THE CELEBRATED COMMON SENSE

FAMILY SEWING MACHINES

Improved and Perfected!

Acknowledged to be the best cheap Family Sewing Machine in the United States.

MANUFACTURED BY A. F. JOHNSTON & Co., BOSTON, MASS.

For Elegance of Finish it has no Rival, high Price or low.

THE Celebrated Common Sense Family Machine is now before the public, with all the improvements that can well be combined in a Sewing Machine. Great labor and pains have been bestowed to bring this machine into the very highest circle in the scale of Sewing Machines. It is acknowledged by the best judges to stand entirely ABOVE AND BEYOND any cheap machine ever produced before. It will sew anything that can be sewed on any high priced Machine in the land, just as nicely and just as rapidly. It will sew from Swiss Muslin up to Beaver Cloth, at the rate of twelve hundred stitches per minute.

Our Machine has a new style of feeding apparatus, which makes the Machine Self-Guiding. The cloth, without the aid of either hand, will run nearly as true as when guided by Barnum's SELF SEWER. This is an advantage not possessed by any other Machine in the world, high price or low. This is one reason why this Machine is so easily managed by children. A girl with one hand can use it more successfully than she could ordinary Machines with two hands.

This Machine will Stitch, Hem, Fell, Tuck, Quilt, Cord Bind, Braid, and Embroider in a most superior manner.

EVERY MACHINE WARRANTED FOR FIVE YEARS!

You can cut every second stitch of this sewing and then we will give you a Machine if you can pull the cloth apart without tearing it. It is useless to multiply words, our Machine needs only to be seen to be appreciated.

Flattering Testimonial from the New York Tribune:

The Common Sense Sewing Machine. This is the name of a new candidate for public favor. We have had Sewing Machines many. Some costing enormously and some costing as little as the "Common Sense Machine," but they have most of them passed away because of faulty construction. But few of the higher priced machines retain the confidence of the public. It was the good fortune of the inventor of this machine to combine excellence of construction and excellence of performance with extraordinary cheapness (only twenty dollars), and just the result that might have been expected has been attained. These sewing machines sell rapidly. They give abundant satisfaction. They are acknowledged to stand entirely ahead of any cheap machine ever invented. The thread is laid evenly upon the fabric, and the work holds firmly.—TRIBUNE.

No household complete without our "Great Labor Saving Machine."
