PROFESSOR ROBERTSON'S SPEECH

At the Meeting of Citizens Yesterday Afternoon.

Prof. Robertson, in the course of his speech at the citizens meeting yesterday afternoon, stated that Lord Aberdeen had agreed to attend three picnic meetings in the Maritime Provinces, one of which he desired to hold on this Island. This was entirely a private matter, in which the Dominion Government took no part. The Professor was in favor of holding the picnic at New Perth, but thought in view of its many advantages, Charlottetown would be the more suitable place. He then referred to the dairying industry in this Island, dwelling at some length on its importance and pointing out that in benefitting the farmers the city also was benefitted. In 1892 the Island could only boast of one cheese factory, yielding a revenue of $5,000 annually. In 1893 there were 11 factories, yielding a revenue of $48,000, and in 1894 18 factories, with a probable revenue of $80,000. In a few years at this ratio he expected the Island would be receiving a revenue from this industry of $500,000 yearly.

The Professor said he had just completed a tour of King's and Prince Counties, and remarked in several places that the land was impoverished for grain growing, and he advocated the growing of corn in order to improve and make it suitable for dairying.

He showed what the growth of the dairying business meant to this province in the way of increased prosperity and also population.

In some instances, the Professor found it difficult to persuade the farmers to change their methods of farming. But he earnestly asked them to give dairying a trial, even if only an experimental one. In this connection, he stated that the cheese exhibited at Chicago, although it made no money return, still it indueed farmers to try better feeding in order to maintain Canada's reputation for cheese.

His statement that the Island cheese brought a half a cent per pound more in England than the Ontario cheese was very gratifying, and he gave as his opinion that the Maritime Provinces offered a more inviting field to the intending emigrant than any other point of Canada. He suggested that it would be a good move to get some Scotch dairymen into this country. Speaking of the proposed picnic to be held about the middle of August, he said that on his return to Ottawa His Excellency would make definite announcements to the proper authorities in regard to dates, etc. The Professor thought the Island[illegible] favorably advertised[illegible] was most holding [illegible] for tourists, and the Ministers of this picnic could not but attract many to its shores. This would advertise it not only in Canada, but in England, and he hoped the picnic would be a rousing success. He then invited discussion as to the most suitable spot for the outing.

Before concluding, the Professor announced that the medals offered by him last year for the cows producing the most milk in each factory district, would be presented by Lady Aberdeen at the picnic.

He said His Excellency would address the farmers and their families, and reduced fares would be arranged by steamboat and railway.

STATEMENT FROM REV. MR. ALEXANDER.

(St. John Sun.)

A Sun reporter called on Rev. Mr. Alexander at the Clifton House last evening, and was received with great cordiality. Mr. Alexander said, in reply to the Sun's inquiry, that he had come to the city for a few days to consult with Rev. J. M. Davenport concerning the religious doubts that were perplexing him. He readily assented to give the Sun a statement over his own name, so that there should be no further doubt as to the exact condition of affairs so far as he and Prof. Stockley were concerned. The following is his statement in his own words :

To the Editor of the Sun :

SIR,—As I have been waited on this evening by one of your reporters, who has signified to me your wish that I should give you a few facts in relation to that with which my name is at this time so unpleasantly prominent, I gladly seize the opportunity of placing before the public the following short but plain statement :

For many years past convictions of the truth of the claims of the Church of Rome have strongly possessed me, and have as many times, until now, been put away. These have been again aroused, and now so strongly that I cannot but believe them, unless I shall discover solid reasons to the contrary, to be the very voice of God speaking and pleading with me. It has been the making fully known to the Lord Bishop of the diocese of Fredericton these facts that has caused him, with my entire assent, to suspend my ministrations in the Church of England until such time as, if ever, these religious difficulties shall be removed. For His Lordship's great kindness to me in this time of my trouble I can never feel sufficiently grateful.

Of my dear friend, Prof. Stockley, as his name has been mixed up with this matter in the public papers, I will say a single word. It has been my great privilege to have him with me for several months, and to minister to him, as well as I was able, during a time of deep affliction. Mr. Stockley is not, and never has been, a Romanist, but has long experienced religious difficulties similar to my own. We have talked over these together, as was natural, but it is wholly untrue to attribute to his influence my present uncertainty. As I have before said, my religious doubts have been the growth of years, and for them I hold myself wholly responsible.

I must ask you to forgive this very imperfectly written note, for as [illegible] your reporter, though [illegible] patient, has compelled me to write against time.

I am, obediently yours,
FINLOW ALEXANDER.

Bad Manners.

A man's disposition is in some degree reponsible for his manners, but an abrupt or fretful and generally disagreeable manner is often the result of a disordered digestion which Hawker's nerve and stomach tonic and Hawker's liver pills will permanently cure. Try them and be happy. .....

Painting—Miss Margaret H. Chisholm will form a sketching class in oil and water colors during the first week in July, and also special classes for children in drawing from nature. THE PRESBYTERIAN ASSEMBLY

Nearing Its Close—The Minimum Pay of Unmarried Ministers.

ST. JOHN, June 20.—The general assembly is working its way through the remaining business with great speed. Many members have already gone and the session will probably close to-morrow. Standing committees were appointed, being almost the same as last year. The committee on reception of ministers reported favorably on most cases, including that of the Halifax presbytery to receive Rev. Dr. Archibald, but the report was against granting the request of Picton Presbytery to receive Rev. W. W. P. Anderson. In the case of Rev. Mr. Kones, Moravian minister, who comes to the Northwest with a colony of Hungarians, the assembly recommends further enquiry before admission to the ministry. Rev. M. Pinkham, Baptist, seeking to enter the Hamilton presbytery was recommended for acceptance, provided he take a year's course in the theological college. The recommendations were adopted.

Rev. D. H. Macdonald submitted the report of the Augmentation Committee, fixing the minimum stipend for an unmarried man not requiring a house, at $700; in the case of a man requiring a house, $750 and a manse; $800 where there is no manse. In the Northwest and Manitoba $100 extra. The report, which contained suggestions for the management of funds in the west, was adopted, as was also a report on the reception of students and on application for retirement.

The presbytery of P. E. Island was authorized to license Mr. D. McLean, now laboring there.

Rev. W. Scott Whittier addressed the Assembly as a delegate from the Australian Presbyterian Church.

GOOD ADVERTISING.

Messrs Beer Bros are to the front to-day in a new style of advertising for which they have imported a new font of special type. Their enterprise is to be commended. With good goods, well bought, and these facts presented to the public in an attractand truthful manner there is no doubt about a firm's success. To-day they advertise in their new type, an immense sale of ladies' white wear which commences on Monday next.

All who desire to avoid imposition and be cured, should [illegible] insist on having Pond's Extract, put up only in bottles, with our landscape trademark, on surrounding buff wrapper. .....
