THE DAILY EXAMINER.

APRIL 25, 1894.

LEGISLATIVE NOTES.

THERE was but one short session of the Provincial Legislature yesterday, and that was in the afternoon. The principal business transacted at that session was the passing of the bill respecting school supplements, reducing the maximum supplement from $125 to $25. The Opposition protested strongly against the bill, but their efforts proved unavailing. Although they were strong in argument they were weak numerically, and the majority triumphed. Hon. Mr. Gordon, in the course of his remarks, quoted from the report of the Premier's speech at Mount Stewart to show wherein he had failed to keep the promises he made there regarding the school supplements and other matters. Referring to the words of the poet used by the Premier on that occasion,—

"If such there breathe, go mark him well,
For him no minstrel raptures swell,"

Mr. Gordon pointed out that, with due regard to the eternal fitness of things, there was one line more that might be added,—

"The Mount Stewart platform's gone to h——l."

The additional line fitted in so well, and covered the situation so thoroughly, that it convulsed the House. There is a world of truth in it.

Mr. Shaw, in the course of his remarks, pointed out that when the Government attempted to tamper with the Education Act, if they desired to act fairly, they should have equalized men and women teachers' salaries according to their respective classes. He showed that the same expense was incurred by each in attending the district school, that the same matriculation examination had to be passed for entrance to the Prince of Wales College and Normal School, that the same time had to be spent in that institution accompanied by the same expense, that the same papers were given them and the same graduating examination had to be made. In view of these facts, Mr. Shaw thought that in the spirit of justice and fair play both sexes should be rewarded equally according to their respective classes.

THE SUPPLEMENTARY CLAUSE.

THE cost of living being about double as high in the town as in the country, it follows that the salaries of teachers in the former must, necessarily, be much higher than in the latter. Heretofore, the difference has been made up according to the provision of the supplementary clause, the taxpayers of the town paying half and the Government paying half,—thus securing a fair proportion in the status of the schools.

Under this arrangement the citizens of Charlottetown supplemented their teachers' salaries to the extent of $2,535.00 and the citizens of Summerside to the extent of $685.00; and the Government contributed equal amounts.

But the Government party have now carried through its second reading a bill which prohibits the Administration from paying more than $25 supplementary to the yearly salary of each teacher. Under it the country teacher will not, perhaps, speaking broadly, be materially disadvantaged; but the city teachers—at least the most experienced and best of them—will be compelled to give up their situations unless the tax-payers of the towns make up the amounts by which their salaries are reduced. That is to say, the schools of Charlottetown and Summerside must either suffer a distinct and heavy loss of teaching ability, or the people of these towns must add to the already heavy burden of their taxation. The additional amount required to be raised in Charlottetown will be $1,760, and in Summerside $410, making $2,170.00—equal to close upon a dollar added to the tax burden of each householder.

Now, assuming that the townspeople will not permit their schools to go down, the question is: is the added taxation equitable? Let it be remembered that the people of the two towns have, in the past fifteen years, paid taxes averaging $50,000 a year, during all of which period the people of the country paid not one cent. In the future, too, the people of the towns will bear this taxation in addition to any taxation that may be directly or indirectly imposed upon them by the Government of the Province. They contribute about $22,000 a year for the maintenance of streets and schools, which in the country are maintained, for the most part, out of the Provincial treasury. On the other hand, it will not be denied that they are fairly entitled to the eight cents per head and an equal share of the other subsidies paid semi-annually into the Provincial treasury by the Dominion Government. In view of these facts the injustice of imposing a special indirect tax of upwards of two thousand dollars a year upon Charlottetown and Summerside, is evident. But it may be that the towns are to be relieved of direct taxation, or that the amount will, in some way, be recouped to them. The people of the towns will cheerfully bear their fair share of the taxation which is required to meet the legitimate expenditure of the Provincial Government, and we feel sure that the people of the country will not approve any device for making them pay, directly or indirectly, more than their fair share. Maintaining their own highways and providing nearly $12,000 a year towards the maintenance of the public schools, they ought, in strict justice, to be relieved by so much from Provincial taxation. Certainly they ought not to have upwards of $2,000 a year added to their taxes by indirect means. Nor will countrymen who believe in fairplay, countrymen who know that the suffering of one member entails suffering upon the whole body, consent that this injustice shall be done.

We should not for a moment condemn an equitable measure by which to curtail our large expenditure for public education. THE EXAMINER has been repeatedly denounced as "shaky" and "unsound" because we counselled that wealthy men desiring to make their sons doctors and lawyers, etc., should be compelled to pay for preliminary instruction in "the higher branches," and because we suggested other equitable means for lessening the cost of education and making the instruction more consistent than it is with the agricultural pursuits of our people. But the Government party of to-day is the party, *par excellence*, of educational advancement. Only a few weeks ago, Mr. Premier Peters repudiated the idea of in any way or upon any account lowering the standard of education for the sake of a few dirty dollars, and declared that "we should be on the alert to improve our educational system instead of impairing its efficiency." What is to be said now concerning the honorable gentleman's sincerity and consistency and concerning the consistency and sincerity of his followers in view of this measure which is a deadly blow at the schools of Charlottetown only to be warded off by additonal special taxation on the part of the people of these towns.

SURPRISE PARTY.

SIR,—On Thursday eve, the 12th inst., Mr. and Mrs. Daniel Nolan, of Chepstow, were waited on by Miss Sadie Croken, Miss Mary A. McDonald, Miss Pansy McLellan, and others and presented with an eloquent address, accompanied by a costly mirror. Mr. Nolan made a suitable reply, thanking them for the respect shown to him and his amiable partner. The presentation being over, all repaired to the spacious dining hall, where a sumptuous repast was partaken of, after which they whiled away the hours in tripping the "light fantastic" to the strains of the violin. The company dispersed in the "wee" hours, thoroughly pleased with the night's enjoyment.

ONE PRESENT.

Millinery—Miss Minnie Malone is now prepared to attend to all orders in millinery at her residence, corner Fitzroy and Weymouth Streets. Orders by mail promptly attended to.

April 25 eod 2 mos.

Next June upwards of 2,000 delegates, representing aggressive christain work on behalf of young men, are to meet in London in connection with the 13th world's conference of Young Men's Christian associations and the jubilee celebrations of the foundations of these institutions. Seventeen different nationalities will be represented, and the proceedings will be conducted by interpretation in the different languages.

LOCAL NOTICES.

Advertisements under this heading enarged for at the rate of ten cents per line.

Show days at Paton & Co's to-morrow, Friday and Saturday.

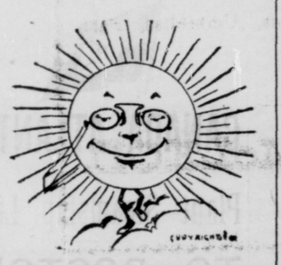
Ladies bring a friend with you and introduce her to Paton & Co's new stock.

Rifles, Targets and outfit of shooting gallery, lately conducted by Professor Evans, will be sold at a bargain. Everything ready for re-opening. Apply to Cephas Murley, 18 Queen Street.

Stop and think for a moment. Do you want anything in the house cleaning line such as Kalsomine, whiting, glue, ochres, tintings of all shades, floor paints, ready mixed paints, oils, turpentine, stains, japans, varnishes, enamel, bronzes or brushes? If you do call and see D. M. Richards & Co's stock. april 23 1 wk

Prowse Bros. are sending in repeat orders for children's clothing, which goes to show that the people appreciate their efforts to supply the trade with the best goods made of the lowest possible price. Call this week and see their children's suits. a24 2i 1w

USE SKODA'S DISCOVERY the great Blood and Nerve Remedy.



AN OPTICAL DELUSION

is a fair sight in the picture. It's certainly an optical delusion to expect to keep your sight fair without the aid of spectacles. It's a damaging delusion, too, because if there's one thing that the eyes will not stand it's ill treatment and overtaxing. Property may be taxed too high without much harm, but in the case of the eyes it's a dangerous experiment. When you need spectacles the want is immediate, like the need of food when you're hungry. We can supply the spectacles whenever you require them, and what's more, can tell you just what you must have to fit your eyes. We also have Eye Water and Eye Shades for weak eyes.

PROVINCIAL LEGISLATURE.

TUESDAY April 24.

House met at 3.30.

Mr. Arthur Peters asked the commissioner of Public Works if he had received a petition from the inhabitants of Mount Hope, Forest Hill and Farmington for the opening of a road from Mount Hope to Forest Hill, being a continuation of Cahill's Road, and what action the Government propose taking thereon.

Hon. Mr. McLean replied that the petition had been submitted to the Lieutenant-Governor-in Council and would be dealt with or submitted to the House if in the discretion of the Lieutenant-Governor-in-Council it was deemed advisable or necessary to do so.

Mr. H. C. Macdonald asked the Commissioner of Public Works what action the Government intend to take on the Report of the Commissioners appointed to appraise and decide upon the compensation to be paid for the Public Right of Way asked for from the Georgetown Road to Crown Point.

Hon. Mr. McLean said a commission had been appointed to report on the advisability of constructing this road and their recommendation would no doubt be acted upon.

Mr Rogers (Alberton) asked the Leader of the Government whether any and what decision has been come to by the Government on the subject of the Memorial of Richard Cornish of Lot 5 praying for compensation for land taken for a new road from Haywood's Mills to Duvar Road opened some years agd.

Hon. Mr. Peters said no action had been taken and he did not think there would be any.

Mr. Rogers (Alberton) asked the Leader of the Government whether a memorial has been received by the Government praying for a reduction in the account in the Land Office against W. C. McCallum of Lot one, in consequence of a large portion of his farm being worthless, and if so, whether it is the intention of the Government to make such reduction, and the amount thereof.

Hon. Mr. McMillan said he had not received the memorial enquired about.

Hon. Mr. Peters said this matter would be dealt with whether a petitton was received or not.

Mr. A. J. Macdonald asked the Commissioner of Public Works to table a statement showing in detail the amount paid or agreed to be paid for material furnished and work performed on Webster's Mill Dam at Marie, including bridge and roadway during the year 1893, and up to date, the amount let by private sale, the amount let by public tender or contract, a copy of all tenders received, and the name of the tender accepted. If by private sale, the name or names of the contractor or contractors, the amount paid to each, whether by day's work or otherwise; also, if any petition has been received from certain parties praying that a road be opened from Webster's Mill to Milltown Road, and if so, that said petition be laid on the table of the House.

Hon. Mr. McLean said it was not customary to present these petitions to the House, that they would be dealt with by the Lieutenant-Governor-in-Council and presented to the House if in their discretion it was thought proper.

On motion of Hon. Mr. Peters, the act appointing Stipendiary Magistrates for the counties was read a third time and passed.

The act relating to the registration of deeds was read a second time in committee with Mr. Robertson in the chair, and ordered to be read a third time to-morrow.

Hon. Mr. Peters moved that the House go into committee of the whole for the second reading of the bill amending "The Public Schools, 1877." The bill enacts as follows:

1. The thirteenth section of "The Public Schools Act, 1877," passed in the fortieth year of Her present Majesty's reign, chapter one, is hereby amended as follows:

"Hereafter no teacher shall be entitled to receive from the Provincial Treasury a supplemental grant exceeding the sum of twenty-five dollars per annum; and the said thirteenth section shall be read as if the words 'twenty-five' were used instead of the words 'one hundred and fifty.' Provided always that nothing herein contained shall prevent any teacher from receiving from the Provincial Treasury the amount of supplement to which he or she would have been entitled up to the third Tuesday in June next if this Act had not been passed."

2. Section twelve of "The Public Schools Act, 1877," is hereby repealed. Provided always that after the passing of this Act every teacher who was in the year A. D., 1893, entitled to receive a bonus, shall continue to be so entitled during such period as he or she continuously acts as a teacher in this Province; but such teacher shall in no one year receive a higher bonus than he or she actually received during the year 1893. And provided further that any teacher who under "The Public Schools Act, 1877," would have become entitled to a bonus on or before the first day of July 1895, shall also be entitled to receive his or her bonus as if this statute had not been passed, except that in the case of a teacher not heretofore in receipt of a bonus and hereafter becoming entitled thereto, the amount of such bonus shall not exceed fifteen dollars in any one year.

After the changes proposed by the bill were discussed at some length by Hon. Messrs. Peters, Richards, McLean, Sinclair, and Messrs. Gordon, Shaw, A. J. Macdonald and McLaughline the House went into committee with Mr. Wise in the chair. The bill was read and passed in committe, and it was moved that it be read a third time to-morrow.

Mr. Gordon moved an amendment that the bill be read a third time this day three months.

Mr. Shaw seconded the motion.

The amendment on being put was declared lost the Opposition supporting it and the Government opposing it.

House adjourned until 10 a. m. on Wednesday.

Paton & Co's. Show Days, Thursday, Friday & Saturday.

Only one week more.—Our great discount sale will be continued another week don't miss the opportunity of buying your boots and shoes, men's and boy's clothing and dry goods at prices that you will save lots of money.—J. B. Macdonald & Co.

ROYAL MILITARY COLLEGE.

SIR,—Enclosed I beg to hand you clipping from General Cameron's report of the Royal military College at Kingston for the past year.

A perusal of the following will perhaps enable the intelligent public to accept at their true value the disparaging and contemptuous remarks from the pen of the Editor of the Guardian in this morning's edition.

Yours truly.

April 24 94. ISLANDER.

"It is interesting to know what has become of some of the young men who have been trained under Canadian auspices, and at the expense of the Dominion, in the military science. Now and then we hear of one who has acquired especial prominence, as, for example, Lieutenant Stairs, of Nova Scotia. This officer passed into the Royal Engineers, and temporarily withdrew from that service to accompany Stanley across Africa. Stairs was a fine specimen of Canadian manhood, and it was with sorrow that the world learned of his death last year, while leading an expedition in the Dark Continent. Lieutenant William Robinson, of New Brunswick, like Stairs, laid down his life in that distant and desolate region, and in the same year. He was killed in action at Tambi. Lieut. H. B. McKay, of Montreal, had preceded Robinson to his long home. Mackay received a position in the War Office, and was journeying in 1891 from the west coast of Africa, where he held an important military post, to India, when he died and was buried at sea. But there are other Canadians abroad, Kingston graduates, of whom little information is gleaned from the ordinary news sources. Indeed, all the British possessions are reminded of Canada by the presence there of officers who claim the Dominion as their home. Africa, for instance, still has in Sierra Leone, on the west coast, Lieutenant H. Sloggett, of Prince Edward Island, who succeeded Lieutenant Robinson, and now commands the Royal Engineers in that colony. On the same coast is Lieutenant J. F. Laing, of Ontario, engaged in railway construction and in the building of defensive works. The east coast has had for some time Lieutenant P. G. Twining, who has been the assistant engineer of the Mombasa railway, a road under the direction of the African Company, with which Sir Francis de Winton, formerly A. D. C. to the Marquis of Lorne in Canada, is connected. Lieut. Twining, it is understood, is returning to Canada to taken the position of lecturer on fortification at Kingston. Turning to India, a batch of Canadian military graduates is to be found. In Scinde, Lieut. W. F. Tilley is conducting the engineering works requisite to the irrigation of that district. Engaged in a similar duty is Lieut. A. C. Joly, a son of Mr. Joly de Lothbiniere, formerly Premier of Quebec. Lieut. Herbert T. Nanton, of Toronto, is in the same work. This officer took part in the Burmah expedition, and was detailed to assist in the management of water-works in the large cantonments. A second Lieut. Joly, also a son of the ex-Premier, is assistant engineer on the north-east frontier of India, or in the Pamir. Another French-Canadian who is doing important work in the Indian service is Lieut. P. H. Casgrain, a son of the former member for L'Islet, and a brother of the Attorney-General of Quebec. He is now the engineer in charge of Barrackpore, an important garrison town. Engaged in submarine mining at Calcutta is Lieut. N. G. Hugel, son of Baron Hugel, of Port Hope. Mr. Hugel was at one time executive engineer at Lucknew. With him in his present work is Lieut. Bremner also a King-ton graduate. Lieut. George M. Duff, of Kingston, is engineer in charge of the defences at Rangoon, while Lieut. G. S. Cartwright, son of Rev. Mr. Cartwright, of Kingston, and a nephew of Sir Richard, is executive engineer at Jubbulpore. Lieut. W. J. McElhinney, of Brockville, is executive engineer of Indian Rail ways in the Punjaub, and Lieut. Adams is personal assistant to the general manager of the Burmah State railways. Rangoon canal works have also engaged the attention of Canadians in India. Lieut. A. E. Panet, son of the Deputy Minister of Militia, and Lieut. C. B. Farewell are engaged on the Government canals in the Punjaub. In the direct military service of India we have Capt. Fred Skinner, of the 2nd Royal Sussex, who has passed the Staff College; and Capt. A. T. Taylor, a Montrealer. Leaving India, we have Lieut S. S. Worsley who is with the Hyderabad contingent, Lieut. W. B. Leslie, submarine mining in Ceylon; D. H. Ridout, commanding the engineers at Singapore; T. C. Skinner, on the Royal Engineers staff at Malta; J. W. Sears, adjutant of a volunteer battalion at Birmingham; W. Straubenzie, instructor in surveying at Sandhurst; G. M. Kirkpatrick, a son of the Lieutenant-Governor of Ontario, A. D. C. to the general officer commanding the Thames district; C. R. Hodgins and W. Smith, in line regiments; H. E. Wiser, A. D. C. to the viceroy of India; and E. P. C. Girouard, of Montreal, traffic superintendent of the Woolwich Arsenal railway.

These names do not include the Kingston men, who hold military qualification certificates; they are the names of graduates whom Canada has trained and sent out to enter the Imperial service. It is a source of gratification to know that Canada's sons should, owing to their sturdiness and energy, hold responsible positions in the army or in departments connected with it.

House of Commons Proceedings.

Business Progressing—The Governor-General's Expenditures.

OTTAWA, April 25

The House of Commons in committee on the tariff took up the item of books, which passed after some discussion. The next item on which the Opposition stuck was the duty on wall paper. This was objected to on the familiar grounds of there being too much protection and specific duties. But the item passed. The next question over which the grits raised a quarrel was the duty on patent medicine and other medicinal preparations. The item passed and items following down to oil, when committee rose.

After this week the Government will take Thursday's, leaving only two days of week for private members.

Sir John Thompson announced that the Government would this session introduce a measure dealing with the Franchise Act.

It is said now that Major Markham, of St. John, is the favorite for commander of the Bisley team this year.

Mr. Mulock introduced his bill for fixing the salary of the Governor-General. In explanation, Mr. Mulock said that he found by an official return that our Governor-Generals had been costing Canada about $60,000 a year more than the sum named in the British North America Act. He thought both parties were alike responsible for this waste of public money, the Mackenzie Government being quite as bad as any other. The object of the bill was to fix the limit to the expenditure, the act to go into operation on the appointment of a new Governor-General.

Situation in Newfoundland.

ST. JOHN'S, Nfld., April 25.

The Goderidge Government exploded a bomb in the Whiteaway camp yesterday by springing a bye-election for Bay de Vide, where Woods and May were unseated, for 22nd May, the day before the House opens. This course was taken at the suggestion of the British Government, in the hope that the new ministry will secure an expression of popular approval in their favor, and also secure two more supporters, which would give them 14, enough to make a quorum, elect a Speaker and pass the seven bills should the Whiteawayites, if a greater number are unseated, refrain from attending the assembly and so cause a deadlock.

Popular Appointment.

HALIFAX, April 25.

Captain Hill, of the steamer Halifax, has been appointed Inspector of Hulls for Nova Scotia.

BICYCLE NOTES.

Zimmerman the great champion wheelman has turned professional.

To find the gear of your wheel multiply the diameter of the rear wheel by the number of teeth in the crank sprocket wheel, and divide by the number of teeth in the hub sprocket.
