A CHILD'S SUDDEN DEATH.—On Thursday afternoon the little two-year-old child of Mr. R. W. Ambrose, traveller for the Imperial Oil Co., was playing about Queen Square in apparently good health. Shortly afterwards the little one was found lying on the doorstep in an unconscious state, as if in a fit. Dr. Preston was called in and he at first concluded that the child had eaten something poisonous, but was not long in finding out that the child had been suffering from whooping cough and had become unconscious during a paroxysm of coughing. The little one died in the evening, without regaining consciousness.—St. John Globe.

What An Advertiser Has to Say About The Examiner.

NORTH WILTSHIRE, June 18, 1894.

EDITOR EXAMINER:

DEAR SIR,—Allow me to testify to the merits of your paper as an advertising medium to reach the farmers and breeders of this Province. I have on different occasions advertised pure bred stock in your columns and was well satisfied with the results, but I may say that from a small ad. in your paper this spring of pure bred Yorkshire pigs and eggs for hatching from Plymouth Rock poultry, I received numerous enquiries, from Cardigan in the East to Port Hill in the West, and to every enquirer I made a sale of either pigs or eggs, which I think you will admit is a very satisfactory showing.

Wishing your paper success, I remain yours, etc.,

WILLIAM CLARK,
Breeder of Leicesters, Yorkshires and Plymouth Rocks.

AGRICULTURAL IMPLEMENTS.

The Minister of Finance having reduced the duty on agricultural implements from 35 per cent. to 20 per cent., Sir Richard Cartwright felt it his bounden duty to make some sort of complaint. Nobody, however, felt that he would make such a complaint as the "Hansard" records. Everybody supposed that Sir Richard Cartwright would demand that the duty be made still lighter or taken off altogether. Imagine the surprise of the supporters of the Government, therefore, when the man from South Oxford pleaded for better terms for the agricultural implement manufacturers. Here is what he said:—"I doubt extremely whether at this moment, on several of these articles, the agricultural implement makers receive any protection at all, and I feel no doubt whatever on another point, that if the makers had been, most of them better supporters of the honorable gentleman and his friends than they have, they would have received very different treatment at the hands of the Government." Sir Richard is always making himself ridiculous, but nobody expected that he would make himself quite so ridiculous as that. In the same debate Mr. McMullen, of Welington, made some rather important admissions. The Conservatives have always contended that in order to destroy Canadian industries Americans were willing to send their articles over here at a cheaper rate then they supply their own people. This Sir Richard Cartwright and Mr. McMullen and the rest of the Opposition have declared to be nonsense. Imagine, therefore, Mr. McMullen declaring that agricultural implement makers in the United States, while they sold their binders to Americans at $100 each, sold them for export into Canada at $75 each. Now let us follow Mr. McMullen's admission. Let us take it for granted that the American manufacturer of agricultural implements will sell his binder for $75 provided it is coming into Canada. The new tariff puts 20 per cent upon such implements. 20 per cent. of $75 is $15; add $15 to $75 and you have $90. Therefore the American implements can be bought in Canada for $90, while the same implement, to use Mr. McMullen's statement can be purchased in the United States for nothing less than $100. Mr. McMullen knocks the bottom out of all the theories he and his friends have been urging for years. The action of Sir Richard Cartwright shows just how honest these gentlemen are when they pretend to be friends of the farmers. There is not the slightest doubt in the world that should the Government to-morrow remove all the protection to manufacturers, we should find Sir Richard Cartwright and his crowd taking the manufacturers to their bosom and appealing to them because their interests had been ruined. How much more worthy of being trusted and charged with the manngement of public affairs are the Conservative administration. They appeal to no particular class. They do not endeavor to make capital by setting one class against another, but they adopt such lines of policy as they believe to be for the best interests of the people as a whole, and they are willing to stand or fall by that policy. Of course Mr. Foster and Sir John Thompson know that the popular thing for them to do would be to take off every cent of taxation and appeal at once to the people. In doing this, however, they are well aware they would be showing themselves to be demagogues, and they are none the less aware that their action would only be heaping up ruin for the country; and this they are not prepared to do in order to hold office. It appears to us that the backbone which the Government have displayed in refusing to be dictated to by agitators should receive the praise rather than the condemnation of every Canadian.

FOOT INJURED.—A man named Patrick Rush, engaged painting the electric light posts on Prince St. near the Lyceum this forenoon, while coming down the post, accidentally stepped on a rusty spike in a plank, which pierced his boot, and and entered the sole of his foot.

The senior Bishop of Christendom, it is believed, is Sofronius, the Patriarch of Alexandria, who is 95 years old, and has been a bishop for fifty-five years. Archbishop Kenrick, of St. Louis, consecrated 53 years ago and Leo XIII., consecrated 52 years ago, come next in that respect.

LETTERS TO THE EDITOR.

QUERY.

SIR,—Is the cyclist who is now agitating the submarine transit to Southport the same who last season tried to convert his bicycle into a baloon?

ANXIOUS ONE.

A lady will sometimes spend hours selecting dress goods. She is not desirous of giving trouble at all. But there are conflicting claims. There are considerations of durability, of texture, of draping. Priestley's dress fabrics have reached a niche in the popular esteem when conflict ceases to vex. It is enough to get Priestley's black dress goods to feel confident that you have the best. They wear better than any other make. .....

THE NO. 4 YOST.

In presenting to the public our No. 4 Machine, we feel that we have combined all the latest and best improvements of the most successful inventors and experienced mechanics.

The Carriage of this Machine contains many practical improvements, the usefulness of which will at once be apparent. Among those specially worthy of mention are the following:—

The new and improved Release Key, whereby the carriage can be released as well when raised as when lowered, and can be positively stopped at a given point without the allowance of a single space for momentum. This instantaneous stopping will undoubtedly be much appreciated by rapid operators.

A new arrangement for making Single, Double and Triple spaces.

A new and improved Paper Feed, which is admirable both for its simplicity and the impossibility of getting out of adjustment. A line can be written clear to the bottom of the paper.

Still another feature is the new Space Key, which has a Perpendicular Drop, the same as the rest of the keys.

Besides the improvements, this Machine and aims all the good points of our No. cont No. 2 Machines.

The speed of the Yost can be limited only by the ability of the operator to find and properly strike the keys. This we guarantee.

In other words, its mechanism is contrived to respond instantly to the touch of the operator by the adoption of certain expedients, by the use of which—

1st. The touch is soft and even, and the depression slight.

2nd. The carriage feeds immediately after the type leaves the paper.

3rd. The escapement is so arranged as to be perfect and uniform.

4th. There is no ribbon movement to require attention or consume power.

5th. The arrangement of the keyboard conduces to great speed.

6th. Rapidity does not affect the alignment.

The Yost is by far the cheapest Writing Machine, because it is the most economical in respect to Inking, Supplies, Repairs, Durability, Ease of Learning, Ease of Action, Size, Weight, Beauty of Work, Speed, etc.

CAN YOU SEE

the moons of Jupiter? Certainly, as the telescope brings them within range. For reading and all ordinary purposes of vision our Spectacles will enable you to see perfectly without overtaxing your eyes. It's pleasant to see stars, but it's absolutely necessary to see well in our daily occupations, and spectacles are the telescopes of business for all who are troubled with weak or defective sight. Defects in sight grow like grass, and only glasses will save you from the crop. Come to us and be fitted with glasses if you need them.
