Mr. Arthur J. B. Mellish

Barriester and Attorney at law, being about to proceed to South Africa for the winter on active military service in response to Her Majesty's call, begs to announce that in his absence his law-office at Souris will be kept open and all legal business will be promptly attended to under competent management. Correspondence may be addressed to him at Souris as usual.

NOTES AND COMMENTS.

—A foreign surgeon has put forward the suggestion that appendicitis is caused by the habit of crossing the legs, which restricts the action of the digestive apparatus. The appendix is only loosely attached to the caecum, and there is always some half-digested food in caecal bag. By crossing the legs there is liability that the undigested food may pass into the vermiform appendix and set up an inflammation; in a very few hours pathological processes set in, and an attack of appendicitis is developed.

ESTEEMED EXCHANGES.

Halifax Herald: The Laurier government has put forth many ludicrous claims as to its alleged achievements for the public good, but hardly any of them does greater violence to the facts than its claiming the credit of having promoted the establishment of the Sydney Iron Works. The fact is that the conditions would never yet have existed in Canada, making such Iron Works possible, had it not been for the establishment and administration of a policy which the Grits opposed with all their might for twenty years, and even at the very last the Laurier government threatened the iron enterprise at Sydney with permanent obstruction, and actually did so in delaying the establishment of the works there for a whole year.

The old story of Prometheus is a parable. Prometheus was on terms of intimacy with the gods. From them he stole fire, and gave to men. For this sin he was bound to the rocks of Mount Caucasus, and vultures were set upon him. They only ate his liver. This grew so in fact as it was pecked away. Are his sufferings to be imagined?

Take a modern interpretation of the parable. There is cooking without fire. In cooking and eating the mischief lies. The stomach is overtaken, the bowels become clogged, they cannot dispose of the food that is given them. The impurities back up on the liver. Then come the vultures—the torments of a diseased liver. Dr. Pierce's Golden Medical Discovery is more than equal to the vultures of dyspepsia and its kindred diseases. There is no more need of suffering from dyspepsia than there is of hanging one's self. Sold by all medicine dealers the world over.

BOYS WANTED.—Boys are making money selling THE DAILY EXAMINER. It is no trouble for a smart boy to make a fair amount of pocket-money each evening. Boys should be on hand at the office each afternoon at four o'clock.

BIG TURNIPS.—Henry Chambers, of Newport, raised on his farm 19 turnips weighing altogether 104 lbs. the largest weighing 11 1/3 lbs. No extra trouble was taken to raise these, being sown in the ordinary way in July, and taken out the last of October.—Windsor Journal.

NATURAL HISTORY.—Junior Naturalists Clubs under the supervision of Carleton University were formed in five of the departments of West Kent School yesterday, viz. Principal Miller's J. M. Duncan's, J. J. Yeo's, J. F. Owen's and Norman Cambell's. We shall look for the most gratifying results in connection with this movement.

THE NEXT BATTLE.—It is said that James J. Jeffries and James J. Corbett are to battle for the heavy-weight championship. The date of the contest has not yet been named, but it will probably be early in June, and will take place at the Coney Island sporting club. Corbett looks remarkably well at present. He has been exercising quietly every day for the last year in a gymnasium.

Have You Catarrh?

If you are troubled with Catarrh and want to be cured, use Catarrhzone, which is a guaranteed cure for this distressing disease. There is no mystery about Catarrhzone though its effect is magical. Ointments and snuffs cannot reach the diseased parts and have thus proved useless, but Catarrhzone is carried by the air you breathe directly to the diseased parts, where it volatilizes, killing the germ life and healing the sore spots. It cures by inhalation. No danger, no risk, sold by all druggists or by mail, price \$1.00. For trial outfit send 10c in stamps to N. C. POLSON & CO., Box 540 Kingston, Ont.

Flow End Ties as popular as ever.—In the early part of the season a fair proportion of puffs and tecks were still, but retailers have not disposed of them, particularly puffs have been slow sale, so that now the demand is largely for Imperials and English Squares. Batwing and other wide-end ties have been in greater demand than usual for this time of the year, which is owing to the high cut of waistcoats, and they will continue to sell all the season. Puffs are doing better to-day than two weeks ago. A puff is a winter scarf, and this shape will go better as the winter advances.
