ENGLAND.

Mr. Vernon Smith, M. P., has, it is stated, received a ministerial appointment, and Mr. W. Mallesher, has it is said been equally lucky.

The Earl of Derby, it is said, on his advent to office, will ignore protection altogether.

The New Constitution for the Cape.—The abstract of the new constitution shows that the parliament of the Cape of Good Hope is to consist of the Governor, the Legislative Council and a House of Assembly.

The House of Assembly is to consist of the chief justice, as president, and fifteen elective members, eight of whom are to be chosen in the Western districts, and seven in the Eastern. The members are to hold their seats for ten years, unless the Council shall be sooner dissolved by the governor.

A member of the Legislative Council must be thirty years of age, and must own landed property, unencumbered, worth £1,000, or else landed property to that amount, which, though mortgaged, will, with its probable property, constitute him the owner of not less than £2,000, or over and above his trade. Every candidate for the Legislature must be nominated by a resolution signed by five electors.

The House of Assembly is to consist of five members, to be elected for the term of five years. Every member who has been consecrated by the law, and who, within any electoral district, for the space of twelve months, before the day of registration, any testament of the value of £100, has been registered as a witness at a will.

UNITED STATES.

The City Marshal of Providence, R. I., has reported 330 drinking places in Providence, 271 of which are kept open on Sunday.

An American paper contains reports of auction sales of men and women in the south of the Republic. A North Carolina paper mentions auction sales in Edgewood County, at which the men were sold at from \$1,500 to \$2,000, and the women at from \$1,000, and women at from \$600 to \$800.

According to the same authority, 100 pieces of this "peculiar" kind of property were disposed of at the late sale in Edgewood County, and notwithstanding the tightness of the money market, the prices of negroes rose high. At a recent sale in Louisville one hundred and thirty-two were sold, and they averaged \$1,000, and an average of over a hundred and sixty dollars. They were of all ages from infants in the arms to very old negroes. There are still more specimens of freedom in the States.

We translate the following narrative from a French paper. A capital execution took place at the commencement of last month in Paris, in the case of a man named Henry, who had been the criminal rolled on the scaffold than an unheard-of incident horrified the spectators. A man stepped up with a glass in his hand, filled it with the blood of the criminal, and drank and swallowed it at a draught. The man was an epileptic, and imbued with the idea that drinking a glass of warm human blood was his only remedy.

Kossuth has contracted for 400,000 marks, at two dollars a piece. They are a lot, which had been condemned by the United States Government.

The Snow-Storm at New Orleans.—The recent snow storm at New Orleans a novel feature in her sunny history. It had never been seen before. The snow was in the form of flakes, and fell in showers, and the streets were filled with floating veils, and comments both merry and solemn, upon the "first snow." Among the incidents of the day the Mayor ordered the streets to be cleaned, and a small Congo negro into his master's room at an early hour of the morning, followed by the exclamation: "Oh, Monsieur, regardez donc! le nez de ce nègre est devenu blanc. Oh, Dieu, Dieu, le visage est blanc de neige."

The Senate Committee on education, in the Rhode Island report, has proposed that the penalty of death, and substituting imprisonment for life. At the same time, says the Providence Journal, it casts doubt on the abuse of the penitentiary, and proposes that persons sentenced to imprisonment for life, or for a term not less than five years, shall be released, except upon the concurrent vote of three quarters of all the members elected to each House of the General Assembly.

SOUTH AMERICA.

TERRIBLE BATTLE IN CHILI—2,000 MEN LEFT ON THE BATTLE-FIELD. KILLED, AND WOUNDED—WAR CLOSER—TERRIBLE SIGHTS.

The news from Chili is interesting and important. The movement of Gen. Cruz against the government of President Monto has not only succeeded, but has been attended with a complete victory between the contending parties.

The triumph of Gen. Cruz, the administration of December 25, says: In the South events of a grave nature have taken place, on the issue of which the won or oval of the empire depends. One of the bloodiest battles has been fought, and the result was a complete victory for Gen. Cruz, the victor, the dose engagement of the troops, and the great number of men wounded on both sides. The result of the battle, a number of combats, will give this battle a prominent place in the history of the country.

A victory was gained by the troops of the government after seven hours' fighting, but the victory was doubtfully, and the barrels of the enemy were scattered, and the result was a complete victory for Gen. Cruz, the victor, the dose engagement of the troops, and the great number of men wounded on both sides. The result of the battle, a number of combats, will give this battle a prominent place in the history of the country.

On the 24th, at 7 o'clock in the morning, the troops of the government under Gen. Bustos, and the insurgents under Gen. Cruz, met near Longuilla, after weeks of retreating and maneuvering on both sides, to obtain the most favorable position.

Gen. Bustos, with a reinforcement of 1500 men from Talca, under Gen. Lecaros, had about 4000 men in the field, and a similar number of insurgents were commanded by Gen. Cruz. The battle lasted from 7 o'clock in the morning, until 2 o'clock in the afternoon. Nearly 2000, or one-fourth, were left dead on the field.

The strength of Gen. Cruz at the commencement of the battle, consisted in his cavalry, amounting to about 1,200 men. The infantry of both armies opposed the battle, but the superior tactics of the general of the government, and the superior courage of his troops, broke the enemy's ranks and routed them. Then followed the capture of the great majority of the troops, which lasted nearly six hours, and the result was a complete victory for Gen. Cruz, the victor, the dose engagement of the troops, and the great number of men wounded on both sides. The result of the battle, a number of combats, will give this battle a prominent place in the history of the country.

General Cruz submitted proposals, and a treaty of peace was entered into.

An Unusual case in America.—A correspondent of the Methodist Protestant relates the following case: A certain village not more than a hundred miles from Baltimore, was distressed with great warmth on the 15th of August. The people were in great distress, and the weather was very hot. The people were in great distress, and the weather was very hot.

The preacher was evidently disconcerted for a moment. He thought the brother must have misinterpreted his meaning. Fearing awhile, he repeated the words of the text. To give the emphasis, "Before another hour, your speaker may be dead in eternity."

"Amen!" shouted the brother before him. It was too much for the ardent man, and, clapping out a few additional remarks, he sat down, but he had finished his sermon.

"Brother," said the preacher next day to his kind-hearted friend of the Amen corner, "what did you mean by saying Amen to my remarks last night? Did you wish I was dead?"

"Not at all," said the good brother, "not at all. I thought if you were dead, you would go straight to glory, and I meant Amen to that!"

THE ROAD TO HEALTH!

HOLLOWAY'S PILLS. CURE OF A DISORDERED LIVER AND BAD DIGESTION. Copy of a Letter from Mr. R. W. Kirks, Chemist, 7 Princes Street, Liverpool, dated 30th March, 1851.

To Professor Holloway: Sir—Your Pills and Ointment have stood the highest on any male list of Proprietary Medicines for some years. A Customer, to whom I am indebted for your medicine, desires to let you know the particulars of his cure, which has been attended with the most happy and lasting effects. On the last occasion, however, the violence of the attack was so alarming, and the inflammation so severely, that death was contempered at hand; but I was glad to see it fortunately subside, and was induced to try your Pills, and the infuse after the first, and each succeeding dose, also had great relief. I continued to take them, and although the trial only three hours, she is now in the enjoyment of a permanent health, and has many more cases, but the above, from the severity of the attack, and the speedy cure, I think, speaks much in favor of your remarkable Pills. (Signed) R. W. KIRKS.

A friend prevailed upon her to try Holloway's celebrated Pills, which she commenced to do, and in an incredibly short space of time they effected a perfect cure.
