VERY IMPORTANT
 Indications are that the long spell of rainy weather is now about over, and the growth of the potato crop is indeed very encouraging.
 During the rainy weather, the weed growth was getting ahead, but now cultivation has again started and indications are for a bumper crop.
 The acreage has been cut back and the man who looks after his investment in potatoes this year should reap real good dividends.
 This means that spraying will have to be done vigorously to protect the leaves against insects and the unders against disease blight.
 We have the following used sprayers for sale. All overhauled and reasonably priced:
 1 Myers Sprayer, 400 gallon with 20 gallon pump, for 10 rows, \$120.00.
 1 Myers Sprayer, 200 gallon with 20 gallon pump, for 8 rows, used two seasons on 40 acres, with tires, \$120.00.
 1 200 gallon fiber glass Sprayer with new John Bean pump, 8 row boom with tires, \$90.00.
 We also have the famous line of John Bean Sprayers, which are recognized as the top quality line. We have them in all sizes from two hundred to four hundred gallon tanks, and 10 to 25 gallon pumps with six, eight, or ten row booms.
 For those who wish to build up their own units, we can supply trucks, tanks, tank carriers, booms, all sizes of pumps, we do fact everything for the potato or grain grower. And remember our service is tops and all goods are guaranteed satisfactory.
 Visit your farm machinery headquarters, we are here to serve you.
