THE GIRLS AND THE MEN.

A Vast Difference Between the Sky Bean and the Chasty Chap.

"Men are peculiar creatures," said the girl in white as she nestled closer to the big pile of sofa cushions. "I have noticed that the shy, bashful, self-conscious man can be captured twice as easy as the chatty man who thinks girls are the dearest things on earth and usually tells them so. I have known men that could not button a girl's glove or help her on with a pair without an embarrassed manner that was absolutely painful to her. I have known a man who would make love to every girl he meets, and unless an exceptionally smart little woman angles for him he spends his time in bachelordom. It is those men of whom every one says: 'Oh, he'll never marry; he hasn't courage enough to ask a girl to be his wife.' It sends a whole community into universal heart disease by calmly telling them of his engagement. Now, I can't understand it at all unless it is that the bashful man takes it for granted that women are angels and the other man knows what awful creatures they are."

"I remember a man who always took two or even three girls to parties and simply wouldn't be the property of any one," said the girl in pink.

"If he gave one a box of bonbons every other girl in the set had a box, too. He certainly was the most unimpressible person I ever saw in my life. All the girls were dead in love with him and he was finally carried off by a domineering woman who kept him from obeying her orders. And how that girl did crow about it! The very day after he proposed to her she visited every one of those other girls and asked them to be bridesmaids."—Philadelphia Record.

THE MAGNETIC NEEDLE.

Powers of the Pole's Attraction Which Have Been But Little Understood.

The pole's attraction for other objects besides the magnetic needle has, up to the present time, been at best imperfectly understood, owing to the incompleteness of the data furnished by those who made such matters a study. That many objects possess a well-marked polarity, however, there is not the least doubt. It is a well-known fact that if a bar of soft iron is suspended sufficiently long in the air, say at a height of from one to four feet above the surface, it will become magnetized, and no odds in what position it was originally placed. If so balanced as to be free to move, eventually assume a north and south direction. It is also claimed by experimenters that a living human body, stretched rigidly upon a board perfectly pivoted will quickly "line up" in a north and south direction, the head pointing toward the pole. This faculty is present in a corpse, and it occurs to the writer that if it is really anything in it, it would be a splendid "death test." Another "polarity" proof is this: Place one end of a demagnetized bar of iron upon the ground, inclined so that the end in your hand points toward the pole star, strike it one sharp blow with a heavy hammer and it will immediately acquire "polarity," and will be found to exhibit all the well-marked qualities of a magnet.

Dreadfully Popular.

Our readers have no doubt read with interest the despatches almost weekly appearing in this and other Canadian journals regarding cases of a most startling nature made by Dodd's Kidney Pills. These pills have proven themselves to be a certain cure for all diseases of the kidneys and blood, such as backache, rheumatism, Bright's disease, diabetes, dropsy, etc.

Enquiry amongst local druggists elicits the facts that they have a very large sale and are an infallible cure for kidney diseases.

Dodd's Kidney Pills are manufactured by Dr. L. A. Smith & Co., Toronto, and sold everywhere, or by mail on receipt of price, 50 cents a box, or 6 boxes for \$2.50.

He Was Convinced.

A man in Nova Scotia was in doubt as to the genuineness of the reported cure of Mrs. Bernard Maguire and ex-Councillor Lingley of Peterborough, Queen's Co., by a course of Hawker's Nerve and Stomach Tonic and Hawker's Liver Pills. He wrote to Squire Lingley, and that gentleman promptly assured him that the testimonials were genuine.

GRAINS OF KNOWLEDGE.

Interesting Old World News in Shanties for New World's Readers.

The French Government proposes to impose fines up to 100 francs on companies for trains that are run behind schedule time.

A technical school is to be established at Osaka, Japan, for the training of youths in various handicrafts.

In China all land belongs to the State; a trifling sum per acre, the same through long centuries is paid as rent. This is the only tax in the country—about 60 cents a person on an average.

The Imperial Canal of China is the longest in the world and the greatest in point of traffic. Its length is 2100 miles, and it connects 41 cities situated on its banks. It was completed in 1350, and after 600 years spent on its construction.

Germany produces more zinc than any other country, and exports between 50,000 and 60,000 tons of the metal annually. The output in 1890 was 120,000 tons. The main zinc-producing district is in Upper Silesia, where the metal is made from calamine and zinc blende by distillation.

The Watkin Tower, at Wembley Park, near London, is rapidly approaching completion. Sir Benjamin Baker is the engineer of this great work, which, when finished will have a height of 1150 feet, or 176 feet more than the Eiffel Tower in Paris.

According to Mr. Tegetmeier, who has given special study to the fauna of Australia, Sir Benjamin Baker is forced by his environment to alter his European habits. The forepaws of some have already been adapted for climbing trees in the search of the food which they cannot find on the ground, and others have begun to litter on the bare earth. The antelope rabbit also enters the water and swims very well, both during its migrations and when pursued.

A Newspaper and Music Hack.

A pretty rack for music or newspapers can be had at almost any art supply shop where deal furniture for decorative purposes is sold. Dress in white wood frame stretch and glue some moss-green plush, set off with old gold galon and antique brass nails. Bright ribbon bows would enhance it.

THE WORLD'S FAIR.

Only a short time remains in which to visit the world's fair. It has been a far greater success financially than had been anticipated in the early summer. So far as the show itself is concerned, all visitors agree in describing it as marvellous; and when its variety, volume and significance are considered, even this term seems inadequate. When one pauses to think that but a few years ago the very site of Chicago was a wilderness, and that to-day there are gathered within her borders the representatives and the products of the skill of all nations of the earth, a conception of the rate at which the world is progressing dawns upon and almost bewilders the mind. There have been many provincial visitors to the Fair, and many more will register there before its close. The city of Chicago is the very site of the world to the visitor, in its vastness and variety. In careful study of its people and the climatic effect, nothing is more noticeable than the prevalence of catarrh. It is a peculiarity resulting from the climate, and is noted by the medical authorities. Unfortunately this annoying and debilitating disease is not confined to Chicago. There are numerous cases of catarrh in the Lower Provinces. It is therefore of the greatest importance that a remedy which has proved its ability to cure the most obstinate cases should be brought into general use. This remedy is Hawker's Catarrh Cure, the most effective in curative power of any before the public to-day. The Hawker Medicine Co. can furnish testimonials and references regarding Hawker's Catarrh Cure that no reader of this paper will for a moment question. Capt. S. E. Belyea, of Greenwich, King's Co., N. B., under date of Oct. 6th, writes to the company that an aggravated form of catarrh had in his case closed the nasal passages so that he could scarcely breathe, had induced serious deafness and caused him great pain and trouble. He tried many remedies, but all failed until he got Hawker's Catarrh Cure, three 25 cent packages of which affected a cure. "I can honestly say," writes Capt. Belyea, "that I am practically well, and I take great pleasure in recommending Hawker's Catarrh Cure to those who are suffering from this very troublesome disease."

Flour, Flour, Flour,

WHOLESALE AND RETAIL.

We intend making FLOUR one of our leading lines, and with that end in view we will keep in stock a full supply of the different grades, which we will sell FOR CASH as low, if not lower, than any other firm in the city.

The MATCHLESS Brand, of which we have just received a Carload, has greatly improved the past two months, and is now much better than ever before. This is owing to the fact that the proprietors have re-fitted their Mill with the latest improved and best machinery at a cost of over \$20,000, and are using only the best No. 1 Wheat.

We have also just received a quantity of a lower grade of Flour which we are selling very cheap.

Every Barrel warranted to be as we say it is. Call and see our grades and give us a trial.

Flour, Flour, Flour,

WHOLESALE AND RETAIL.

We intend making FLOUR one of our leading lines, and with that end in view we will keep in stock a full supply of the different grades, which we will sell FOR CASH as low, if not lower, than any other firm in the city.

The MATCHLESS Brand, of which we have just received a Carload, has greatly improved the past two months, and is now much better than ever before. This is owing to the fact that the proprietors have re-fitted their Mill with the latest improved and best machinery at a cost of over \$20,000, and are using only the best No. 1 Wheat.

We have also just received a quantity of a lower grade of Flour which we are selling very cheap.

Every Barrel warranted to be as we say it is. Call and see our grades and give us a trial.
