

Matthews Report On Education

Educational Needs
This is the fifth in a series of articles taken from the Matthews Survey Report of our City Schools.

School Drop Outs

What happened to the 204 pupils who started Grade 1 in 1934? Mr. Matthews has shown in his report, a study of 204 pupils entering Grade 1 in 1934.

These findings are alarming—the great number of drop outs indicate a definite weakness in the holding power of the Charlotteville schools.

What Are The Reasons For The Drop Outs?

The study of these drop outs by the survey staff showed— First: The most stated reason for leaving school was the desire to earn money.

Reasons for drop outs relating to defects in the school program were expressed most frequently and ranked highest.

The Present School Program Suitable To The Needs And Abilities Of All The Pupils In Charlotteville?

The survey staff ascertained that the learning capacity of the Charlotteville pupils is not sufficiently high to explain the greater percentage of drop outs.

To meet the challenge as to why the drop outs are so high, a program especially designed to retain the pupils becomes advisable.

Specific suggestions are included as an aid in attacking the problem. In no way is the list complete.

1. Such a program should begin with the re-examination of the goals and objectives of education.
