GOLDSMITHS' WORK.—The progress of fine art manufacture in this branch of trade is strikingly exemplified in a little work published by J. W. Benson, of 25 Old Bond Street and of the City Steam Factory, 58 and 60, Ludgate Hill. It is enriched and embellished with designs by Italian, French, and English artists) of Brooches, Bracelets, Earrings and other articles suitable for personal wear, or Wedding, Birthday, or other presents, with their prices. Mr Benson who holds the appointment to H. R. H the Prince of Wales has also published a very interesting pamphlet on the Rise and Progress of Watch and Clock making. These pamphlets are sent post free for two stamps each, and they cannot be too strongly recommended to those contemplating a purchase especially to residents in the country or abroad, who are thus enabled to select any article they may require, and have it forwarded with perfect safety.

The large and increasing sales of these

is a sure proof of their superiority. We were satisfied that they would be appreciated here as elsewhere and that the reality of the advantages offered to wearers of our beautiful lenses, viz; the ease and comfort the assured and readily ascertained improvement of the sight and the brilliant assistance they give in all cases, were in themselves so apparent on trial, that the result could not be otherwise than it has, in the almost general adoption of our CELEBRATED PERFECTED SPECTACLES by the residents of this locality.

With a full knowledge of the value of the assertion, we claim that they are the most perfect optical aids ever manufactured. To those needing Spectacles, we afford at all times an opportunity of procuring the best and most desirable.
