

Barbara Ann Heads For New, Richest Role

By ALAN HARVEY
LONDON, Sept. 29—(CP)—Barbara Ann Scott last night bade Britain a reluctant farewell and headed across the Atlantic to start rehearsals for what probably will be the richest role in her career.

The Canadian skating star, who now cuts financial figures every bit as successful as the loops and whirls she traces on ice, left by plane (B.O.A.C.) for New York and Chicago. There she will train for her star part in "Hollywood Ice Revue," sponsored by Arthur Wirtz and Jim Norris, both of Chicago.

Her salary has been estimated at more than \$100,000 annually, although the contract is not expected to run for a year.

Barbara Ann has one remaining European commitment. She will fly to Zurich, Switzerland, to appear Oct. 19-31 in a show sponsored by British promoter Tom Arnold. Then it's back to North America and the scheduled opening of the new revue at Milwaukee Nov. 7.

"It's been quite a rush," Barbara Ann said in an interview before boarding her plane. "I haven't had a holiday for a year and I don't know when the next one will be."

For the last three months, Barbara Ann has had the title role in "Rose Marie," a London ice show with Quebec and Alberta backgrounds. That has meant 10 shows

New X-Ray Method In Cancer Treatment

WASHINGTON, Sept. 29—(AP)—A "chess board" method of applying powerful X-rays offers new hope in treating advanced cases of cancer resistant to other treatments, a New York doctor said yesterday.

Dr. Hirsch Marks described a method of applying X-ray through a "grid". He said it allows attacking a cancer with much more powerful doses than can be employed in conventional X-ray treatment without seriously damaging normal tissue.

In conventional treatment, he told the American Roentgen Ray Society, X-ray is directed against the skin with no intervening material. The strength of doses is limited by the tolerance of the normal tissue surrounding or overlying the cancer itself.

After a week, leaving her little time to sample the sights in London. But the reporter couldn't wring any nostalgic reminiscences out of Miss Scott. She said she enjoys skating as a professional just as much as she did as an amateur in the days when she was Canada's No. 1 sports celebrity.

She considers that musical plays on ice are the only future for skating.

"After all, there's only so much you can do on ice," she said. "Acting out a story, on the other hand, gives skating a purpose. I hope they will try some in Canada."

Barbara Ann hopes to come back to Britain next year.

Wintery Weather Comes Early to West

While the rest of Canada has been enjoying In Central Park. Many areas of Southern Alberta were covered with eight inches of snow, which although delaying the harvesting, did little damage to the crops.

Industry Growth Important Factor In Canadian Life

MONTREAL, Sept. 29—(CP)—Canada is far ahead of most countries in the extent and variety of her primary products and natural resources, the National Council of Women was told yesterday.

The report of the Council's committee on natural resources was prepared by Mrs. C. W. Boss of Regina, who said that with greater industrial development this country is better able to deal with today's complex problems.

The report presented many highlights supplied by local committees. Port Arthur, Ont., gave information of the mining fields of the Thunder Bay district and said the opening of new iron mines will provide employment for large numbers. In the West Algoma-Fort William area local industries were studied, including Canada's only wheat starch plant. Lakehead storage elevators handle 36 per cent of Canada's wheat crop, it was stated.

Toronto reported growth of new industries in the area was above average. The Toronto committee supported a project organized by a garden club for landscaping University Avenue with native trees.

Kingston, Ont., noted immense quantities of grain handled by elevators at nearby Portsmouth, and the planting of thousands of young trees in a section near the city by children from country schools.

Halifax reported a forest conservation program was started in the schools and extended to adults through the Green Forest League, comprising 100,000 members. The program also stresses conservation of wild life. In Truro, N.S., articles on natural resources were read at meetings and a speaker discussed industries along the north shore of the St. Lawrence.

At Moose Jaw, Sask., a meeting heard an address and a film on the search for oil. In Medicine Hat, Alta., a meeting was held on the subject of irrigation.

The British Columbia north shore report told of the \$500,000-000 aluminum plant to be built near Prince Rupert. British Columbia's record lumber cut in 1950 was noted, but it was stated that the large extent of denuded forest land poses a problem of reforestation.

Kamloops, B. C., reported that the trend of the lumber business is toward mechanization, and Victoria noted an expansion of the national parks of the Province.

The State of Idaho was named from the Indian words "edah hoe", meaning "light on the mountains."

Women's Institute Meetings

NEW LONDON W. I.

The September meeting of the New London Women's Institute met on September 11th at the home of Mrs. Harold Mayhew, with eleven members and two visitors present. Roll call was answered by each member telling her age. Minutes of last meeting were read, approved and signed.

Reports of committees followed. Sick committee reported making one call, school committee reported paper, towels, dustpan, and a refill for the first aid kit was needed. New sick committee is Mrs. Don MacEwen, Mrs. Oscar MacKay, and Mrs. Ralph Cobb. New program committee, Mrs. Morton Adams and Mrs. Ralph Cobb.

Correspondence consisted of a letter from the Cancer Campaign. Mrs. Wilbur MacKay, Mrs. Leigh MacEwen, Mrs. Bloyce Dunning and Louise Carr were appointed to canvass the district for funds; also discussed was a letter from the Orphanage asking for funds. Bills were on motion ordered paid.

Program consisted of a contest put on by Elva MacAllister and won by Mrs. Harold Mayhew, also a contest by Mrs. George Cole and won by Mrs. Ralph Cobb and Mrs. Fred MacEwen.

Next meeting to be held at the home of Mrs. Lorne Campbell with roll call to be answered by giving \$1.00 as special collection.

Meeting closed with "The King". Lunch was served by the hostess and committee in charge.

AVONLEA W. I.

The September meeting of Avonlea Women's Institute met at the home of Mrs. T. L. MacNeill. In the absence of the president, Mrs. Roy Woolner presided. Meeting opened with "Ode" followed by "Creed". Minutes of last meeting were read and approved and roll call was answered by 14 members.

Committees then gave their reports and new ones for October are as follows:

Cavendish school, Mrs. Jeremiah Simpson and Mrs. Allan Wyand; Cavendish sick, Elanthe Wyand and Mrs. Stirling Stewart.

Rustico school, Mrs. Roy Woolner and Mrs. Will Toombs; Rustico sick, Mrs. M. J. Doyle and Mrs. Ernest McLure.

After the school reports were attended to a discussion followed about a music teacher in the school, but nothing definite was decided on.

It was moved and seconded to pay \$4.00 towards the Blood Donors Clinic held at Stella Maris Hall, North Rustico. The October meeting to be held in the Club House at Cavendish. Program committee in charge will be Mrs. Jeremiah Simpson, Mrs. Ira McCoubrey, Mrs. Ernest McLure and Mrs. N. S. McLure. Lunch committee, Mrs. George McCoubrey, Mrs. Ira McCoubrey, and Mrs. Walter Green.

The program committee then took charge, offering a reading by Mrs. T. L. MacNeill and a contest by Mrs. Ernest McLure. Lunch was then served by hostess and committee. Collection \$1.92.

The meeting closed by all singing "God Save The King".

MURRAY HARBOR W. I.

The regular meeting of Queen Mary Women's Institute was held in the hall on Sept. 4th with the president in the chair.

The meeting opened by singing "The Island Hymn", followed by the "Creed" in unison. Roll call was answered with a health hint. Minutes of the last regular and special meeting were read and approved.

CHELTON W. I.

The regular meeting of the Chelton Women's Institute was held at the home of Mrs. Heber Schurman on Sept. 12th. The meeting opened with the "Creed" repeated in unison. Eight members answered roll call. The correspondence included a refund check for the delegates' fares from Institute office.

In regard to delegates' expenses to A.C.W.W. Conference in 1953, it was moved and seconded that membership be raised to 35 cents for two years as suggested, to make possible a fund for same.

It was also moved and seconded that \$3.00 be sent to Cancer Society. A "Thank-you" card for sympathy card was also read.

The committees' reports were given, and thanks for fruit sent to one of a member's family, was conveyed. Bill for same was presented and paid. \$2.30 was handed in to be added to ice cream social proceeds made from extra eggs, cream, etc. not used.

The secretary was asked to write the School Supply again for particulars on purchasing a map of the "Maritime Provinces", also a "Globe".

A long discussion on improvements needed in the school followed. It was decided the club send for apron patterns to Institute office, and Mrs. Heber Schurman and Mrs. Fred Clark to meet at Mrs. Edgar Doull's to look over cottons on hand, to decide on articles needed and the date members should meet to sew aprons.

The members decided "sewing" would be the best handicraft for the Institute. If lessons in same were available. Collection amounted to 55 cents.

Meeting adjourned on motion. The program consisted of a reading, "Higher Education", by Mrs. Waldo Gardiner; a contest, "Pickle Ingredients", and a reading by Mrs. Wilbur Wright. A delicious lunch and social half hour were enjoyed afterwards.

TOURS FOR INVALIDS

COPENHAGEN, —(CP)—Special holiday tours are being arranged for Danish Invalids and sick persons who otherwise would have no opportunity to travel. The journeys will be made by air and bus and are free or partly-free for the patients.

MOST PHONES

The United States is estimated to have 58 per cent of the world's total telephones, with 26 phones per 100 persons.

planting a mountain to raise steel production

STELCO NEVER STOPS

3750 tons of slag are dumped each day to form new ground for dock and storage facilities at Stelco's Hamilton Works

Facts about STEELMAKING

Every new house requires about 4 tons of steel.

To produce one ton of pig iron requires a total of 4 tons of iron ore, coke and limestone.

Steelmaking never stops... the job must be carried on 24 hours a day, every day of the year.

If you have ever visited Hamilton, Ontario, you will remember "The Mountain", which rises picturesquely behind the city. Today, there is another man-made "mountain" rising up from the Hamilton waterfront. It is a mountain that grows larger every day as an army of dump trucks plant load upon load of slag from Stelco's blast furnaces.

The curious thing about this mountain is that while it now towers high in the air, it is designed to settle gradually to form a firm foundation for new Stelco dock and ore storage facilities. 35 acres of new "land" will thus be created for greatly expanded steelmaking operations.

Utilizing this once-discarded slag to build new docks and storage yards is just one step in Stelco's giant 1951-52 expansion program... a more than \$50,000,000 program which will produce more steel to make Canada strong.
