Steamship Amalgamation. BOSTON, Oct. 22. The Boston Herald says there is a scheme on foot to amalgamate all the steamship interests from New York and Boston to points in Maine and New Brunswick and western Nova Scotia, to extend and amplify the fleet, and to seek to direct much of the summer travel from the beaten tracks into the new channel.

Records Broken. WALTHAM, Mass., Oct. 22. Harry C. Tyler rode a half-mile, flying start, on a bicycle on Saturday in 52.15 seconds; the quarter in 25.25 seconds; the third in 34.25 seconds. These are all new records; also a half-mile, standing start, in 52 seconds is a new record. Arthur Porter lowered the Class A mile record, flying start, from 1.58.15 to 1.52.35. Nat Butler rode the twelfth of a mile in 9.15 secs.

Shipping Disasters. St. John's, N. F., Oct. 22. The steamer Sylvia, from Pilley's Island reports extensive damage caused in that neighborhood by the recent storms. Unusually high waves carried away the wharves, etc.

Another Record Broken. BOSTON, Oct. 22. In the race between Alex and Directum, the latter withdrew after the second heat. Alex won the first two easily. Alex was given a fast third heat in 2.07, the fastest trotting mile ever set in New England, breaking the Mysic Park record of 2.08, held by Nancy Hanke. The track was in perfect condition.

A Costly Fire. RIVER DE LOUP, Oct. 22. A fire starting in a heap of old waste, destroyed the Intercolonial Railway round house and eight locomotives this morning. Loss \$200,000.

HENDERSON'S BULBS are too good to allow of much discounting, therefore when we offer the balance of our Hyacinths, Tulips, Crocus, Narcissus and Praelias

at 20 per cent. less than Henderson's price in New York, it is like selling dollar bills for 80 cents, with the difference that 80 cents' worth of those Bulbs will give you much more than a dollar's worth of beauty. But be sure and get HENDERSON'S BULBS. They can only be had from us. Store open until 10 o'clock tonight.

AN OPEN LETTER. MESSRS. FENNEL & CHANDLER. DEAR SIR,—I have given the Hightand Range, bought from you some time ago, a thorough trial, and find it to work admirably in all respects. With the excellent arrangement of dampers, the draft can be so regulated as to burn the least possible amount of fuel. I burn the soft coal entirely, but believe it would work equally well with hard coal. I can heartily recommend this Range to anyone wanting an economical, first-class Cooking Stove.

NEWS NOTES. Nearly fifty students from Prince Edward Island are attending the various courses at McGill University this year.

During September nearly 3,000,000 bushels of wheat were shipped east from Winnipeg, against 1,100,000 bushels for the same month a year ago.

At Washington courthouse, Ohio, a few days ago, a mob undertook to lynch a negro who was in jail. The militia was ordered to fire, and two men fell dead, while several others were wounded.

Professor W. S. Wyman, of the University of Alabama, does the common explanation of the letters O. K., which is to the effect that they were President Andrew Jackson's abbreviation for "all correct." He thinks that Jackson borrowed the phrase from the Choctaw language, in which the word "okee" means "it is all right."

In Ashtante no man is ever allowed to see one of the King's wives, and should he happen, through accident, to get a glimpse of one of the "sacred creatures," he is forthwith put to death. The law of that country allows the king to have 3,333 "helpmeets," and no more. These wives all live in two long streets in the city of Coanastin, the Ashtante capital, the quarters occupied by them being locally known by a word signifying "heaven."

SOME HARD FACTS. The Ottawa Citizen gives some hard facts elicited from the trade returns, showing some gratifying results of the Liberal-Conservative tariff.

In 1878 the value per head of crude material for use in the industrial arts was \$2.18. Last year, so great had been our development in manufacturing, that our imports of crude material went up to \$5.92. The extension of our manufactures means the growth of a city population who become consumers of farm products and create a market at the farmers' doors.

Articles partially manufactured to be subjected to further processes in Canada were imported in 1878 to the extent of \$2.41 per head; in 1893 to the extent of \$3.90 per head. The enlargement here has the same significance as the item first above mentioned.

Our import of manufactures per head in 1878 was \$8.75; in 1893 there was a slight falling-off to \$8.30. So the manufacturer, that "blood-sucker" as he is represented by the Opposition—Sir Richard Cartwright calls him a thief—has to meet the competition of almost the same amount of foreign goods as he had sixteen years ago. His gain has been in supplying the increased local demand that has arisen in the interval.

But now come two striking facts of purchase in foreign countries of articles of voluntary use and luxury is one of the very best tests of a country's prosperity and hence the proof is clear that our country as a whole are better off now than they were under the old conditions. In 1878 their import of this class of goods was \$1.75 per head; in 1893 it had increased to \$2.48.

Finally, the farmer's interest lies in being able to dispose of larger amounts of products of the farm and dairy. Now, since 1878 we have added 25 1/2 per cent. to the numbers of our population, and the consumption of breadstuffs may be assumed to have increased in proportion. Yet, whereas formerly our imports of articles of food and animal and vegetable products reached \$7.05 per head, now is but \$3.78. The difference is supplied by our own farms. The difference is clear gain to them. And here it is that we find a satisfactory explanation of the prosperous condition of our agricultural population notwithstanding the adverse legislation of the United States, notwithstanding the low price of wheat and other cereals, and notwithstanding the great depression which has existed all over the world among the members of their clubs.

GENERAL TELEGRAPHIC NEWS. OTTAWA, Oct. 19.—According to returns furnished by officers of the interior department, 4,000 persons have gone to Edmonton district this year. Considering the dullness in immigration matters, this is a good record.

MADRID, Oct. 19.—The prior of the Dominican monastery of Santa Catalina, has been arrested for treason. He is the author of a pamphlet asserting that the Queen Regent has caused the strip to be made a Freemason.

PARIS, Oct. 19.—The municipal council has voted 50,000 francs to be used in providing anti-typhoid serum for city hospitals. A despatch from Berlin says the city council there has voted 6,000 marks for a similar purpose. Professor Virchow says: "While tests so far made do not enable us to pronounce our judgment of the value of the serum, I regard it as the imperative duty of medical men to use it."

ST. PETERSBURG, Oct. 19.—The Novo Vostoya says in the review of military intervention in Afghanistan on the part of Great Britain, Russia will be obliged to take similar action. This, the paper says, necessarily leads to the partition of Afghanistan between Russia and England.

MONTREAL, Oct. 19.—About a fortnight ago five Chinamen from Montreal tried to enter the States at Ogdensburg, crossing from Prescott. They were arrested and they have been found guilty of unlawfully attempting to enter the States. They will be at once deported to China.

CINCINNATI, Oct. 19.—At the close of school yesterday at Brighton, a village in West Virginia near Parkersburg, a quarrel among the boys developed into a serious fight, in which Willis Gardner, fifteen years old, was shot to death, and his little brother, aged eight years, was fatally stabbed. The teacher, Morris Pickering, was also terribly cut while trying to restore order.

LONDON, October 19.—It is rumored that Lord William Bessborough is about to marry the Dowager Duchess of Marlborough, formerly Mrs. Hamersley, of New York.

NEW YORK, Oct. 19.—The Herald's cable from Panama state that a cyclone has leveled 700 houses, there and damaged the coffee crop in Hayti.

MERIDIAN, Miss., Oct. 19.—William T. Martin, farmer, residing in Clarke county, murdered his infant child because it cried too much. When the news of the crime spread last night the neighbors became enraged and formed a mob to lynch him. He fled to the swamps and is being pursued by several hundred resolute farmers with shot guns. Martin is a notorious desperado. He has served a term in the penitentiary for lynchng a negro near Sanderville, and is said to have been implicated in other crimes.

ST. PETERSBURG, Oct. 19.—A squad of police last night visited the Technological institute here, and proceeding to the dormitories, took into custody thirty of the students who had retired. The charge on which the arrests were made is that the students were engaged in a Nihilist conspiracy against the government. The visit of the police was a complete surprise to the authorities of the institution, as well as to the students.
