# THE DAILY EXAMINER.

AUGUST 23, 1879.

## The Mission to England.

It appears that the mission of the Canadian Ministers to England has been successful beyond their expectations. Mr. Tilley's mission was largely necessitated by the extravagance of the McKenzie Government. It is admitted that his loan was the most successful ever negotiated by a Canadian statesman. Part of Sir John and Dr. Tupper's business in England had reference to the Pacific Railway; and it is said that British capitalists look on the scheme, of a company building the road, favorably. The editor of the *Patriot* is displeased at the prospect of their success, and asks: "What earthly reason have we to ask the overburdened tax-payers of Great Britain to help us build our railroads?" When Mr. McKenzie agreed to build the Pacific Railroad, on what is known as the Carnarvon terms, the *Patriot* had not a word to say in favor of the tax-payers of the Dominion. He might save a little of his gushing sympathy, for the British tax-payers for use at home. It is admitted by Mr. McKenzie that his scheme for building the road would cost the people of the Dominion \$100,000,000. If the result of the Ministers' mission to England will prove to be that a company of English capitalists will build the road with English gold, the tax-payers of this country will have every reason to feel grateful. The *Patriot* would not like it, because it is not a Grit Government that is in power. But then the *Patriot* is not the whole people.

## The Harvest.

Our farmers are now busy at their harvest and reports from all parts of the Province, in reference to the seasons yield are of the most cheering character. It is said that the wheat crop will be the largest and best ever harvested here, and oats, barley and potatoes are unusually abundant. If we are favored with another fortnight of fine weather our farmers will have their barns and granaries filled with the most valuable and abundant grain crop ever garnered on the Island.

## Lieut. Governor Robitaille.

On the eve of Dr. Robitaille's acceptance of the office of Lieutenant Governor of Quebec, he issued an address to his constituents of Bonaventure County, announcing his appointment, thanking them for the confidence they had extended to him uninterruptedly for eighteen years, and returning to them the representation which they had for so long a time given into his keeping. After reciting the great and beneficial changes which have passed over Canada since Confederation and the improvements which came to Bonaventure County while he represented it, Dr. Robitaille says:—

Such are the principal measures to the adoption of which I have had the satisfaction of contributing. I thought I should have continued to represent you for some time to come, when I was chosen by His Excellency the Governor General to occupy the highest position in my native Province, that of Lieutenant Governor. I believed it to be my duty to accept it, because in doing so, it seemed to me that the honor fell as much upon the county which has been faithful to me for so many years as upon myself who am the object of this honor. It is certainly not without regret that I see the termination of the intercourse which has been so agreeable to me and that I take leave of you before entering on the charge I owe to the confidence of the Representative of our Gracious Sovereign. Without suggesting to you by whom you ought to replace me in Parliament, I am convinced that you will choose one who will have your interests at heart and will be in a position to obtain their recognition before the representatives of the people. As for me, I think I am able to testify that during all the time I have had the honor of representing you, I have sought, without distinction of nationality or religion, to render to my constituents those services they had a right to require of me. It will be one of the most agreeable recollections of my public career to think that I have been able to obtain the support of the different nationalities and religious beliefs which are to be found in the county of Bonaventure, and to unite them under the same flag. I shall always endeavor in the position that I am going to occupy to labor with all my strength to cement union and peace between the inhabitants of Quebec, of that Province in which no reason exists to prevent the most perfect union between all.

It only remains for me, in bidding you adieu to thank you for the loyal support you have so constantly given me, and to assure you that, whatever may be the position reserved for me by Providence in the future, your interests will be always most dear to me. I will

always pray for your happiness, and for that of your families, as well as for the prosperity of that beautiful country of Bonaventure, whose representation I return to you in order that you may confide it to one who should hereafter command your entire confidence.

The St. John *Sun* remarks:—"It is no slight gain to Quebec that she possesses in her Chief Magistrate a gentleman who enjoys the confidence of Protestant and Catholic, French and English alike, and who understands his position to be that of a thoroughly constitutional Governor. Dr. Robitaille represents the highest type of the French gentleman, his public and private character being alike above reproach."

## Halifax Sugar Refinery.

A meeting of those interested was held held in Halifax on Tuesday. Messrs. Bremner, Boak and Dwyer submitted a report of the result of their mission to the Upper Provinces. From the statement laid before the meeting it appears that \$235,000 of the \$300,000 capital required have been subscribed. A gratifying feature of the meeting was the unanimity which prevailed. The best evidence of the faith which the promoters entertain in the ultimate success of the enterprise was given in the readiness with which some \$30,000 was added to the original stock list by the persons who attended—only a couple of dozen at most. This leaves a balance of some \$30,000 to complete the sum of \$300,000 required before commencing operations.

## Indian Trouble Expected.

The Ottawa *Citizen* says: "According to recent advices the Sioux Indians are now at a point called Wood Mountain, in the Northwest Territories, where they have been very badly off for food. Our own Indians, who are not very far from the Sioux camp, are also closely pinched, and the Government have, it is understood, decided to increase the Militia force in view of the serious consequences which would ensue should the Indians, rendered desperate by starvation make a raid upon the surrounding settlements. Authority has been given for the formation of one or two companies of Mounted Riflemen, and a few companies of Infantry. The arms and accoutrements and saddles and bridles for their use are now being dispatched. This step was doubtless taken in consequence of the excessive cost of the Mounted Police Force, which it was at first proposed to strengthen."

## The Maritime Penitentiary.

The *Chignecto Post* publishes an excellent description of the newly erected Penitentiary at Dorchester, N. B., illustrated with wood cuts. The building is of grey stone; faces west and commands a magnificent range of marsh, bay and river scenery. The front is arranged symmetrically with two side towers and a central one. The towers have each three towers above the basement. The main portion is of two stories, exclusive of basement and mansard. The side elevation is 250 feet long. The front elevation shows a tower 30 feet wide and 10 feet projection, with side towers 30 feet wide. It has a frontage of 126 feet and a height of 68 feet. The building is fitted up after a most approved style, and has all the necessary conveniences. There are 120 cells—each 8 ft 9 inches long, 8 ft. high and 4 1/2 ft. wide. The ventilation will be perfect. It will be lighted with gas made on the premises. The water supply is defective, and it will probably cost \$10,000 to obtain the required supply. In the construction of the building, 20,000 tons of stone, 700,000 bricks and 4,000 bushels of lime were used. The contract price was \$118,000.

## Lord Dufferin's New Appointment.

The London correspondent of the *Manchester Guardian* says:—"Lord Dufferin's appointment to succeed Sir Henry Layard has become a subject of much interest. I hear that Mr. Montagu Corry, the Premier's confidential secretary, intends to visit Constantinople and spend part of the autumn there. The relations known to exist between this gentleman and Lord Beaconsfield invest his proposed journey with unusual significance; but I incline to the opinion that any semi-official service he may be engaged in will have strict reference to our embassy. It is true, as I understand, that Colonel Baker is going to Kurdistan, and that he will have charge of the Armenian frontier. Another matter which gives occasion for comment is the appointment of Mr. St. John as Consul at Asterbad, instead of Bagdad, as was first intended. It is not strange that this occurrence of movements should be taken to indicate a general plan on the part of the Government. With Lord Dufferin at Constantinople, Colonel Baker on the frontier of Asiatic Turkey, military consuls in Asia Minor, and a military man on the Caspian to watch the northern frontier of Persia, it would be difficult to doubt that the English Government, while working with Russia to put pressure on Turkey, are going to make a show at least of carrying out their undertakings in regard to the Asiatic possessions of the Porte, and it is remarkable that these movements become visible at the moment when Russia has been got out of Turkish territory."

Our city clergy are somewhat dull during the summer season. A careful perusal of the daily journals would furnish them with many entertaining subjects. Next Sunday they might draw a moral from these facts:—The captain of a fire company in Listowel, who was sworn to protect the property of the town, has just been sent to the Central Prison for six months for incendiarism; while a County Judge in this Province has been taken before a magistrate for assaulting the Warden with a cane.—*Toronto Mail*.

We do not hold ourselves responsible for the statements or opinions of our correspondents.

## King's County Militia.

To the Editor of the Examiner.

SIR—I would ask through your columns, whether or not those at the head of the Volunteer Militia in this Province intend to comply with the rules laid down for their guidance, and have the *Souris* Company drilled this year.

It is now past the usual time for drill, and yet the Captain has received no orders in reference to such. And every man in the company is getting disgusted with the way in which they are treated. The other counties are not neglected in this manner, and why should King's.

Hoping to hear of some movement in the matter by the too well-fed officials,

I remain

yours respectfully,

J. LESLIE,

Private No. 3 Co.

Souris West, Aug. 26, '79.
