

Back Stretch Continued from page 6 Fay W., owned and trained by Wilfred Walker. She is by Pepper and her dam is the celebrated race mare Mitty Bars by Graitan Bars, so she is really bred in the purple for speed. She is well mannered and has a nice way of going.

Chops Campbell has a nice stable, among them are P. E. I. Budlong, also the little mare Vesta Budlong, that he is having good success with. He also has Dr. Austin Delaney's former good pacer Patchen. Vol 2nd, that is going great at the present time. Chops' splendid drives. Drives a few horses by the Ontario side, Mr. Chips, are here including Tonyville, Frisco Flag and Dade. I understand Brewer's Gail is back in Halifax but I haven't seen him yet. Before I left the Island I paid a call to Don MacNeill's stable at Summerside Raceway and was really impressed with Mr. Jack Curran's Honest Abe. He should be a star next season for Don in the fast classes.

S. Thane Belyea writes us from Fredericton that Wesley Bishop has purchased Bevo's Orphan Anp 2:19 from the estate of the late John D. Forbes. Harry Mount is jogging the other two, Shamrock Thoughts 2:04 and the three-year-old Slicker Tass and they are both in the pink of condition. Myron MacArthur and Ned Lindon were in to see him for a few minutes last week on their way from Woodstock. Thanks, Thane, for keeping us up to date as usual.

H. E. Hatch, President of the Canadian Trotting Association, Toronto, writes complimenting our Maritime Racing Review and informs us that he sold his farm and all his horses last fall, retaining just two fillies so that should he desire to breed them he could. Mr. Hatch has been one of the best supporters of harness racing in Ontario and one whom everyone has confidence in. We are glad to hear that he is really retired and won't be a bit surprised to hear of his racing a good one in the near future.

E. B. Savage, well known horseman of Fredericton, writes that the forecast for next season there is bright and a bigger and better exhibition with the accent on livestock. There are some dozen race horses owned in Fredericton including Shamrock Thoughts and Slicker Tass and George Woodside's Tyndall Semple and a Joliffy filly also owned by George Herb Chase has Cedric Hanover and O. U. Vol. Joe Hughes has Dot Cash and Mr. Savage has Ann Castle and there are several other young race horses.

We have a letter from R. L. MacMillan, Calgary, dated January 18th, and we regret to learn from it that he was on his way to the Mayo Clinic in Rochester, Minnesota. Mr. MacMillan had been under the care of local physicians and they advised the above course. We, in common with his many friends, hope that he will be speedily returned to good health and back again with us next summer watching his horses train and race.

The rule barring 15-year-olds from racing except in matinees has created considerable hardship for owners who, unaware of its being put in force, purchased 14-year-old horses last fall. One of them, a young man who invested practically all his spare cash in a fast record pacer still able to turn out tracks in 2:10 to 2:12, now finds that under the new rule he will only be able to race in matinees. He ends with, "I am not the only one in these parts who will be caught with fairly good horses past his age of 14 years. I trust something can be done to help out this serious situation for us."

tending horse. Inter-Provincial races were held by this Club each year until 1950 and since then ice conditions have not been sufficiently good to warrant their being held. It is the intention of the Club officials if ice conditions are favorable to renew the Inter-Provincial meet this season, inviting horses from Maine, New Brunswick and Nova Scotia to compete against our local trotters and pacers, the meet to be held the week following the International ice meet at Dartmouth on February 13th and 14th. An ad appears in this issue re the International races at Dartmouth which will consist of a Championship Trot (Invitational) to be held February 13th and Championship Pace (Invitational) to be held February 14th, with other events both days. In preparation for the above if ice conditions permit, arrangements will be made to hold a number of preliminary contests with prizes given to owners of the winning horses. Our readers will remember that at the International ice meet held at Moncton last winter the winner of the pacing championship was Mabel Patch 2:12, driven by E. Smith, and the winner of the championship trot was Rafah Hanover 2:13 3/5, owned by Myron Bell and driven by Ike Moreside.

Earle Avery will have the strongest racing stable this season he has ever had. In addition, the horses owned by C. T. Black he has others, making a total of 28. Recently Fred and Robert Woolworth of Clearview Farms, Winthrop, Maine, sent him the \$17,000 yearling of last fall, Pennsylvania, and he is a full brother to Mr. Dean 1:58 3/5. Earle also received from the same owners, Paul's Scott, 2:10 2/5, that they paid \$14,500 for at Harborsburg. In addition Earle will have the following owned by Gordon Drew, Augusta, Maine, Rocky Lybrook, a three-year-old by Knight Dream 1:59, also Dream Dale, another three-year-old, and Summit Hanover 2:10. Ralph Dolson has sent him the iron-sided pacing gelding King Adam 2:03 2/5 and he is in one of Earle's front stalls.

Irvine F. Swift, Norton, N.B., has very kindly written us giving the news from that vicinity, where Frankie Carr has a stable of five horses and has recently added Guy Tucker by True Volo, dam, Nan Tucker. He is owned by Beverly Milton, Moncton. Irvine also informs us of the recent death of Aubrey C. Titus of Norton, a prominent harness horse owner of New Brunswick, who came from the family that have been identified with harness racing for generations. At the time of his death he was the owner of Flaxey Pointer 2:06 and Just Nellie C 2:19. In common with hundreds of other horsemen friends we tender our deepest sympathy to his family.

Hunters' Corner Continued from page 6 equipped with twin digging tools and ears and nose that are razor sharp. The family life of field mice never seems to run smoothly and constant bickerings lead to their undoing. A fox can dig through two feet of snow in nothing flat and many a grand meadow mouse has found herself sliding down a steep, warm tunnel to oblivion before her tirade, directed to no one in particular, was finished.

A winter migration of snowy owls from the Arctic tundra into the northern and central States was reported this week by the National Audubon Society, New York. Most of the snowy owl records so far are from the northern States, mainly from New England to the Dakotas. One owl was seen in Maryland and indicates the invasion may extend into the southern States. Reports from the Arctic indicate that lemmings are very scarce this year. When these mouse-like creatures vanish, the owls head south in search of food.

I have just received a letter from a writer in the States regarding the snowy owl invasion. He tells me that the snowy owls sometimes perch on buildings or poles from which they can survey the ground for rats and mice, which comprise the major part of the owls' diet during their stay here. This information may apply to portions of the States but I'm afraid he's slightly off the beam so far as this province is concerned.

Since the blizzard of January 12 what will a snowy owl see if he perches on a pole or building, over the countryside from daylight till dark? He'll see just what I see on my jaunts afield, maybe

If one doesn't want the pelt there is no point in skinning the entire animal—the ears and face mask will suffice. The people in the bounty offices, Charlottetown and Summerside, have no desire to appear officious or embarrass anyone who calls but rules are laid down to govern their actions and they are in duty bound to abide by those rules. A bounty office is a good place to have one's faith in human nature shattered. Some evidently mean well and others are opposites. Just recently two fox pelts were presented for bounty—the ears of both had already been punched. In another instance a double handful of skin sections purporting to be coon ears were confidently tossed onto the counter. They came from a coon alright but they weren't all ears. A raccoon ear is not overly large and if it is sliced off carelessly there is not much to go on in any case and besides it's a waste of time unless the ears are attached to the face mask.

Just a gentle reminder, rabbit hunters—the season closes on January 31

Prince Street School Ice Sports Last Night

The annual Prince Street School Ice Sports were held at the Charlottetown Forum last night with a huge crowd of kids and parents present to witness the keenly contested events. A total of twenty five skating events were run off under the watchful eye of starter Art Perry and the judges. All the events were close affairs with good times being posted according to Bill Bevin's stop watch.

A hockey team from Prince of Wales College displayed too much finesse for the younger Prince Street boys and defeated the school team 7-2 to conclude the evening's competitions. Following the game there was a skate for the kids.

The sports were the twenty-eighth in the history of the school. Officials: Judges—Lt. Col. K. M. Johnston, Donald MacBeth, Miss Ann Matheson; starter and referee, Art Perry; timer—William Bevin; announcer, J. A. S. Williams.

Following are the results: Special race without skates, Grade 1-1. Donnie Carr; 2. Cheryl MacQuarrie; 3. Kirby Smith. Special race without skates, Grade 11-1. Kenneth Squarebriggs; 2. Karen MacNeil; 3. Jeannie Carr.

Boys, 6 years (1 lap)—1. Peter Clark; 2. Rupert Coffin; 3. Sandra Thacker. Girls chain relay, Grades 6, 7, 8.—1. Grade VIII (Mr. Horton's class); 2. Grade VII (Miss Altken's class); 3. Grade VI (Miss Ferguson's class).

Boys, 9 years old—1. Roy Biggar; 2. David Lee; 3. Peter Tanton. Boys relay, Grades 8, 9, 10-1. Grade 10; 2. Grade 8; 3. Grade 10 Jr.

Broom race—1. Harold Harper and Roy Diamond; 2. Wynn Ross and Gordon MacDonald; 3. Freddie Brown and George Ross.

Girls, 8 and 9 years—1. Fatsy MacPhail; 2. Janet Messer; 3. Gail Hermann. Girls, one quarter mile—1. Jean MacDougall; 2. Beryl Sheltoon; 3. Wilma Carmody.

Team race—Grade V-1. Florence Gauthier and Peter Tanton; 2. Fred Davison and Judy Murphy; 3. Alma Vail and Basil MacKinnon.

Straight race, boys 12 years—1. Gordon Ferguson; 2. Alan Bowness; 3. Alan MacDougall. Potato relay, Grades IX and X—1. Grade X Senior; 2. Grade X Junior.

Girls, and boys, 7 years—1. Bobby Ford; 2. Bobby Nelson; 3. Ronnie Diamond. Boys, 13 years—1. Roy Diamond; 2. Arnold MacCallum; 3. Ross Gillis.

Boys 8 years old—1. Douglas Kitson; 2. George MacMillan; 3. Bobby Ford. Boys, 9 years old—1. Gordon Full; 2. Donnie Davis; 3. Gerald Auld.

Girls, 11 years old—1. Joan Cudmore; 2. Florence Constable; 3. Judy Murphy. Boys, 14 years and over—1. George Ward; 2. Richard Mackay; 3. Rolfe Lee.

Boys 11 years—1. David Rogers; 2. Roy Biggar; 3. Freddie Gauthier. Team race—1. Rolfe Lee and Beryl Sheltoon; 2. Jean MacDougall and George Ward; 3. Maida Rogerson and Richard Mackay.

Team race, Grade VI—1. Sheila more but certainly no less. I see a covey of Huns pulling down the clustered seeds of Lamb's Quarter protruding above the snow... pheasants scratching for grain around a stack... grouse seeking rose hips and seeds along a hedge... black ducks squatting on a fringe of ice or tipping up in a shallow spring... the rich brown of a muskrat on a grassy hummock... poultry in a farmyard... any of which would be right up Mr. Owl's alley. A hungry owl is not in the least choosy. How many rats and mice will he see? Your guess is as good as mine. This winter a hunter who brought a snowy owl in for mounting reported it had killed and eaten six Huns out of a covey that was staying on his farm before he was able to shoot it.

A few days ago a man appeared at the Bounty office in Charlottetown and presented five red fox noses, neatly strung on a cord, for bounty payment. Needless to say he didn't receive any money. No bounty will be paid on fox or raccoon unless the ears, with face mask attached, is presented. On skunk payment will be made on the snout with a portion of the white strip attached. If a trap- per wishes to retain the pelt of a fox or coon, the pelt is returned to him after both ears are punched.

If one doesn't want the pelt there is no point in skinning the entire animal—the ears and face mask will suffice. The people in the bounty offices, Charlottetown and Summerside, have no desire to appear officious or embarrass anyone who calls but rules are laid down to govern their actions and they are in duty bound to abide by those rules.
