

Czarist Police Records Are Opened After 40 Years

PALO ALTO, Calif. (AP) — A ton officials hope they will yield considerable background information on past and present members of the Communist hierarchy.

The files were shipped secretly from Paris to the United States in 1956 by Basil Maklakov, last year Communist Russian ambassador to France.

KNOW THE VALUE

Maklakov, apparently realizing the great value of the papers, signed a statement that he had burned them. Then he shipped them to the U.S.

Fearing his life would be in jeopardy if the truth were known, he stipulated the cases should remain sealed until at least three months after his death. He died last July in Switzerland at the age of 86.

Officials of the Hoover Institution on War, Revolution and Peace at the Stanford University campus have opened five of the boxes and given the contents a hurried examination, says C. Burton Rothwell, director.

LIST TROFSKY, MOLOTOV

Files have been found on Trotsky, Molotov and Polish marshal Pilsudski.

Many dossiers include police-type front and profile photos. Trotsky, about 25 at the time, is pictured with such a bushy head of hair he might easily be mistaken for a woman.

Most of the men are identified by their family names rather than by their later, more famous names.

Wonders How Much Land He Can Get To Attract Tourists

TORONTO (CP) — How much land will the 10 Canadian provinces put up to attract United States tourists?

That's the problem facing Jack Block, owner of Winnipeg radio station CJOB and a director of the Canadian Tourist Association, springing the idea last Friday on the CTA annual convention in Ottawa and said he already has the promise of 4,000 acres of land from the Manitoba government.

"Canada would get \$2,000,000 worth of advertising," he said.

The CTA moved officially to take over the proposal, said it would develop a suitable contest to interest other provinces in

and Mr. Kelly said Tuesday Block to head a CTA committee of his own choosing to get on with that job.

LESS FROM MARITIMES

What now will the other provinces do about it?

CTA organizing secretary Robert Kelly said Tuesday Ontario, Quebec and the other Western provinces "out to be able to match Manitoba's offer."

"Maybe the Maritime provinces could offer something less."

"We could get as many as 25,000 or 30,000 acres."

Mr. Block plans to approach each province for its reaction to the proposal, Mr. Kelly said.

At the convention Mr. Block suggested 99-year leases would go with the Manitoba land. He didn't say anything about rights to minerals or oil under the land

Slowdown In Housing Construction Is Noted

OTTAWA, (Special) — The former St. Laurent Government's "light-money" policies continue to be reflected in a slowdown in housing construction in major cities across Canada, including Charlottetown.

The central Mortgage and Housing Corporation disclosed Thursday that only two new houses were started in Charlottetown in September, compared with 10 in the corresponding month a year ago.

The number of "starts" in the nine-month period ended in 1956 was 18, as against 28 in 1955.

Across Canada starts in September totalled 7,877, compared with 8,770 in the same month of last year. Starts in the nine months numbered 54,964, this year as against 70,873 in the corresponding period of 1956.

New houses under NHA were completed in Charlottetown in September. In September, 1956, there were 10. Completions in the January-to-September period this year were 23, compared with 27 in 1956.
