WAKE UP YOUR LIVER BILE--

Without Calomel—And You'll Jump Out of Bed in the Morning Ready to Go

The liver should pour out about 2 pints of bile into your digestive tract every day. If this bile is not flowing freely, your food may not digest. It may just decay in the digestive tract. Then gas bloats up your stomach. You get constipated. You feel sour, sunk and the world looks punk.

It takes those mild, gentle Carter's Little Liver Pills to get those 2 pints of bile flowing freely to make you feel "up and up." Get a package today. Effective in making bile flow freely. Ask for Carter's Little Liver Pills, 25¢ at any drugstore.
