

OUR NEWS BUDGET for OUR SATURDAY SUBSCRIBERS

MONDAY

Fire of unknown origin yesterday afternoon completely destroyed a barn on the property owned by Mr. Bruce MacPhee, Montague. Partly destroyed was another adjacent smaller barn. The fire was noticed about 5:00 p.m. Mr. and Mrs. MacPhee, who were away from home at the time, were notified and rushed to the scene. The fireman immediately answered the call, but the fire had gained considerable headway and they were unable to save the barn. The presence of five tons of hay in the barn contributed in large measure to the rapid burning of the old building. However, the firemen were able to save the smaller barn from being completely consumed, although it will be of little use.

The Charlottetown Hospital Bazaar concluded a very successful five days of activity and entertainment on Saturday night. Dr. W.J.P. MacMillan, Chief of the Hospital staff, in addressing those present gave high praise to the committee in charge, to the various societies and to each individual who laboured tirelessly night after night to make the carnival a success. He also warmly thanked those who provided the entertainment which he described as among the best he had ever seen.

The programme Saturday night took on a Western air and such artists as Hugh Spinney, Billy Murnaghan, Phillip Doyle, and Eugene Donahue were heard to good advantage.

Among the list of Ayrshire cows completing R.O.P. records recently released by the Canadian Ayrshire Breeders' Association was that of a Junior two-year-old in the herd of Major MacRae and Son, Fairview Bright Lass topped the honor roll class with the production of 11,316 pounds of milk, 512 pounds of fat for a test of 4.52%. Continuing on test for 348 days, she stood second in the year-old, 85 day class with 12,279 pounds of milk, 559 pounds of fat, 4.55% test. This excellent producer was sired by Kendor Bright Boy from the herd of W.W. Anderson and Sons, St. Peters Bay.

The waterfront at North Rustico presented an animated appearance yesterday afternoon when more than forty cars filled with men, women and children arrived at intervals to take advantage of the summertime day to have an enjoyable outing.

Deprived of the opportunity to have another "go" at the trout, dozens of ardent fishermen lined the landing stages, and flexed their high priced rods shoulder to shoulder with young boys and girls, and a number of ladies, with humble but effective steel rods, seeking the humble smelt.

Two of the larger stages were covered with Irish Moss undergoing a drying-out process in the sun, but wading through this valuable crop did not deter many of the thoughtful visitors who threw their inedible catches at random in the moss. With great good humor, the men in charge gathered up the fish so thoughtlessly disposed of and dumped them into the river.

TUESDAY

Local educational problems and requirements are reviewed optimistically by Mr. K. A. Parker, Superintendent of Schools for Charlottetown, in his first annual report to the City School Board. "The year under review has surely been a most significant one," states Mr. Parker. "As a result of careful and detailed study by the Board of School Trustees certain major recommendations have been made and implemented which will determine the educational pattern in Charlottetown for generations to come. The problems existing in the city schools are sharply defined and will be briefly reviewed. First, there is the need to develop and to maintain an informed and supporting public opinion regarding the functions and aims of the educational effort. The harassed taxpayer has a right to know why education for today's living takes such a large part of the tax dollar. Obviously there are clear and concise answers to his question but all too few seem to have them.

The task of disseminating such information must be the responsibility of education officials, administrators and teachers. Much can be accomplished through the press, radio and public meetings. The most direct approach is through a growing and intimate relationship between the home and school, between the teacher and parent.

"Hearts of Gold," Mrs. R. C. Parent appropriately called her story of incidents experienced on a trip to see the coronation, and many other events, persons, places and things, told in Irishtown Community Hall on Wednesday evening, September 23.

She said, "The very first man" she and her husband met on their arrival in London, a taxi driver, took them sight-seeing for three quarters of an hour, and refused to accept pay saying a Canadian had saved his life, and as she pointed out, in doing a kindness to Canadians, he was expressing his gratitude to Canada.

Many instances were related by the fluent speaker, of kindnesses, most of them entailing sacrifice on the part of the British people, extended to the visitors, in her opinion, after seeing the fortitude of the English people, after 12 years of rationing and untold hardship, Canadians should be proud to fly the British flag, as no Canadian flag could ever mean so much.

The biggest turnout for opening parade since 1946 greeted officers of 5 Signal Regiment when they met at the Armouries last night for the first training drill of the new fall season. Lieut. Col. K. M. Johnston, in expressing his pleasure at seeing so many on parade, said it promised well for the coming year.

He told the approximately 100 all ranks present that it was highly desirable to train hard for summer camp and asked for a larger turnout in future as showing at camp means much to the prestige of the regiment. He gave a brief outline of the forthcoming trip to Vimy Barracks, Ontario, next month to celebrate the 50th anniversary of the Signal Corps and said that present, but tentative, plans called for the attendance there of two officers and eight other ranks.

Although shipping volume is down considerably from the figures for the first two shipping months of last season the overall picture in past years shows that the Newfoundland trade in potatoes is extremely valuable to growers of this Province. No exact figures on the total volume of business can be obtained as there are many shipments moving by water, and many of these travel in small schooners from the smaller shipping centres of the Island.

However, it is known that last year there was a total of 519 carloads shipped by rail alone. Most of the shipping is done in the latter months of the season. During August and September of 1952 there were 57 carloads moved to the Old Colony, but during this year, though exact numbers are not available, there has been a considerably smaller movement. Last year in October there were 91 cars and in November 50 cars.

Recent appointments announced by the Government to the 10-man P. E. I. Potato Marketing Board have been published in a late issue of the Royal Gazette. The men with the length of their term of office from June 30, 1953, are as follows: David Wright, Lower Montague, 1 year; Donald MacLeod, Victoria Cross, one year; Donald A. MacDonald, Glenfinnan, two years; Chester Shaw, DeSable, two years; Allie MacNeill, O'Leary, three years; Irving Hogg, Wilnot, three years; G. Elliott Full, Charlottetown, two years; Louis H. Poole, Montague, three years; Lorne Driscoll, Summerside, one year; Jerome O'Brien, Charlottetown, three years.

WEDNESDAY

In addressing the opening meeting of the Summerside Home and School Association last evening Mr. Donald O. Stewart, chairman of the Board of Trustees of the High School stressed the present

congested condition existing at the school. "We need," he said, "at least 10 additional classrooms which means the construction of a new wing". He went on to point out that the construction of such additional facilities would not impose an additional burden on the tax payer. The necessary funds could be provided through a bond issue and the interest on this issue would be the only immediate expense that the tax payer would be called upon to provide.

He said that for some time past, the members of the board have been trying to impress on the minds of the citizens certain facts regarding conditions at the school and endeavouring to make them realize the great necessity for expanded facilities.

Mr. W. J. Brawders, Director of Child Welfare in the Provincial Department of Health and Welfare was honoured yesterday afternoon by Government officials and fellow staff members in a brief presentation ceremony held at Red Cross Centre.

The occasion marked the retirement of Mr. Brawders which takes place today following a period of 25 years in welfare work, terminating with his retirement from the position he has held under the Government for the past eight years.

The Charlottetown Baptist Church took a large part in the Island Baptist district meeting held at Hazelbrook yesterday. The chairman of the morning and evening sessions was Mr. R. J. Rupert, with Rev. J. D. Davison, the local pastor, as vice-chairman. Other delegates from the Charlottetown Church included Dr. and Mrs. J. A. Clark, Dr. Zella Clark, Mrs. T. G. Ives, Mrs. Lemuel Webster, Mrs. Samuel Campbell, Mr. and Mrs. A. K. MacPhee, Mrs. Herbert Yeo and Mrs. R. J. Rupert.

Sentences of four years and three years in Dorchester Penitentiary on charges of breaking, entering and theft in connection with a break in a railway car, and breaking and entering with intent to commit theft in connection with a break into the store of Reddin Bros. were imposed on Elmer Doucette, this city, in Queen's County Court Judge's Criminal Court before Judge C. St. Clair Trainor yesterday. The sentences are to run consecutively.

The two actions arose when Doucette was committed to the Supreme Court by Stipendiary Magistrate E. M. Martin, Q.C., on a breaking and entering charge in the drugstore of Reddin Bros. was entered last July. He was released on bail and while out was charged with breaking and entering and theft in a railway car at the C.N.R. station on September 8.

THURSDAY

Messrs. Stanley Willis, Cornwall, and Sterling Moore, Pownal, leave this morning for Coburg, Ontario, where they will compete in the international and world championship plowing matches.

Conflicting testimony was given yesterday as the trial of James Dawson, Albany, charged with creating a disturbance in Bernard's Restaurant, Crapaud on September 12, opened before Stipendiary Magistrate Gilbert A. Gaudet in the Court House. It had previously been adjourned for a week.

Thirteen "Red", three "Welshmen" and one "Blue" were returned as members of the Student's Council in the election which took place at Prince of Wales College yesterday afternoon. The new President of the Council will be selected from their membership by the new body at a meeting to be held this evening. Other officers to be chosen by the council are the President of the Athletic Committee, President of the Social Committee and Editor of the College Times.

Council members elected were: IV Year, Paul Cudmore and John Gillis (Welshmen), Don Wood (Red), III Year: Goodwill MacDaugall (Welshmen), Katherine Craig and Boyd Richards (Ded), II Year: Douglas Cudmore, Pauline Moran and Ralph Whitehead (Red), Commerce: Ruth MacLean (Red), Teacher Training: Mildred

Mullen and Birdie Cairns (Red), First Year: Rolfe Diamond, Margie Jardine, Dave MacLeod and Janet Rogers (Red), Rollee Lee (Blue).

FRIDAY

Don Wood of Marshfield a fourth year student at Prince of Wales College, was chosen president of the Student Council at the first meeting of that body which was held last evening.

Following the election of officers, Dr. Frank MacKinnon, Principal of the College, in addressing the assembly briefly, congratulated them most highly on the way the election had been run and the sustained interest aroused during the campaign.

"In watching birds, one may see the whole drama of life," said Carl W. Buchheimer of New York, vice-president of the Audubon Society in an address delivered in Prince of Wales College Auditorium last evening.

The speaker, who was introduced by Mrs. W. E. MacKinnon, has studied bird life in Maine to Florida and is director of Maine Audubon Camp, a carefully fitted through experience and love of bird life to treat the subject in an authoritative and instructive manner.

"The purpose of the Audubon Society," said Mr. Buchheimer, "is to create widespread awareness of the beauties and value of national resources in a country". Activities engaged in with this end in view are: Education through Audubon Junior Schools; preparation of teachers; camps founded all over the American Continent. The Society also engages wardens where wildlife exists (wildlife sanctuaries) and carries on scientific research (preservation of rare wildlife). As an illustration of this he mentioned the Whooping Crane of which only 21 are known to be in existence. These birds migrate to Texas from an unknown location in the North West Territories.

Mr. Leith Brown, of York, was elected president of the Third District of Queens Progressive Conservative Association when they held their annual meeting last night in Fort Augustus hall.

Mr. Louis MacDonald, the retiring president, presided at the meeting which saw many take part in the discussions. Other officers elected to the executive for the coming year were vice-president Mr. Carl Kelly, secretary (re-elected), Mr. Charles Phillips, Herbert Beagan was named as a member of the Provincial executive, and Mr. Leith Brown was appointed to the Queen's County executive.
