You'll Save Food And Money, with the greatest ease, if you collect supply of unbreakable housewares made of C-I-I POLYTHENE. Then all your left-overs can be tucked away in covered canisters and bowls for safe keeping. Your supplies for sandwiches, or salads, can be used by, and kept fresh for days. You'll find the food flavour sealed in, and foreign tastes and odours sealed out, when you use covered polythene housewares. These housewares are soft and warm to touch; won't chip, break or crack when dropped. Polythene, seems to me, is one of the great boons in modern chemistry for housewives. No wonder two out of three of us prefer flexible polythene housewares every time!
