Home Rule for Scotland. At the conference of the Highland Home Rule League, held at Glasgow on Wednesday, resolutions were passed demanding Home Rule for Scotland, and condemning as grievously wrong that the Crofters should be hunted to Canada so that sheep might take their places.

Governor Boyd had a surprise party at St. John on Saturday night. He was serenaded by a band, and his house was invaded by a meeting of citizens who made speeches and showered congratulations on him.

In Silken Bonds. Tuesday was a gala day in Harbor Grace Nfld., the occasion being the marriage of William A. Munn, Esq., son of R. S. Munn, Esq., M. H. A. to Miss Ethel Mildred McNab, daughter of Rev. E. McNab, Presbyterian minister of the place. The day beautiful and flags were flying in every direction.

The marriage ceremony was performed by the Rev. Mr. Harry J. L. D., of St. John's at the Presbyterian church. After the ceremony the happy couple left on a tour through the States and Western Canada, to settle down in Montreal, on their return. The presents were handsome and valuable numbering in all over one hundred.

A very interesting event took place at the Presbyterian parlance on Tuesday evening last. The contracting parties were Mr. John Worth, Master of the Artillery Band, and Mrs. Kate Adams. The marriage ceremony was performed by the Rev. David Sutherland.

Among the many presents presented the happy couple, was a handsome arm chair, purchased from the enterprising firm of Mark Wright & Co., and given by the members of the Artillery Band, of which Mr. Worth has been master since its organization.

It was fitting that on this occasion they should show their appreciation of the services rendered, and the pains taken by Mr. Worth in bringing the band to its present state of proficiency. No better evidence could be given of the harmony that exists between the members and their leader, and no better guarantee is needed for the future prosperity of the band.

Halifax Debentures. The Halifax City Council on Friday sold debentures for \$77,000. \$59,000 of debentures sold at \$98 for each \$100 debenture, or a loss of over \$1,200 on the loan. This deficiency was not provided for, and will form a little balance to be made up at some future time—possibly by a new loan. It is about time for Halifax to stop borrowing.—Halifax Herald.

Speaking of his inspection of the camp at Aldershot, General Herbert states that the work done there was the hardest and best he had seen in any camp in Canada. The camp was well conducted and the training very efficient.

The Pope's encyclical on the school question impresses on the Catholic clergy the importance of guiding the education of the school children, because, it says, not only the salvation of families, but likewise that of nations depends on the pious and salutary instruction of early youth.

Lord Coleridge, not long ago, told this story:—Browning lent him one of his works to read, and afterwards, meeting the poet, the Lord Chief Justice said to him, "What I could understand I heartily admired and parts ought to be immortal; but as to much of it I really could not tell whether it was poetry or not, because for the life of me I could not understand it." Browning replied, "If a reader of your calibre understands 10 per cent of what I write, I think I ought to be content."

The Government of Brazil is a genuine Mark Tapley. The fleet has rebelled, and is in a position to bombard the capital, from which it is said the president has withdrawn. The president cheerfully sends word to the world that the rebel fleet is shut up in the harbor and cannot leave without getting within range of the forts. The fleet has no desire to leave. It apparently prefers to remain and take possession. The president is the party who seems to be most anxious to leave.

The building statistics of Winnipeg show that the progress of the western capital is of the most gratifying description. The Free Press of that city devotes two columns of its space to a list of buildings, business and residential, which have been erected this year. The total value amounts to \$1,284,450, which is more than twice the value of the buildings put up during the previous year. Every year shows an increase. In 1890 the value was \$400,000; in 1891, \$500,000; in 1892, \$900,000. It is calculated that the operations in 1894 will likely exceed \$2,000,000.

—Montreal Star: The history of the settlement of the Cherokee strip is a story of "crime, disaster, death and blasted hopes." Thousands of poor unfortunate are tramping back to their eastern homes, foiled in the race for land, and broken hearted, many of them leaving behind them in the fatal "land of promise" the bodies of comrades or friends, pierced by bullets and charred by the prairie fires. And this is in America, whose "best people" are enjoying the celebration of Columbus' great discovery, which was to make room for all the teeming multitudes of the children of men. Must not these unfortunate, who were outstripped by the "boomers" of Cherokee, come to the conclusion that it is a time not to celebrate the finding of a continent, but to discover a world that is really new? Let them look across the border to the Northwest.
