

THE DAILY EXAMINER.

JULY 9, 1884.

Compliments Passing.

We entirely agree with the Pioneer that...

The community is thoroughly enough saturated with politics without mixing it up with their religious beliefs.

It is very pleasing to know from the Pioneer that the appointment of the Hon. A. A. Macdonald...

We don't agree with the Pioneer on many things, but we agree in these.

An Acknowledgment.

THE EXAMINER'S acknowledgments are due, and are respectfully tendered, to the Patriot for the modicum proof it affords of the truth of what we stated, viz., that the Liberal-Conservative Party did not enter into any conspiracy to deprive the electors of Queen's County of their votes.

On the other hand, no evidence has yet been proffered in support of the Patriot's charge. For this also we are thankful, the more so, as their is no evidence to proffer.

The Provincial Exhibition, 1884.

THE Provincial Exhibition will be held on the 8th and 9th of October next, at Charlottetown. The Board has voted \$1,500 in cash prizes, and quite a number of special prizes will be offered.

Better Butter.

If our Island farmers desire to know how Cork butter commands a hundred and forty shillings per 112 lbs., when best Canadian will bring only a hundred they will do well to read carefully the following description of Mr. T. J. Clancey's butter-factory, at Cork:

"The butter is received fresh from the dairies, and is brought in and prepared in the evening, and at night so as to avoid all exposure to heat. The greatest neatness and care are observed in all the processes of its preparation, every minute detail being provided for, so that the butter shall not suffer in its quality or keeping properties. The first care is with regard to selecting for preserving, for which purpose the butter must be the produce of land not over rich. That of good, sound, stiff land, has the best keeping qualities, and in no part of the world, we believe, can there be found a district more suitable both in climate and in the character of its pastures for making such a product than the district from which the supplies of this factory are drawn."

Editorial Notes.

It is now stated that the Canadian Pacific Railway will be completed and in operation from ocean to ocean by October of next year.

The President of a Steamship Line in the United States writes to say that he would be able and happy to forward any number of passengers to the Island, if only we had good hotel accommodation and a good water supply.

We beg to inform the Pioneer that THE EXAMINER'S reference to Hon. Mr. Lefurgey's "golden shipyard" was made in no offensive sense, and to express the hope that Mr. Lefurgey will continue to make money out of it, to the benefit of Summerside and the Province for many years.

"How They Do It."

BRET HARTE, in his "Plain Language of Truthful James," says:

"That for ways that are dark, And for tricks that are vain, The heathen Chinese is peculiar."

Ah, Sin, and the almond-eyed celestials in general must look to their laurels. Some of our Charlottetownians, as the Yankees would say, "beat them all hollow." Let us explain: It is well-known that the Dominion Alliance agents have for some months been vigilant in the matter of subpoenaing, through legal machinery, even well-dressed and seemingly respectable people, in Scott Act prosecutions, when the parties have been seen emerging from places "suspect," and carefully wiping the "moisture" from immaculate moustaches or well-trimmed beards.

Another derivative from coal-tar has been produced in Germany in the shape of an explosive for mining purposes or firearms. This is a mixture of saltpetre, chlorate of potash, and a solid hydrocarbon, such as paraffin, asphaltum, or pitch. The solid ingredients are powdered and intimately mixed, and the mass is then treated with a liquid volatile hydrocarbon, such as benzine or gasoline, which dissolves the solid hydrocarbon and forms the whole into a plastic body.

Sixty Millions in Dividends.

AN IMMENSE SUM OF MONEY PUT INTO CIRCULATION—WHAT THE RAILROADS PAID.

(From the New York World, July 2.)

Interest and dividends on all manner of bonds and stock came due yesterday to be paid in this city. Fully \$10,000,000 also came due in Boston, and certainly as much more in Philadelphia. Yesterday began the fiscal year of nearly all the railroads and other corporations, and a vast number of them were paying quarterly or semi-annual interest or dividends. Formerly the amount of this class of obligations coming due on July 1, was larger than now, but of recent years many companies have adopted other dates of payment, and this distributes the burden more evenly over the year.

Summerside Exports.

Shipped per steamer Princess of Wales, Cameron, master, for Point du Chene:—

Table with 2 columns: Item, Amount. Includes 17 horses, 600 lbs tallow, 14 brls mackerel, 27 bags potatoes, 50 cases eggs.

TO HOUSEKEEPERS

For sale at Peake's No. 1 Wharf,

300 tons Gowrie Mine Fine Coal,

which is pronounced to be far superior to Pictou Coal for domestic purposes. This cargo will be sold at the low price of \$1.80 per ton, cash.

July 5, 1884.

tendered in script, redeemable in stocks or lands. The only defaults of prominence are those named above. The effect of this vast amount of money paid out to investors was shown in the strong stock market yesterday—the strongest since the panic.

Table with 2 columns: Item, Amount. Includes Railroads, Gas companies' stock, Canal stock, City railways, Miscellaneous, Grand total.

To which must be added the half yearly interest on Government, national, state and city, which will bring the amount fully up to \$60,000,000 due in this city alone.

THE DEFAULT IN INTEREST.

The following is the amount of the default in interest yesterday on the principal roads:

Table with 2 columns: Item, Amount. Includes Denver and Rio Grande, New York, W. Shore and Buffalo, Wabash, Union Pacific, Total default.

A Short Temperance Lecture.

As Jefferson, Ind., State Prison, on Wednesday night, Col. Robert M. Goodwin committed suicide by taking poison. Years ago he was a rising young lawyer, a brilliant man, of good family, and very much liked. He had served with distinction in the war, and won his way from a Lieutenant to a Colonelcy. But he took to drink and ran down so rapidly that his friends placed him in an insane asylum to be treated for alcoholism. He was released as cured in April, 1880, and one of the first things he did when he got out was to follow his eldest brother, Dr. John Goodwin, and shoot him. For this he was sentenced to the penitentiary for life. Great efforts had been made to get him released, but the court of last resort declared that voluntary drunkenness was no excuse for crime, and that when delirium was pleaded as a defense for crime it must be shown that the delirium was on when the crime was committed. This result led Goodwin to take poison. Here is the text for a temperance lecture.

Another derivative from coal-tar has been produced in Germany in the shape of an explosive for mining purposes or firearms. This is a mixture of saltpetre, chlorate of potash, and a solid hydrocarbon, such as paraffin, asphaltum, or pitch. The solid ingredients are powdered and intimately mixed, and the mass is then treated with a liquid volatile hydrocarbon, such as benzine or gasoline, which dissolves the solid hydrocarbon and forms the whole into a plastic body.
