MISCELLANEOUS.

PREMONITIONS.

An incalculable amount of sickness and premature death would be avoided every year, if we could be induced to heed the warnings, the premonitions, which kindly nature gives of the coming on of the great enemy, disease. Many a mother, especially, has lost a darling child, to her life-long sorrow, by failing to observe the approach of disease, in some unusual act or circumstance connected with her offspring.

1. If an adult or child wake up thirsty in the morning, however apparently well at the moment, or the preceding evening, there will be illness before noon always, infallibly. It is generally averted by remaining warm in bed, in a cool well ventilated room, eating nothing, but drinking plentifully of some hot tea all day; some little may be eaten in the afternoon by a child. But as long as a person wakes with thirst in the morning, there is an absence of health—there is fever.

2. If, when not habitual to him, one is waked up early in the morning with an inclination to stool, especially if there is a feeling of debility afterward, it is the premonition of diarrhœa, summer complaint, dysentery or cholera. There should be perfect quietude, etc., as above, in addition, a piece of warm, thick, woollen flannel should be wrapped tightly round the abdomen (belly); the drink should be boiled milk; or far better, eat pieces of ice all the time, and thus keep the thirst perfectly subdued; eat nothing but boiled rice, corn starch, sago, or tapioca, and continue these until the tiredness and thirst are gone, the strength returned, and the bowels have been quiet for twelve hours, returning slowly to the usual activities and diet.

3. If a child is silent, or hangs round its mother to lay its head on her lap, or is most unusually fretful, or takes no interest in its former amusements, except for a fitful moment at a time, it is certainly sick, and not slightly so. Send at once for a physician, for you can't tell where or in what form the malady will break out; and in children especially, you can never tell where any particular ailment will end.

4. When there is little or no appetite for breakfast, the contrary having been the case, the child is sick, and should be put to bed, drinking nothing but warm teas, eating not an atom until noon, then act according to developements.

5. If a child manifests a most unusual heartiness for supper, for several nights in succession, it will certainly be sick in a week, unless controlled.

6. If there is an instantaneous sensation of sickness at the stomach during a meal, omit it; if after a meal, go out of doors, and keep out in active exercise for several hours, and omit the next meal, for all these indicate an excess of blood or bile, and exercise should be taken to work it off, and abstinence to cut off an additional supply, until healthful equilibrium is restored.

7. A kind of glimmer before the eyes, making reading or sewing an effort, however well you may feel, will certainly be followed by headache or other discomfort, for there is too much blood, or it is impure; exercise it off in the open air, and omit a meal or two.

8. If there is a most unnatural indisposition to exertion, you need rest, quiet and abstinence; exercise in weariness never does any good, always harm. But if causelessly despondent, or if there is a general feeling of discomfort, the blood is bad; warm the feet, unload the bowels, eat nothing in twelve hours and be out of doors all day.

9. If without any known cause, or special pain, you are exceedingly restless, cannot sleep, or if you do, it is dreamy, disturbed or distressing, you have eaten too much, or are on the verge of some illness. Take nothing next day but hot drinks and toasted bread, and plenty of out-door exercise. In all these cases a thorough washing with soap and hot water, and vigorous bodily friction, greatly expedite restoration.—*Hall's Journal of Health.*

FACTS ABOUT EATING.—If too much food is taken, the stomach cannot convert it into a perfect blood material, hence imperfect blood is made, and that being mixed with the other blood in the body, makes the whole mass of blood impure; hence after an over hearty meal a person "feels bad all over." If the over-eating is habitual, there is always some uncomfortable symptom complained of. Such persons are never well, and although they may eat heartily, they do not get strong nor fill up in flesh; it is because the stomach has been overtaxed, and has not the power to extract the nourishment from the food.

When persons do not get strong although they eat a great deal, they will get stronger by eating one-half less; as a sickly servant in attempting to do a large amount of work does none of it well, whereas if the task were a light one, the whole of it would have been thoroughly done.

When any uncomfortable feeling is experienced after eating, it is because some article does not "agree with the stomach," that is, cannot be digested by it. This always arises from quality or quantity, generally the latter. In such cases take less and less, until no discomfort is produced. If no special change is observed, it is because the quality is unsuited to the condition of the stomach, or the general system does not require it.

An article may not agree with the stomach to-day, but may agree with it very well in a few days, weeks, or months afterwards, because its distinctive elements may then be needed in the system. Most persons instinctively turn away from roast pork in midsummer—it would make them sick; but in winter time, when the thermometer is near zero, large quantities are eaten with a relish, and no specific discomfort follows. As a general rule, instinct is the best guide, and that which is the most relished is the thing which should be eaten; but if some discomfit invariably follows, it should be omitted, at least until a change of air, season or occupation. It is a physical and moral wrong to take a single mouthful when really it is not wanted, the motive being merely to "eat even," to eat it out of the way, or feeling that if it is not eaten it will be thrown away by the cook. If thus thrown away, some worm, or insect, or animal, may get it; if eaten by yourself, it only oppresses the system that much.

The finer food is divided or cut up before swallowed, the sooner, the easier, and more perfectly it is digested, for like ice, it is dissolved from without inwards, and the smaller the pieces, the sooner they are melted.

"Bread and butter," and milk, are the only two articles of food which have all the elements of nutrition; hence from childhood to extreme old age we are never tired of them.—*Hall's Journal of Health.*

NOVEL READING WITH A VENGEANCE.—The captain of the ship *John Allen*, lately arrived from Calcutta, has reported losing two of his apprentice boys on his passage along the coast. The boys, he states, had been reading "Robinson Crusoe," "Monte Christo," and such like books and had become possessed of some romantic notion of Desert Island life in consequence. The ship had been steering inshore during several days and one morning when they were wanted for some duty or other the boys were not to be found. The ship was searched throughout, but there was nothing discovered to indicate their whereabouts. One of the ship's life buoys, however, had been cut adrift. The ship was at the time about 15 miles from the land, having altered her course to clear a reef; and from what the captain could gather, the boys, he thinks, must have imagined that the ship was still close inshore, and had jammed overboard with the buoy, hoping to be picked up in the morning by some of the boats which put off to ships with fruit and such like things, all along the coast. They had been borrowing small sums of money from their ship mates, and talking of their desire to remain in the country for some days before they disappeared. The captain is exceedingly distressed at their loss, more so that the sea in the neighbourhood abounds with sharks, and it could only be by a miracle that their lives would be saved, if they went overboard in the manner supposed. The captain cruised about the spot for two days, keeping men at the mast-heads with glasses, hoping to find some trace of the unfortunate boys, but without success. Their parents are said to be in very respectable circumstances, and the boys were great favorites with their shipmates.—*Times of India.*

Three rats made an attack on an English lad about 15 years of age, who was sitting in a barn eating bread and beef. The first onslaught was made by a huge rat that ran up his back, and attempted to seize the food which he was putting in his mouth. He seized it by the throat, but before he had strangled it, two others commenced a determined attack on him. They bit his face in two places, and attempted to bite through the clothing which protected his shoulder. A man happened to visit the building while the contest was going on, and it was with great difficulty the rats were made to retreat.

THE INFALLIBLE REMEDY.

Holloway's Ointment.

Contracted or Stiff Joints.

All the Medicines in the London dispensaries would barely benefit, much less cure, any chronic cases of contracted or stiff joints; whereas if this invaluable Ointment be effectually rubbed into such parts twice a day, the effects will be immense. Paralytic patients even can derive advantages from this fine remedy when other means fail.

Scorbutic Humors, Scald Heads and Skin Diseases.

Scorbutic humors arise from an impure state of the blood, and in most cases the liver and stomach are the organs at fault. The Pills will speedily restore these to a healthy action; while the Ointment, it well rubbed in at least twice a day, will soon cure any case of skin disease. Soldiers, sailors and miners use this famous Ointment in all parts of the world.

Disorders of the Kidneys, Stone and Gravel.

In any of the above complaints more benefit may be derived in twenty-four hours by adopting the following simple means than is frequently brought about in six months by any other treatment. In bad cases, if the Ointment be rubbed into the small of the back over the region of the kidneys, it will quickly penetrate, and in most instances give immediate relief. Six or eight of the Pills should be taken nightly according to circumstances.

Diptheria, Sore Throats, &c.

These maladies are of so serious and dangerous a nature that the Ointment would not be recommended unless the Proprietor was sure of its effect. It will cure, when every other means have failed, if applied immediately, and not delayed until the patient is beyond recovery. It is a sovereign remedy for sore throats. Settled coughs or wheezing will be promptly removed by rubbing in this unguent. Mothers should rub it into the chest of their infants whenever there is any hoarseness, tightness, or other affection of breathing.

Bad Legs, Bad Breasts — Old Wounds, Sores and Ulcers.

It is surprising how quickly a sore, ulcer or wound deprives the body of strength, and unfits it for the duties of life; but it is no less wonderful to watch the effect of Holloway's Healing Ointment, when it is used according to the printed directions, and assisted by appropriate doses of the Pills. The pain, inflammation, and other morbid manifestations soon disappear from the affected part, and health and strength return. This treatment creates sound flesh, and therefore makes its cures complete.

Gout and Rheumatism

Will be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts. This treatment must be perseveringly followed for some time, and duly assisted by powerful doses of Holloway's Pills. The essence of these diseases lies in the blood, which has floating through each vessel the pain-giving poison which vitiates and inflames every tissue it comes in contact with, and produces the hot, swollen, elastic enlargement about the joints so characteristic of gouty and rheumatic maladies.

Both the Ointment and Pills should be used in the following cases:

Bad Legs	Corns (Soft)	Rheumatism
Bad Breasts	Cancers	Scald
Burns	Contracted and Stiff Joints	Sore Nipples
Bunions		Sore Throats
Bite of Moschetoes and Sand Flies	Elephantiasis Fistulas	Skin Diseases
		Scurvy
Coco-bay	Gout	Sore Heads
Chiego-foot	Glandular Swellings	Tumours
		Ulcers
Chilblains	Lumbago	Wounds
Chapped Hands	Piles	Yaws

REV. J. H. CORNELL, N. Y. City: "I procured it for a relative. The falling of the hair stopped, and restored it from being grey to its natural and beautiful color."

REV. J. WEST, Brooklyn, L. I.: "I will testify to their value in the most liberal sense. They have restored my hair where it was bald, and, where grey, to its original color."

[EXTRACTS FROM NEWSPAPERS.]

On reference to a return made to Parliament, and ordered by the House of Commons to be printed 7th June, 1861, it will be seen that the increase of Duty for the year, paid by the "QUEEN," was £2567, being upwards of £1000 more than paid by any other office ever yet established in this City.

[From Gore's General Advertiser, Oct. 24, 1861.]

"Indeed, we believe that we are perfectly justified in saying that no other Company, within the same period, ever attained so large an income in either the Fire or Life Departments as the Queen Insurance Company. In making this statement we make no exception even in favor of our older local companies, namely, the Liverpool and London, the Royal, and the Lancashire Insurance Companies."

[From the Civil Service Gazette, Nov. 2, 1861.]

"Among these important institutions stands eminent for its solidity, as well as for its success, 'the Queen Insurance Company,' which last week held its annual meeting of proprietors in Liverpool. A reference to the ample report in another page will fully satisfy every reader of the signal progress made by this association since its foundation. Such success is, indeed, rarely attained, and it attests at once the excellence of its management, and the public confidence in its constitution."

[From the Liverpool Mercury, Nov. 2, 1861.]

"It must be gratifying to the public generally, and especially to the proprietors, to find that its income during the past three years has increased at the rate of £20,000 per annum. We believe that no other Company, within the same short period, ever attained so large an increase either in the Fire or Life Department. This speaks highly for the activity and zeal of the management, while the promptness with which all the claims, arising out of the late disastrous fire in London were met, testifies itto their financial ability and the care and prudence which marked the investment of these funds."

MOFFAT'S LIFE PILLS AND PHŒNIX BITTERS.

THESE Medicines have now been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the globe for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease to which the human frame is liable.

IN MANY THOUSANDS

of certificated instances, they have even rescued sufferers from the very verge of an untimely grave, after all the deceptive nostrums of the day had utterly failed; and to many thousands they have permanently secured that uniform enjoyment of health without which life itself is but a partial blessing. So great, indeed, has their efficacy invariably and infallibly proved, that it has appeared scarcely less than miraculous to those who were acquainted with the beautifully philosophical principles upon which they are compounded, and upon which they consequently act. It was to their manifest and sensible action in purifying the springs and channels of life, and indulging them with renewed tone and vigor, that they were indebted for their name.

Unlike the host of pernicious quackeries which boast of vegetable ingredients, the LIFE MEDICINES are purely and solely vegetable; and contain neither *Mercury*, nor *Antimony*, nor *Arsenic*, nor any other mineral, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, though long known to several Indian tribes, and recently to some eminent pharmaceutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loosen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened fæces which collect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind as to produce habitual Costiveness with all its train of evils, or sudden Diarrhœa with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudices of these well informed men against the quack medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of perspiration in such cases, and the thorough solution of all intestinal obstruction in others.

The LIFE MEDICINES have been known to cure *Rheumatism* permanently in three weeks, and *Gout* in half that time, by removing local inflammation from the muscles and ligaments of the joints.

Dropsies of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence they have ever been found a certain remedy for the worst cases of *Gravel*.

Also *Worms*, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

Asthma and Consumption, by relieving the air vessels of the lungs from the mucous which even slight colds will occasion, and which, if not removed, becomes hardened, and produces those dreadful diseases.

Scurvy, Ulcers and Inveterate Sores, by the perfect purity which these LIFE MEDICINES gives to the blood, and all the humors.

Scorbutic Eruptions and Bad Complexions, by their alterative effect upon the fluids that feed the skin, and the morbid state of which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of *Salt Rheum*, and a striking improvement in the clearness of the skin. *Common Colds* and *Influenza* will always be cured by one dose, or by two even in the worst cases.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure healthy bile, instead of the stale and acrid kind. *Flatulency, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Languor, and Melancholy* which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave the bowels costive within two days.

DIARRHŒA and CHOLERA, by removing the sharp acrid fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucuous membrane.

PILES. As a remedy for this most distressing and obstinate malady, the VEGETABLE LIFE MEDICINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable medicines was himself afflicted with this complaint for upwards of THIRTY FIVE YEARS, and that he tried in vain every remedy prescribed within the whole compass of the *Materia Medica*. He, however, at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been pronounced not only improbable, but absolutely impossible, by any human means.

FEVER AND AGUE.

For this scourge of the western country these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent — TRY THEM, BE SATISFIED, AND BE CURED.

Bilious Fevers and Liver Complaints.

General Debility LOSS OF APPETITE, AND DISEASES OF FEMALES—these medicines have been used with the most beneficial results in cases of this description. KING'S EVIL and SCROFULA, in its worst forms, yields to the mild yet powerful action of these remarkable Medicines. NIGHT SWEATS, NERVOUS DEBILITY, NERVOUS COMPLAINTS of all kinds, PALPITATION OF THE HEART, PAINTER'S COLIC, are speedily cured.

MERCURIAL DISEASES.

Persons whose constitutions have become impaired by the injudicious use of MERCURY, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury infinitely sooner than the most powerful preparations of Sarsaparilla. A single trial will place them beyond the reach of competition, in the estimation of every patient.

Be Careful of Counterfeits.

Several have lately been discovered, and their nefarious authors arrested, both in the City of New York and abroad.

THE NEW FRENCH REMEDY.

By Royal Letters Patent, under the special sanction of Her Majesty's Government and the Chiefs of the Faculte de France.

THERAPION:—or CURE OF CURES. This successful and highly popular medicament, as employed in the continental hospitals by Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed. Devoid of *taste, odour*, and *appearance* of medicine, it can be left or carried anywhere, and taken from time to time without exciting suspicion. Each package contains full instructions for every case.

THERAPION, No. 1, in three days only removes gonnorrhœ, gleet and all discharges, effectually superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief, where other well-tried remedies have been powerless.

THERAPION, No. 2, for syphilis, disease of the bones, sore throat, threatened destruction of the nose and palate; impurity of blood, scurvy, pimples, spots, blotches, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of the sufferer's teeth; and ruin of health. Under this medicine every vestige of disease rapidly disappears: and the skin assumes the pleasing softness of infancy.

THERAPION, No. 3, for relaxation, spermatorrhœa, and all the distressing consequences arising from early abuse, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated. To those who are prevented entering the marriage state by the consequences of early error, it will render essential aid by subduing all disqualifications; and restoring the lost tone to the system. Therapion may be procured at 11s, and 33s per package, through all medicine vendors, or in £5 packages for foreign shipment, direct from London only, by which £1 12s are saved; and £10 packages for the more inveterate cases, by which a still greater saving is effected. In ordering the above, the purchaser should state which of the three numbers he requires.

HER MAJESTY'S HON. COMMISSIONERS have graciously permitted the Government stamp, bearing the word "Therapion" in white letters, to be attached to each package; thus insuring the public against fraudulent imitations, and securing to the proprietor the sole right of supply throughout her dominions; and any infringement of which they will prosecute with the utmost severity.

AGENTS FOR ENGLAND, Thomas & Co., 7, Upper St. Martin's-lane, London; Raimes & Co., Liverpool; Apothecaries Comp., Glasgow; Ferris & Co., Bristol; Cornish & Co., Plymouth; Rowe, Devenport; Randall & Co., Southampton; and obtainable through all medicine vendors in the known world, or in case of difficulty, by enclosing a draft or order for £5 or £10, according to the nature of the case, payable in London to Messrs. Thomas & Co., as above, a large package will be sent by return mail, carefully secured from observation or accident.

The Cause and Cure of Premature Decline.

Sold by all the Agents for Dr. De Roos' Medicines, or sent post free, secure from observation, direct from the Author, for 2s 6d.

THE MEDICAL ADVISER on the modern treatment of mental and physical incapacity, syphilis, stricture, &c.; with unfailing rules and prescriptions for the speedy cure, by very simple means, of all the more common diseases and supposed incurable maladies of the sexual system. By Dr. W. DE ROOS, M. D, &c, of the *Ecole de Medicine, Paris.*

REVIEWS AND NOTICES.

"The MEDICAL ADVISER, by WALTER DE ROOS, M. D., for the class of diseases upon which it treats is undoubtedly the best and most soundly practical book which has come under our notice. The author is a man of most enlarged experience."—*North of England Telegraph, June 29th, 1861.*

"To those who contemplate marriage its perusal is especially recommended.—*Eep. Mag.*——"The knowledge it imparts must come *some* time, and happy they who do not possess it too late."—*Politician* ——"Cure is certain in every curable case, and few indeed are they which are not so."—*Med. Review* ——"It is calculated to effect a complete revolution in the treatment of these complaints."—*Med. Gaz.* ——"Simple and inexpensive, every sufferer may cure himself speedily, privately, and at the least possible cost."—*Scalpel.*

From long practical observation of the treatment pursued in the most famous Institutions of this country and the continent, for those diseases referred to in the above work, the Proprietor has had somewhat unusual facilities for acquiring that uniform success which has hitherto characterized his practice, in which the distressing consequences resulting from the injurious employment of mercury, capivi, sarsaparilla, and similar dangerous medicines are entirely obviated. Lasting benefit in these cases can only be reasonably expected at the hands of those who devote their chief attention to such diseases; and to such only can confidence be safely extended. Dr. De R. refers with pride to the numbers he has been instrumental in restoring to health and happiness, whilst to all who need such aid he offers every assurance of speedy restoration.

FOREIGN RESIDENTS can be successfully treated by correspondence, on sending the detail of their cases, with a Bank note or Bill on a London house for £5 or £10, in order that a package of medicines to meet the exigencies of the case, may be sent out by next mail, thus avoiding the protracted suffering and unnecessary loss of valuable time, which must otherwise occur.

DR DE ROOS' GUTTÆ VITÆ or LIFE DROPS; *Protected by Royal Letters Patent of England; Seals of the Faculte de France; Royal College of Prussia, &c.*, have in numberless instances proved their superiority over every other advertised remedy for Spermatorrhœa, languor, lassitude, depression of spirits, irritability, anger, excitement, needless fear, distaste and incapacity for society, study or business; indigestion, pains in the side, palpitation of the heart, giddiness, noises in the head, impotency, impediments to marriage, &c. This medicine strengthens the vitality of the whole system, gives energy to the muscles and nerves, thus speedily removes nervous complaints, renovates the impaired powers of life, and invigorates the most shattered constitution. For skin eruptions, sore throat, pains in the bones, and all those diseases in which mercury, sarsaparilla, &c. are too often employed in vain, to the serious detriment of health, its surprising efficacy has only to be tested to be appreciated.

As these complaints if neglected become chronic or incurable, sufferers will do well before they waste valuable time in seeking aid from instruments, and other absurdities professing to supersede medicines, to make fair trial of a remedy, which concocted on unerring scientific principles, cannot fail, and may be carried about the person, or left upon the toilet table, without exciting a suspicion of its nature. Price, 11s, and four times the quantity at 33s per bottle. The £5 packages containing twelve 11s quantities, by which a saving of £1 12s is effected, will be sent from 25, Bedford Place, only on receipt of the amount per draft on a London house or otherwise.

PAINS IN THE BACK, GRAVEL, LUMBAGO, GOUT, RHEUMATISM, DISEASE OF THE KIDNEYS, BLADDER, &c. DR DE ROOS' COMPOUND RENAL PILLS are a most safe and speedy Remedy for the above dangerous complaints. Discharges and Diseases of the Urinary Organs generally, which too frequently harass the sufferer over the best years of life, and end only in an agonizing death. They agree with the most delicate stomach, and in three days effect a cure when capivi, cubebs, &c., have utterly failed. 2s 9d., 4s 6d., 11s, and 33s. per box. The superiority of these celebrated medicines over everything of the kind, is universally acknowledged, and the extraordinary demand for them without precedent.

Many there are, who from natural diffidence, or fear of discovery, would silently bear their afflictions rather than apply for aid to those from whom they may reasonably expect relief. With the above remedies the sufferer may without the knowledge of a second person, cure himself speedily, privately, and at the least possible expense.

Sold wholesale by Barclay & Son, 95 Farringdon street, London; Agents in North America—Langley & Johnson, Hollis-street, Halifax, Nova Scotia; W. R. Watson, Charlottetown, Prince Edward Island; J. Ward, Esq., News Office, Sydney, Cape Breton; E. H. Parker, (late Palmer & Co.) Kingston, Canada West; Strickland & Co., Mobile; M. F. Decouge and Edward Guillot, New Orleans; Fongera, New York; Musson & Co., Quebec; C. A. & J. Langley, Yates Street, San Francisco; Leportier, Mexico; Mr. McMurdo, Druggist, and J. McCoubrey, Esq., St. John's, Newfoundland; Thomas Walker & Sons, St. John, New Brunswick; Lyman & Co, Toronto; Lyman & Co., Savage & Co., Montreal; of whom also may be had "THE MEDICAL ADVISER," or should difficulty arise in procuring any of the above, enclose the amount by draft or otherwise, to 25 Bedford Place, Bloomsbury Square, London, W. C., and they will be sent securely packed per return.

CAUTION.—Sufferers should guard against the recommendation of useless imitations by dishonest vendors, who thereby obtain a larger profit. The genuine have the words "WALTER DE ROOS, LONDON," printed in white letters on the Government Stamp, BY ORDER OF HER MAJESTY'S HON. COMMISSIONERS, *to imitate which is felony.*

The Most Wonderful Pills in the World.

ARE DR. DE ROOS' PILULÆ VITÆ or LIFE PILLS. All sufferers from general nervousness, debility, low spirits, sleeplessness, harrassing dreams, unnecessary fears, mental irritability, failure of the mental and bodily powers, weakness of the nerves, noises in the head, giddiness, indigestion, rheumatism, pains in the back, and other symptoms of chronic disease, will hail with joy the discovery of Dr. De Roos' Life Pills, that speedily and almost magically remove pain and disease of whatsoever nature, restore cheerfulness of spirit and vigor to the mind, and strengthens all the organs on which health and life depend. They do not contain a particle of mercury, but are purely vegetable. They act mildly on the bowels, without pain or griping, impart strength to the stomach, promote a healthy action of the liver, thus preventing, or when when present curing the jaundice and dropsy, clearing the skin, removing sallowness and pimples, purifying the blood, and marvellously invigorating the whole system. For elderly people or when an occasional aperient is required, nothing can be better adapted. Owing to the great and increasing demand for these pills, and in order to protect the public from fraudulent imitations, Her Majesty's Commissioners have graciously permitted the proprietor to have his name "WALTER DE ROOS, LONDON," impressed upon the government stamp affixed to each box. Sold by all medicine vendors in the world; price 2s. 9d., 4s. 6d., 11s., and 33s. per box.

"As a Family Pill, they are invaluable."—*Dundee Times.* "Persons of full habit should never be without them."—*Surrey Telegraph.* "For Females they are almost a necessity."—*Ladies' Journal.* "To Mothers—For children of all ages they are the simplest and best medicine that can be given."—*Vide Dr. Smith's Report.*
