before, would it be all right to interrupt to say that you had heard it?

A. No; it would be rude to do so. Nor should you even say so after the story has been told.

Q. Which is proper for a man to say, "May I have the next dance?" or "Do you have the next dance taken?"

A. "May I have the next dance?" is the correct form.

Q. When may invitations to weddings be recalled?

A. Only when there is a sudden death in the family, a serious accident, or a cancellation of the marriage.

How Can I!!!

By Anne Ashley

Q. How can I keep my mattresses, pillows and blankets in a sanitary condition?

A. These articles will be kept in a sanitary condition, and will also wear longer if they are placed in the sun one day every week of ten days. This treatment will give them a fresh odor that is very pleasant upon retiring.

Q. How can I curl feathers?

A. Feathers can be curled by heating them before a fire, then stroking each one with the back of a knife blade.

Q. How can I ascertain if dye is a "fast color"?

A. Dampen a small piece of the dyed cloth and then rub it on a piece of clean white paper. If it leaves no stain, the dye is "fast."

JUST FAST

A beggar knocked unsuspectingly at the door of the village policeman. The door opened and, with head bent, the beggar started telling the tale.

"I didn't eat yesterday," he whined, "and I haven't eaten today." He raised his eyes and noticed blue-uniformed legs.

"And," he ended, "I don't care a hang if I don't eat, tomorrow either!"

Paint Odor

To remove the odor of fresh paint from a room, place a handful of hay or a few slices of lemon in a pail of water in the room and allow this to remain for several hours.

Twine Holder

A small funnel makes a good twine holder. It can be hung in a convenient place, placing the ball of twine inside and running the end of the string out through the funnel end.

Gravy

Add a touch of burnt sugar to the flour which you use in making roast-beef or lamb gravy, and it will create a pleasant flavor.
