

THE DAILY EXAMINER.

JUNE 28, 1881.

"Expounding Blake."

To prepare the minds of "the free and independent" of the Maritime Provinces for the coming of the great one, the St. John Globe, the St. John Telegraph and some other papers have recently been, as they say, "Expounding Blake." Now, we admit that to expound the transcendental ideas of which Mr. Blake, with his eye in a fine frenzy rolling, has given utterance, were a task quite beyond the powers of the matter-of-fact writer for THE EXAMINER. Yet we sympathize with those of our contemporaries who desire that the people may be duly advertised concerning the leader whose advent they desire. To help them we shall, therefore, do our best. We shall, of course, necessarily, be obliged to confine our remarks to the lower, less poetical, less supereminent parts of the speeches he has made; and we must be careful also not to make quotations beyond the year in which Mr. Blake became leader, lest it should be said "circumstances have changed and the gentleman has also changed—his opinions."

In the first place, we may remark that to stir up sectional feelings and to make comparisons hateful to the smaller Provinces is not generally considered glorious work for a great Canadian statesman. Yet Mr. Blake has done this; and the fact that he is emphatically a "big fish" may perhaps be urged in justification of the "little fishes" down here who have allowed themselves to be caught with the bait of sectionalism, and who are full of the opinion that this Island is prey to Ontario and Quebec.

From his place in Parliament in the session of 1880, Mr. Blake submitted an elaborate statement of figures, showing the revenues derived from each of the Provinces and the respective expenditures of the general Government in their behalf. And then, he said:—

"It will be seen from these statistics that some of the smaller Provinces, heavy as their contributions are—and I freely admit that some of them are heavier contributors per capita than some of the larger Provinces—are yet not adequate contributors to, on the contrary, that they are heavy drains on the revenues of Canada; and it will be further seen that the bulk of the expenditure—I may say EVERY SHILLING OF THE EXPENDITURE ON THE NORTH-WEST AND ON THE PACIFIC RAILWAY IS CONTRIBUTED FROM THE PROVINCE FROM WHICH I HAVE THE HONOR TO COME."—See Hansard for 1880, pp 1461.

Now here is a revelation. Here is something that must attract the attention of Mr. Davies, Mr. Farquharson and the editor of the Patriot. Here is a statement which will startle those persons who have been beguiled into believing that the construction of the Pacific Railway and the opening up of the Northwest, would utterly ruin Prince Edward Island. Mr. Blake, the Leader of the Opposition, declares, not that every pound or every dollar, but that every shilling expended in the Northwest to build the Railway and to open the prairie up to settlement, is contributed by Ontario; and that the other Provinces (including Prince Edward Island) contribute not one shilling! Well, Mr. Blake is we admit, a very clever man, and a great leader; but if he can make his followers, Mr. Davies, Mr. Farquharson, and Mr. H. Lawson believe this statement of his and tell it abroad, he is a vast deal cleverer than we think he is.

The difficulty will be all the greater from the fact that Mr. Blake says in the same speech:—

"FOR PRINCE EDWARD ISLAND THE RECEIPTS WERE \$1,596,000, THE EXPENDITURE \$2,624,000, - the deficit (that is the loss to Canada) \$1,027,000."

Last winter Mr. Farquharson made his greatest effort in the Legislature to show that Canada was drawing from this Province more than she paid to this Province, the sum of \$128,667.59 a year; and declared that "the aggregate amount which we have paid to Canada over and above what we have received from Canada during the past six years was not less than \$2,296,436.23!"

Looking on this picture, then on that, it will easily be seen that there is a real necessity for "expounding Blake," or blotting from the memory the drawing (on his imagination) made by Mr. Farquharson. No doubt both are great artists; but it is hard to believe that they belong to the same school.

When THE EXAMINER was, some time ago, compelled to point out the absurdity of the statements made by Mr. Farquharson and the Grit press of this Province, it, at the same time, reminded the people of the Upper Provinces that Prince Edward Island obtained a very large proportion of its dutiable articles of import via Montreal, Halifax, St. John and other large sea port towns of Canada; and that, therefore, the bald figures as they appear in the public accounts are misleading. But Mr. Blake says nothing of this—gives the Island credit for no such indirect payments—simply states that the Island has been a loss to the Dominion of OVER A MILLION OF DOLLARS.

What are Mr. Davies, Mr. Farquharson, the editor of the Patriot, and their friends, going to do about it?

Mr. Blake is no doubt a great man—a very great man—so say all his followers. But nevertheless, he has yet to learn that Prince Edward is the most thickly populated of the rural districts of Canada, that its people are man for man, the most comfortable in Canada, that they use their full share of imported articles

bearing duty, and that while it is not true that they are losing hundreds of thousands of dollars a year to Ontario and Quebec, it is also not true that they are a burden to the people of the rest of Canada.

The Times.

PASSING Newson's Furniture Factory at ten o'clock last night the writer noticed the machinery going and the hands at work. Comment is needless.

The writer is informed that Mark Butcher's Furniture Factory is now running thirteen hours a day, that they find it impossible to fill orders, and that business has not for them been so good during the past ten years.

Workmen are busily engaged in fitting up the "Brenan Store" (which has been empty for several years) for Dorsey & Goff's new Shoe Factory.

We are informed that the Charlottetown Cloth Factory, (recently established in the building which was emptied during the reign of one-sided Free Trade) is now in full operation.

Leading merchants inform us that this has been a fairly good year for them. Money is plentiful and they have now less difficulty in selling for cash than ever before. It is to be hoped they will stick to the cash system.

Some dealers yet complain that they feel the times hard. But the reason is obvious. There are still too many of them; and it is clear that some of them must go back to the plough, which they should never have left, or off the Island.

Hotel keepers are doing a good business; boarding houses are enquired for.

Real estate is still depressed; but it is a pleasing sign to see properties, like that of the Brennan estate, which have lain idle, yielding nothing for years, again remunerative. The reason house property has not responded to the improvement of the times is, probably, to be found in the abnormal activity in building maintained in the days immediately subsequent to building of the railway. It is to be noted that outside the city, property is on the rise. Some lots on the Pope property were recently sold at auction at very fair prices.

Though there are still several more printing offices than the Province requires, it is with special pleasure that we record an improved tone in the publishing business. The increased duties have not added to the cost of paper or printing materials; and with a steadily increasing run on our advertising columns we have been encouraged to enlarge both the Daily and Weekly editions of THE EXAMINER without adding anything to the cost of either to subscribers. A supply of new jobbing type and materials, which we have ordered and hope soon to obtain, will, we trust, give us an additional claim on the valued patronage of the public.

THE comet which was viewed from this city since Thursday last is, no doubt, the one reported discovered by Dr. Gould at Cordoba, and supposed to be the comet of 1807, whose perihelion would occur about the 1st of August, when it would be seen to great advantage. Henry M. Parkhurst, the Brooklyn astronomer, writing to the New York Herald, says that he does not, however, believe that this is the comet of 1807, but a large comet following in the same orbit, and he adds:—As that comet was not expected to return for 15 centuries, it seems improbable that this should be the same; but we had not long ago a discovery at Cordoba also of a great comet of 1843, after a lapse of only thirty-seven years, when it was not expected to return for many centuries. The suggestion was then made that as in the orbits of meteoroids there are accumulations of matter at widely separated intervals, as the meteoroids have been shown to follow the orbits of comets, and as Biela's comet was divided almost before our eyes, it may be that there are different comets following in the same general orbit. If that is the explanation these separated bodies must be twice the distance from each other of those of the comet of 1843, and it is not easy, even rising above geologic epochs, to trace back these bodies, separated by an interval a hundred times the earth's distance from the sun, to a time when they could have been together.

SPRING PARK SCHOOL.—The public examination of this school was held yesterday in the presence of a goodly number of parents and visitors, among whom were Rev. Dr. Murray, L. Miller, J. D. Seaman and Dr. McNeill. Among the ladies present we noticed Mrs. McKinlay, Miss Maria Lawson, Miss Millar and Miss McKelvie. The attendance of pupils was good. The classes were examined by the teachers, and by Messrs. Miller and Seaman, eliciting the fact that good steady work had been wrought by both pupils and teachers during the term. Miss McNeill the teacher of the primary department, showed besides the ordinary school work, a number of fancy articles, made by the girls of her department. Those who could judge, pronounced the needlework excellent. This new feature received general commendation. Prizes were then distributed by the Chairman, Mr. Heard, and short addresses were delivered by Messrs. Heard, McNeill, Millar, Seaman, Miss Maria Lawson, and the Principal of the School, closing the work of the term.

CAMP SUSSEX.—A correspondent writing from Camp Sussex to the Moncton Times, on Friday, says: Things now look like business here. The men are all out and the drill ground is alive with troops. There are about 2000, and 1000 more are expected. Four bands furnish plenty of music. The Woodstock artillery, with 6 guns, look very nice, and Lieut. Col. Domville's 8th cavalry, 300 strong, look fine—troops in blue and yellow; officers in blue and gold. Drs. McMonagle and Botsford are the surgeons, and as there are quite a number of accidents they are kept pretty busy. Dr. Botsford is to-day chief medical officer of the regiment. He had no diarrhoea, as reported.

FRESH LEMONS, ex Worcester, by the box, at H. Coomb's store. [23 2i]

New Brunswick and P. E. Island Methodist Conference at Moncton.

THIRD DAY.

(Special Correspondence of the Examiner.) The Conference was opened in the usual way. After the reading of the Journal various statistics were presented and commented upon.

The total membership was reported to be 8,290 being a small increase on the year. P. E. I. District reported the largest number of members.

403 preaching places were reported, being an increase of 11. The Sabbath School report showed 154 schools, 1,125 officers, 8,872 scholars.

Then the following amounts were reported as having been raised for the connectional funds (Missionary and Educational have already been reported.)

Table with 4 columns: District, Circuit, Super num'y, Cont'gt Fund. Rows include St. John, Fredericton, Miramichi, Sackville, St. Stephen, P. E. Island, and totals.

There is an increase in the circuit receipts of \$1,932 10.

Rev. Howard Sprague moved a resolution in reference to the appointment of Conference Committees, which it was hoped would be the means of preventing confusion in future.

Rev. R. Duncan presented the report of the Missionary Committee, which caused a long and earnest discussion relative to appropriations for rent for several circuits. A resolution was passed referring the subject to the Committee to deal with at their meeting in the fall.

Leave of absence was granted to several brethren to supply appointments in St. John, Fredericton and other places.

SABBATH SCHOOL MEETING

was held in the evening, presided over by Rev. H. Daniel, who made some very important remarks relative to the value of Sabbath School instruction. Rev. J. C. Berrie, Secretary of Committee, presented a brief but very suggestive and appropriate report, supplementing it by some remarks relative to the way in which a minister might meet the scholars of his circuit. He was followed by Rev. A. D. Merton, A. B., of the Nova Scotia conference, who dwelt more especially upon the importance of a mother's influence and the necessity of its being used aright. Rev. D. D. Currie next made a most humorous and useful speech. Rev. G. Steele followed, taking for his subject "The Model Teacher." A collection was taken up, the doxology sung, and a highly profitable meeting was terminated.

Supreme Court.

Trinity Term of the Supreme Court commenced its sittings this noon: Mr. Justice Peters presiding. The following gentlemen were sworn as Grand Jurymen:—Richard Bagnall, Foreman; Thomas Rogerson, John Hughes, James Byrne, Edward Horne, John Lydie, John Holman, James G. McCallan, Charles Hezlett, Murdoch McLeod, William H. Stewart, William Mutch, George D. Longwell, John Arch'd McDonald, Wm. H. Farquharson, Daniel McKinlay, John Kelly, Wm Stewart, Thos. Andrahan.

Judge Peters then addressed the Grand Jury, explaining the nature of the cases which would be brought before them, viz., one of larceny, one of cruelty by keepers at the Hospital for the Insane, and one of nuisance by the Corporation against Mr. E. B. Leve. The Judge carefully defined the duties of the Grand Jury, not to confine themselves to what they heard from the Judge's charge, but that they must use their own eyes and ears, that they are, as a body, the index to crime, and that it is their duty to point out crime wherever it exists. Judge Peters spoke strongly regarding the Governor's Pond, as being a nuisance, and remarked that on passing over the bridge yesterday, he held his breath, as he considered it absolutely dangerous. He advised the Grand Jury that the Mayor and Corporation are liable to indictment for a nuisance in pouring dirt, by means of sewers, into the pond, and if they could find a bill, they must present them.

We regret that the acoustic properties of the Court room are so bad, that our reporter could hear but little of the Judge's very able charge. Mr. J. W. Sefton has returned from his prospecting tour of the coal fields on the Rossian River. Ten borings were made in different localities defining accurately the situations of the coal. In four of them coal was struck at a depth of 25 feet. The seam varied in thickness from two to six inches, and extended in a north-westerly direction, being at least three-quarters of a mile in breadth. Further search and deeper borings were prevented by the fact that the implements provided were inadequate. Dr. Hannel, of Victoria College, Cobourg, has pronounced the coal to be a very superior article of the bituminous kind.

AN astronomer, writing to an Ottawa paper says:—"As the moon will be at her inferior conjunction on the 25th inst. and as the planets will be but a few degrees out of conjunction, I would advise seamen to get their vessels into safe harbors until that date be passed. Terrible gales, accompanied by hail, will blow from the South-East, along the Atlantic coast; brilliant showers of meteors will occur, especially among the tropics; there will be unusually high tides in the West Indies, and hurricanes will prevail in the Rocky Mountains; the month of July will be excessively hot, owing to the heated atmosphere returning from the equatorial region.

"THE PANORAMA."—This is the appropriate title of a new weekly illustrated newspaper, the first number of which is to appear in Toronto early in July. It will be modelled after the Graphic, and will have contributions from the best artists in the Dominion. The illustrations will be engraved on metal, giving the exact effect of the originals. The editorial department will be in charge of an experienced journalist, and the paper will be devoted to news and art, avoiding party politics. Messrs. Boughough Bros., proprietors of Grip, are the publishers, and the subscription price will be fixed at \$2.50 per year. We predict for the venture an immediate success.

LET us see. St. John, St. Stephen and Halifax are to have new cotton factories, sure. Moncton and Halifax already have their immense sugar refineries. It does not look as though the Upper Provinces are to monopolize the manufactures of the Dominion.—Moncton Times.

THE PRINCE OF WALES AND SIR JOHN MACDONALD.—At the levee at St. James' Palace, on the 22nd, the Prince of Wales received Sir John Macdonald very cordially. Monday Sir John proceeded to Norwood, a beautiful suburb ten miles from the Exchange.

YESTERDAY'S Halifax papers state that over six thousand persons attended the matinee given by the Palestine Arabs on Saturday afternoon last.

At the recent marine examination held by Lieut. Brown, R. N., in this city, Mr. John J. K. Koughlan passed a very creditable examination and received a master's certificate of competency.

VOLUNTEERS going to Sussex can be supplied with brushes, combs, soap, syrup, eatables, etc., good and cheap at the Family Grocery.—R. K. BRACE.

PEKINS and STRENS have just received, per S. S. "Hibernian," a nice lot of new Satins, Ribbons, Black Satins, New Fringes, Girdles, Black and Colored Bunting, Spanish Lace, Prints, and a variety of other goods, all selling very cheap.

DIED.

At Pawtucket, Rhode Island, June 24th, after a protracted illness, (Capt. Lemuel Hobbs, aged 61 years, formerly a resident of Charlottetown.

CONFEDERATION LIFE ASSOCIATION!

PRESIDENT: Hon. Sir W. P. HOWLAND, C. B., K. C. M. G. VICE-PRESIDENTS: Hon. Wm. McMASTER and Wm. ELLIOT, Esq. Attention is Directed to the SPECIAL ADVANTAGES afforded by this Association as compared with the uniform Bonus of Two and a Half Per Cent. plan.

ORDINARY LIFE PLAN. C. L. A. Policy No. 1, \$10,000. Profits for 1880, TENTH YEAR \$121 99 \$312 00 Results under 2 1/2 per cent. Bonus plan \$7 75 250 00

Difference - \$34.15 \$62.00 This difference in favor of the C. L. A. policy holders INCREASES with each additional premium paid. POLICIES in this Association are NON-FORFEITABLE after TWO YEARS, and are Indisputable after Three Years.

J. K. MACDONALD, Managing Director.
