THE MAPLE LEAF MILLING CO LIMITED

DeBlois Bros. Distributors.

A booth which is drawing the attention of visitors is that of the Maple Leaf Milling Co. located to your left as you enter the building.

This firm manufacture the well-known "Monarch" Horse feed and the famous "Cafeteria" Open Formula Feeds for Poultry, Hogs, Cattle, Etc.

These feeds are of a very high standard being compiled and recommended by our Canadian Agricultural Colleges and the Dominion Experimental Farms.

Open-Formula, is a statement of the exact number of pounds of each ingredient in the feed per ton, and is clearly printed on every bag.

These feeds have been on the market for quite a while now and have been manufactured by the above firm for over sixteen years. The wholesale distributors for this province are DeBlois Bros.

An interesting contest is being conducted at this booth. Visitors are asked to guess the total attendance at the fair this year. Six prizes are to be awarded. These are on display and consist of beautiful oil paintings and a very attractive wall mirror.

The Maple Leaf Milling Co., are manufacturers of the popular line of Hog Feeds including, Pig Starter, Pig Grower, Pork Maker, and Pig Fattener.

Full information may be obtained from Mr. W. F. Graham, B. S. A. Feed Specialist for the Maritimes who is in charge of the booth.

Mr. Graham is a graduate of the Ontario Agricultural College and is here in the interests of the local distributors, DeBlois Bros., of this city.

PEARSON'S ANTISEPTIC CO. OF CANADA

A new display which is of interest to everybody in that of the world-wide firm of Pearson's. This firm has its head offices in London and Hull, England, and maintains branches throughout the principle countries of the world.

They manufacture disinfectants for every purpose and are most famous as the manufactumers of the one and only genuine "Creolin." This well known household and farm aid is used in every part of the world today.

Also shown in this book are a wide variety of Farm remedies for Stock and Poultry. One of the outstanding items is the Live Stock Spray which is put up in convenient one gallon cans.

Among the various disinfectants for specific purposes is one called "SAL-HYCOL" especially prepared for use where there is salt, or acid. This is particularly suited for use around fox ranches, dens, etc and is arousing keen interest among ranchers.

The booth is situated at your extreme right as you enter. Mr. W. G. Schwartz, Maritime representative is in charge and will be very glad to interview, marchants, dealers, and others who visit the booth. A supply of helpful and informative literature is available free at the booth.

EASTERN STEEL PRODUCTS JAMESWAY DIVISION

At the rear of the building is located a new display this year, that of the Eastern Steel Products, Manufacturers of Council Standard Steel Roofing, Steel Siding, Garage Door hangers and tracks, Chick and Poultry Equipment, Brooders, Incubators, Waterers, Feeders, Etc., and Egg Graders' requirements.

Seen here too is a display of ventilators for barns and outbuildings.

Considerable curiosity is being aroused at this booth over the "Gem" Electric Fence Control Unit which is being demonstrated.

Household steel ceiling, metal lathing and corner beading are among the many items shown, as well as sprayers and spraying materials.

The booth is in charge of Mr. H. L. Dibblee, Maritime Representative who wishes to meet all visitors interested in these up-to-date products.

CARTER & CO LTD.,

Of especial interest to poultry raisers and fox ranchers is the Blatchford's Product booth to the right as you enter. This exhibit sponsored by Carter & Co. is featuring the well known Blatchford line of stock and poultry feeds.

Mr. Henry Hillion, Maritime Representative is in charge of the booth and is ready to supply all information regarding the display.

Here you will find the popular type of Egg Mash for poultry with VI-TALIZED Conkeys Y-O. The Y-O stands for yeast and oil, the oil being Cod Liver Oil. As is well known cod liver oil has a tendency to lose its potency when exposed to sunlight or air under ordinary circumstances. This new process seals in the high vitamin content of the cod liver oil.

The new scientific process of sealing in the vitamins has until recently been restricted by patent rights to the United States, but these rights have now been secured by Blatchfords in Canada.

The above mash contains the vitamins A. B. D. and G. Another breeding mash is also available containing the additional vitamin E. This latter is fed to foxes and poultry in the fall and winter months for the purpose of increasing reproduction and has been most successfully proven by leading ranchers and poultry raisers in this province.

L. M. POOLE & CO.

Occupying almost the entire end of the building, to your right as you enter, is the extremely interesting booth displaying the merchandise of the well known firm of L. M. Poole & Co. of this City.

This is probably the most ingeniously arranged booth in the building. A very realistic background depicting a suburban scene is set so as to harmonize with the miniature dwellings and streets. A model of a lumber mill by the side of a real pond is seen in actual operation. The separated logs rafts floating about the pond are automatically "peavied" and may be seen entering the mill on the conveyor. At the opposite end of the model building is located the factory where the trimmed lumber is seen coming out on the chute to be piled in the yard. Several piles of lumber are already to be seen in the miniature yards.

Next to this section of the booth is the display of the various products sold by L. M. Poole & Co. A specially constructed rack at the front of the booth exhibits all the latest designs of doors. These doors are full size, finished ready for trimming and fitting. There are many different styles shown.

As this firm is in a position to sell the complete home in a package, one of their models is seen wrapped in cellophane revolving on a stand conveying the idea that you may purchase your home in one complete package from the one source.

At the rear of the section is a specimen wall showing the different kinds of interior wall finishes for various types of rooms.

A specially built section of the wall demonstrates the conveniences which may be built into a home such as ironing boards, closets, etc.

At the far end of the booth is shown the famous line of Johns-Manville Asphalt Shingles, etc.

A member of the staff of L. M. Poole & Co. will be found in attendance at the booth at all times, and will be pleased to answer all enquiries regarding any branch of their display.

THE QUAKER OATS COMPANY

This year the Quaker Oats Company are sponsoring an interesting guessing contest. At their booth near the rear exit of the building may be seen a pyramid of FUL-O-PEP Egg Cartons. Visitors are invited to guess the total number of eggs contained in the display. A free bag of Quaker Flour is awarded each day. The winner on Monday was Miss Betty Forsythe, City and on Tuesday, Mr. G. M. Caseley of Kensington

In this booth the display consists of the various Quaker Products including Ful-O-Pep Poultry Feeds and numerous other feeds and cereals. Free samples are given to visitors. There is also a showing of premiums which can be obtained by sending in box tops from Quaker Wheat, Rice, Muffets, and Corn Flakes cartons.

An outstanding product is the new White Hominy Feed, which when used in feeding poultry produces a white flesh which all poultry raisers are striving for.

Mr. Black is in charge of the booth again this year and is anxious to offer any information regarding the products. Dealers for Quaker Products in this province are: A. Rattenbury, A. Horne & Co., and Dillon & Spillett, Charlottetown; Matthew & MacLean, Souris, Jelly's Dept. Store, O'Leary, McGuigan & Boyle, Tignish; Prince River, and the Kensington Dairy, Kensington.

Powerful enough to cover all of Malaya, a radio broadcasting station has been established at Singapore.

Around 8.30 p. m. on Tuesday evening excitement was at about its highest level among the many citizens and others of Kensington when the fire bell began ringing in that sound of terror for some and excitment for others. Its first peal started the stampede for the fire station to find out where the location of the fire was and no sooner was the word given, than the stampede, only in greater volume and noise started all over again for the scene of the trouble, the site being the blacksmith shop of Mr. Philip McNally who was at the time cleaning out his blower, which was causing a brilliant flame but with no damage occurring The Kensington Fire Department however, are to be commended on their efficient, quick turnout, being at the scene not three minutes after the report was turned in.

Mr. Percy Hunter and Mrs. Robert Bowman were visitors to Summerside on Tuesday evening. —H.

LaPointe Presides At Cabinet Council

OTTAWA, Aug. 16 —(CP)— Prime Minister MacKenzie King did not attend the regular weekly session of cabinet council today and it was reported he would probably not attend a meeting in the next fortnight. The meeting, presided over by Justice Minister Lapointe, was brief and attended by a bare quorum of ministers.

While rumors circulate on the likelihood of a general election announcement coupled with dissolution of parliament late this month when the Governor General, Lord Tweedsmuir, returns from his western tour, Mr. Mackenzie King has remained at his summer home in the nearby Gatineau Hills, employing an increasing number of his east block office staff there.

Minard's kills pain.

Bristol and Vicinity

Mrs. Justin McCarthy, R. N., has returned to her home in Morell having nursed Mrs. J. W. McEwen for the past two weeks after her return from the P. E. Island Hospital where she underwent a serious operation. Many friends wish Mrs. McEwen a speedy recovery.

Mr. Dan Mathieson, who was badly hurt in a car accident here last week, is reported in a serious condition.

Ice cream festival and sports on the United Church grounds here last week were very well attended, also one held at St. Peters Harbor with a dance in the school was a success.

Miss Edith McEwen has resumed her teaching duties at Cove Head School this week.

Miss Beath McEwen also left to take up her duties in Harrington School.

Miss M. L. O'Brien, teacher at St. Andrews left for that District on Tuesday.

Sterling McEwen was a recent visitor to West Cove.

Carpenters are busy at Morell Hall building and moving picture operating room in the balcony of the hall. In years past the machine was set on the main floor. The hall is also being painted on the outside.

Four Nuns from the Convent at Charlottetown who have been in the Little Flower Parish for several weeks instructing the children left on return Saturday.

Mrs. Wm. Alyward left last week for New York City where she will spend two months with her daughter and son-in-law, Mr. and Mrs. Frank Reed.

Miss Beatrice Gallant, St. Charles, is spending her vacation with her sister, Mrs. Charles Aldershaw, Morell.

Mr. Harry McEwen returned last week from Boston, where he spent several weeks. Mr. McEwen reports many changes in the States where he spent many years of his early life as a painter. Mr. McEwen says after all there is no place like the Island where the cool evening breeze refreshes you after the hot day.

A man on horse back visited this district last week using the left side on the road facing the oncoming traffic. Once again we ask what is a mounted man, is he a vehicle or not?

A hasty call was sent in for Doctors on Wednesday night or early Thursday morning when three people were severely injured near the Lot 40 Church when a car and a light truck were badly smashed, three Doctors were soon on the seen, one young lady was removed to the Hospital, while one of the men was carried to a nearby house where several stitches were required to close the wound in his head. The steering gear of the truck is believed to have let go as it was on the ground after the accident.

A broken bottle on the paved road severed the rear tire of an unknown car here one night last week.

Miss Reta O'Brien, Morell, takes up her teaching duties at St. Peters Lake.

Two old Buildings along the new paved road in the Lake school district are quite an eye sore and would change the landscape considerable if removed. St. Peters Lake is one of the oldest School districts in Kings County and among it's bright children was the late H. D. McEwen, considered one of the Island's best Teachers, Mr. McEwen was born near the old school grounds. One of his old class mates still resides in the district in the person of Alex. R. McDonald, Mr. McDonald is in the bloom of life despite his years of more then four score.

Miss Jean MacEwen, Bs , student nurse at Royal Victoria Hospital, Montreal, is spending her vacation with her parents, Mr. and Mrs. B. W. McEwen, Morell.

A report to this news from Berdshire, England, says the Rev. S.J. Boyce, Mount Stewart, is enjoying his well earned vacation with his mother and other members of the family at his old home there. Mr. Boyce is accompaned by his wife and daughter.

Two gravel trucks were reported badly smashed the other evening near Mt. Stewart.

People often complain of the postage rate of three cents here recently this scribe received a letter from Newfoundland, bearing a five cent stamp. On inquiring we are informed that is the regular postage there for letters and that mail only leaves there every two weeks by boat.

Mr. McEwen who has been in business here for thirty-five years reports the blueberry crop the poorest he has seen in that time.

Farmers report a wonderful crop of bugs this season on the potatoes with the warm dry weather.

The officials discussed the prosaic but important subject of how much Polish grain is to be exchanged for German machinery and industrial products.

Quotas for commercial exchanges are fixed under the German-Polish economic arrangement which requires renewal every three months.

Meanwhile, Marian Chodacki, Polish Commissioner at Danzig, was expected to arrive tonight following a conference at the Free City today with Arthur Greiser, president of the Danzig senate and League of Nations Commissioner Carl Burckhardt.

His visit to Warsaw was described officially as not unusual. It was said there was reason to believe that Chodacki's talks with Burckhardt had no unusual significance.

time a few letters were written."

What has King-Hall been saying to the Germans to cause so much excitement? Briefly, all that which their own press has not presented.

"When the first wave arrived," says one Berlin correspondent delightedly, "ther was a great deal of surprise but the Gestapo thought it unimportant - - just a manifestation of eccentricity by a 'curious' Englishman."

The second wave however, caused Dr. Goebbels to sit up and take notice. Was this an organized campaign? But the third was too much. Fifty thousand Germans flooded with information about the international situation! And they were being passed rapidly from hand to hand so that a much greater number was being reached.

The Gestapo is now charged with the duty of chasing these undesirable communications out of the Reich while a heavy censorship has been clamped on at the frontier.
