THE DAILY EXAMINER.

DECEMBER 27, 1893.

THE GRACIE PARKER FUND.

The meeting called by His Worship the Mayor was not successful in organizing a movement for the relief of the bereaved ones at Alberton and vicinity. This result was, we must charitably hope, due to the stormy weather and not to unwillingness on the part of our citizens to relieve, as much as they can, the widows in their distress. The Examiner's fund has been well opened and will remain open for some days to come. We shall be happy to receive and forward any additional amounts that may be contributed. Amounts, however small, will be thankfully received.

A VICTORY FOR GLADSTONE.

We have no doubt that the Grand Old Man is greatly comforted in these Christmas holidays by the victory of the Liberal party in Accrington. Accrington is a busy manufacturing town in Northeast Lancashire, a very populous district. It has not been considered as a "safe" Liberal constituency; for it was carried by the Conservatives in 1886. There was a falling off of the Liberal vote from 6,019 in 1892 to 5,822 on Thursday last; while the Conservative vote shows the slight advance from 5,472 to 5,564. Still, the victory was with the Gladstonians, when defeat would not—all things considered—have been surprising. The Conservatives made a strong effort to win the seat; and they are greatly disappointed on account of their want of success.

THE FARMERS' OPINIONS.

The farmers of Ontario are apparently not prepared to give up the protection which they now receive in respect to their products. The investigations which have been made by the Controllers of Customs and Inland Revenue, show that a very large proportion of them are in favor of retaining the duties upon beef, pork, etc. Out of ninety-seven farmers who gave their views with regard to pork, only twelve advocated a removal of the duties, while eight asked that the duties be increased and seventy-seven were content that the duties should remain as they are. So with beef only six desired the duty removed, while eight wished it increased and forty-one favored a retention of the present duty. And so with regard to other farm products, in respect to which the farmers receive protection under the National Policy, but which would be in competition—not always fair competition—with the farm products of the States if the grit party obtain the opportunity they seek to gain office and readjust the tariff according to the ideas of the great mixer and muddler—Sir Richard Cartwright.

NOTES AND COMMENTS.

—Andrew Thornton Todd, for many years proprietor of Lot 19, in this Province, died recently in Toronto at the age of eighty-four years. He was a Past Master of the Masonic order.

—The Conservative Government, under the National Policy tariff, took the Liberal duties off tea, coffee and sugar, and reduced the Liberal duties on coal oil. The N. P. tariff reduced the family grocery bills.

—In 1878 the burthen of sea-going ships entered and cleared at Canadian ports was 6,684,384 tons. This was under a Free Trade policy, calculated to encourage foreign trade. In 1892, under a Protective policy, calculated also to ennourage home trade, the burthen of sea-going ships entered and cleared at Canadian ports was 10,752,984 tons.

—Benjamin Franklin was not trying to make a point for his party when he said: Every manufacturer encouraged in our country makes part of a market for provisions within ourselves, and saves so much money to the country as must otherwise be exported to pay for the manufactures he supplies.

—The death of Mr. Charles Blatch—of which we publish a notice to-day—removes one of the few survivors of the passengers who sailed from Charlottetown in the brig Fanny for California on the 12th November, 1849. Of that good ship's company of forty, there are now but six survivors, viz., Messrs. E. B. Love, Edward Moore and John H. Gates, of Charlottetown; George W. Owen, of New Zealand; and John Macdonell and Artemas Davison, who are still in California.

—The Salem Gazette makes out a strong case in favor of the adoption of maize, or Indian corn, as the national floral emblem of the United States. It has great antiquity as a plant indigenous to this continent, for its tasseled beauty was noted by the Norse pioneers when they touched upon the shores of "Vinland" in the 11th century, and is the undisputed monarch of the cereal world, and as the Gazette says, "it combines grace and beauty with the highest usefulness; and this happy blending of the esthetic and the utilitarian is in keeping with the general bent of the American mind."

—The Banker's Magazine, a leading authority in the United States, pays a high compliment to Canadian bankers. It says:

"One of the modes of increasing our circulation, which finds favor in many quarters, is to adopt the Canadian system of bank note issue. No one who is familiar with that system will question its perfection for Canada. But it does not follow that the same system of banking would work equally well in this country. Different countries and people often require different systems. One reason why the Canadian system works so admirably in Canada is that the banks are conservative and highly intelligent. There is far less speculation among them than among ours, and they are better bankers.

The French torpedo boats, about which war alarmists in England make such a fuss, seem less dangerous in practice than on paper. Some recent trials at the Toulon arsenal were not a great success. Two torpedoes were fired at a model boat; one never left the tube; the other went to the bottom before it got half way to its destination. A submarine mine was to have been exploded; but the wrong torpedo went off. This is almost as bad as the exploit of a British torpedo boat in the naval manœuvres last summer, which succeeded in disabling two ironclads of its own side under the impression that they belonged to the enemy. Torpedoes are costly things, running up to something like $1,000 a shot, but mistakes like these in actual warfare would be more costly still.

A strong public opinion has for years been urging the Ontario Government to put an end to the fee system for the payment of public officers, and to fix salaries for all places in the gift of the Province. But Sir Oliver Mowat would not move. As a result he has been left behind by the Government of Quebec. The Conservatives are the progressive party in this country, and the Liberals are the slow coaches.

An anecdote of James G. Blaine is going the rounds, the point of which is lost by a typographical error. He suggested a change in a line of Whittier's "Among the Hills," which was adodpted by the poet. When Mr. Blaine first visited Whittier, he spoke of the poem referred to as one of his favorites, and taking up the volume he read aloud some stanzas of it. When he came to these lines he suggested an improvement:

"Not beautiful in curve and line,
But something more and better."

He thought the poet's meaning would be better expressed if it read, "Not *fair alone* in curve and line," and this reading was at once adopted by Mr. Whittier. All editions of the poem published before 1875 were as first quoted. The point of the anecdote was lost by putting the word "alone" after "beautiful" in the quotation of the original version.

Professor Klebs, of Carlsruhe, who has modified advantageously Professor Koch tuberculin for consumption, says he has discovered a sure cure for diphtheria. He has been successful in thirteen distinct cases.

The will of Sir Andrew Clark, the famous physician who died a few weeks ago, disposes of property worth £203,969. A legacy of £500 is to be used in founding a medical scholarship at the London Hospital. The rest is to be distributed in the family.

When T. Stunzi, a hard-working Swiss living in New York went to work the other day, his family consisted of a wife and six children. When he returned home there were nine children—the three additions being lusty boys who weighed eight pounds each.

Miss Jessie Ackerman, president of the Australian W. C. T. U., has during the last five years travelled over 100,000 miles, and converted 9,000 women and 8,000 men, besides writing about 700 newspaper articles and raising $9,000 for the cause. Miss Ackerman is now lecturing in London.

John Green, the owner of Directum, believes he has a better horse in Electrical, bay colt, foaled 1892, by Elector, out of Stemwinder, dam of Directum. He has trotted a quarter in 30 seconds. His sister, Electrina, has a record of 2 20 and may be seen on eastern tracks next season. Stemwinder is now in foal by Direct.

A letter from Abyssinia says that a page, accused of being implicated in the recent plot against the life of the ruler of Abyssinia, was seized, his tongue was cut out and one foot was sawed off. A week later the sovereign ordered one of the boy's hands to be cut off and then the lad was left in the desert to be devoured by the vultures.

Sir Henry Ponsonby, secretary to the queen, disposes of the delusion that her majesty invariably makes a present of three guineas to the parents of triplets. The Queen's bounty is dispensed under certain conditions only. The three children must all survive, and there must be proof that the parents, though respectable, are too poor to meet the unforseen demands made upon them by the appearance of the trio.

The encyclical on the study of the Holy Scriptures declares that "natural and supernatural revelation, the God of Creation and the Lord of Salvation, do not contradict each other." The Pope thinks that the conflict between Biblical doctrine and the discoveries of modern science is not real but apparent, and recommends the study of the Bible as the means of establishing the fact, first in the schools and then among the people. The message will come as sound doctrine to all Christians.

The Greek Ephor of Antiquities at Athens has just announced a discovery of importance to archæologists and to students of ancient music especially. For some time the French school of archæology has been conducting excavations at Delphi, and among the recent finds is a marble slab bearing a hymn to Apollo, with the musical characters engraved over each syllable. This is said to be the only authentic record yet found of the music of the ancient Greeks. The hymn with the music will shortly be published by the director of the French school.

That Christmas Money.

In the next few weeks people will talk Christmas more than all other subject combined. And very many will count their pennies to see if they will go around. And some will realize for the countless things offered for sale, "that money talks." Yes, and many a poor tired clerk will wish that they could talk back. To give unselfishly without thought of return is the true Christmas spirit. But how many times, oh human nature, will the thought occur this month "Now if I make so and so a Christmas present, wonder if I will get a return next year." The growing Christmas present custom comes hard among certain classes, who do not always have plenty of ready money; among farmers and people near towns, who keep poultry the egg supply, is a great source of Christmas money, because prices are always very high at this season. If the old hens will only shell out the eggs now, thinks many a mother, I can soon get back all the money taken for Christmas. The surest way we have heard to get it back is this—E. A. Hubbard of Hatfield, Mass, says, "about one year ago I sent $5.00 for six cans of Sheridan's Condition Powder to make hens lay and in January my 28 hens laid 29 dozen eggs. I have sent $5.00 this year for six more cans and the Farm-Poultry monthly." Certainly that Christmas money came back in short order. Mrs. Warren Delano, Hampden, Me., said recently to the manufacturers of this wonderful Powder. "I send $6.00 for Farm-Poultry two years, and six large cans of Sheridan's Powder. It is the very thing needed. Last winter my hens did so poorly I almost lost heart, but this year, 50 hens have cleared me $125.00. "All for a little courage and Sheridan's Powder, her hens paid her more than double the average usually allowed per hen, so that her Christmas money returned manifold. Husbands, a word to the wise is sufficient; Make your wives a Christmas present of six cans of Sheridan,s Powder and take no other. For 50 cents I. S. Johnson & Co., Boston, Mass. will send two 25 cent packs; five packs, for $1.00; or for 1.20, one large 21-4 pound can of Powder, postpaid; six cans for $5.00, express pre-paid. The best poultry paper—Farm-poultry one year, and a can of Powder for $1.50.

NOTICE TO THE POLICE.

Sir—I wish to notify the police through your columns that dirty snow, hauled from stable yards, has been dumped on Prince Street. If Tuesday's storm has not covered it up they can see it, and make the parties who put it there remove the nuisance to the ice. If not, the complaint can be carried before His Honor, who will see that the police do their duty. Yours,

The World's Columbian Exposition.

1. The whole civilized world has been interested in the Great Celebration. The crowned heads of Europe, the governments of all the famous nations of the globe, the lands of the Orient and the islands of the sea have all been co-operating to render the Exhibition worthy of the greatest event of modern times. Its magnitude and marvelous character can only be described by saying that it has comprised all the rarest products of land and sea, the most dazzling wonders of nature and the grandest productions of human genius.

2. The Great Fair which celebrates the discovery of America by Columbus has never been equalled. It was larger and more magnificent than any similar exhibition ever held. Over twenty million dollars was expended in its grand spacious buildings, and the result was the most attractive Exhibition the world ever saw.

3. This gorgeous display is vividly portrayed in our PICTORIAL HISTORY OF THE WORLD'S COLUMBIAN EXPOSITION. This captivating volume is a brilliant panorama of the Great Fair which has awakened such a world-wide interest.

This wonderful work is a royal octavo volume of over 800 large double-column pages, 10½ inches long by 7½ inches wide. It contains nearly twice the amount of matter in an ordinary quarto book, and is therefore equal to a large volume of 1600 pages.

It contains a complete history of the World-renowned Exposition at Chicago; captivating descriptions of the magnificent Buildings and marvellous Exhibits, such as Works of Art, Textile Fabrics, Machinery, Natural Products, Latest Inventions, Discoveries, etc., with a full description of Chicago, its wonderful Buildings, Parks, etc., by ex-Governor Wm. E. Cameron, of the World's Columbian Exposition History Co., with an introduction by Hon. Thomas W. Palmer, ex-U. S. Senator and ex-Minister to Spain, including a chapter on the Women's Department by Frances E. Willard, President of the World's and National Woman's Christian Temperance Unions.

CONDITIONS—It is printed from clear, new type, on fine calendered paper, and is embellished with a large number of BEAUTIFUL ENGRAVINGS, which charm everyone who sees them.

This grand work surpasses anything that has yet appeared in this line, and will be sold by subscription only. Wait for it; take no other.

He Was Convinced.

A man in Nova Scotia was in doubt as to the genuineness of the reported cure of Mrs. Bernard Maguire and ex-Councillor Lingley, of Petersville, Queen's Co., by a course of Hawker's Nerve and Stomach Tonic and Hawker's Liver Pills. He wrote to Squire Lingley, and that gentleman promptly assured him that the testimonials were genuine.

The Brydon Case.

Hilton, Man., Oct. 30.—James Brydon of this place, told a marvellous tale to a newspaper reporter the other day. He said he had been attacked by kidney disease about two years ago, which resulted in continuous pains in the back. To use his own words, "the pains were unbearable and life was a drag." He became so weak that he had to give up work for over a year, and frequently needed assistance in dressing and he could not put on his own boots. Mr. Brydon has lately taken one dozen boxes of Dodd's Kidney Pills. The result has been a perfect cure, and he is to-day as healthy and happy a man as can be found in the Province. These pills have only been on sale for a short time in Manitoba, but several instances of really wonderful cures from their use have come to light throughout the Province.

Popular Cures for Headache.

Headaches are one of the greatest banes of humanity, and the so-called cures are without number. Among them may be mentioned smelling salts, toilet vinegars, hot foot foot baths, etc. But the most effective and reliable cure yet discovered is Hawker's Liver Pills, which regulate the stomach and bowels and relieve the brain of all fevered and congested blood. If your head aches, try them.

CHILDREN'S

Christmas Tree and Tea.

The Committee in charge of last year's Christmas Supper, with Christmas Presents to the poor children of the city, purpose repeating it this year on THURSDAY, the 28th day of December, inst., in the MARKET HALL, at the hour of 3 o'clock, p. m.

Mr. Frank Carter will take charge of the Supper. All supplies will be received by him at his shop—cold meat, cake, sandwiches, tea, coffee, sugar, apples and confectionery—at any time previous to 11 a. m. of the 28th December, instant.

The Christmas presents for the children will be received, with the name of the donor attached, by Mr. Carter or by any member of the Executive Committee—comfortable, warm articles preferred—on or before Wednesday, the 27th instant, in order to allow time for their proper distribution.

Boys and Girls under 14 years of age will be admitted by Ticket only. These tickets can be obtained from any member of the Executive Committee.

For the Tea there will be 21 tables, to be taken charge of by the ladies as follows:

First Methodist Church	4 tables
Second " "	2 "
St. Paul's "	2 "
St. Dunstan's Cathedral	4 "
St. Peter's Church	2 "
Zion "	2 "
Baptist "	2 "
St James' "	2 "
Salvation Army	1 "

The plan is that each table shall be looked after by four ladies (24 children being seated at each table), the knives, forks and spoons necessary being supplied by two of these ladies, one dozen each to avoid confusion. Mr. Carter, who has received all supplies, will place them on the tables.

The generous assistance of all citizens is asked, as it is expected that upwards of 400 children will be in attendance.

The Executive Committee are as follows:—Rev. Jas. Simpson, Rev. W. Hamlyn, Rev. W. W. Brewer, Rev. G. C. P. Palmer, Rev. C. W. Corey, Ensign James Watson, Senator Macdonald, Mr. W. F. Carter, Rev.
