

## Churchill Pledges Britain Will Not Press To Seat Red China In United Nations

By RANALD B. MACLURKIN  
LONDON (Reuters) — Prime Minister Churchill said Monday this is not the time to seat Communist China in the United Nations.

Reporting on his recent visit to Washington and Ottawa, the prime minister told the House of Commons the government's attitude toward admission of Red China to the UN has not changed. The Peiping regime must still prove that it is willing to forswear aggression and abide by international agreements.

He said Indo-China were areas for testing Communist China's good faith and since settlements had not yet been reached on either of these, this was not

the time to consider seating the Red Chinese government in the UN.

**ASTOUNDED BY REPORT**

Churchill indicated that the Red China issue was not the one which prompted his visit to Washington. He said he decided to confer with President Eisenhower mainly because he was "astounded" by American reports of the destructive force of the hydrogen bomb and the consequent changes thus required in Britain's civil defence program.

Churchill spoke in general terms on all outstanding international issues in a 42-minute speech in advance of a one-day foreign affairs debate scheduled for Wednesday.

"I have never had a more agreeable or fruitful visit than on this occasion," he said, "and I have never had the feeling of general good will more strongly borne upon me."

**WELCOMED ACCEPTANCE**

Churchill welcomed Eisenhower's acceptance of the principle of co-existence with the Communist world and he agreed fully with the President that "this doctrine does not lead to compelling any nation to submit to domination."

With time, Churchill said, he believes widespread acceptance of co-existence will solve current world problems and "prevent the mass destruction of the human race."

Churchill said he and Foreign Secretary Anthony Eden were "astounded" on their way home from Washington to hear of the storm raised in the United States over reports that the mission was linked with the question of China's UN seat.

## Coming Events

- Hope River Picnic, July 14th.
- St. Teresa's Picnic, Wednesday, July 21st.
- Rollo Bay Picnic, Wednesday, July 28th.
- Dance at Gordon Lodge every Friday night.
- Reserve July 21st, Tignish Parish Picnic.
- Dance, Fortune Hall, every Tuesday night.
- Ice cream festival at Wheatley River postponed.
- Regular Dance Crapaud Rink, Wednesday night.
- Lower Montague regatta, Wednesday, July 14.
- Dance Kozzy Hall, Georgetown, Wednesday, July 14th.
- Tryon Baptist Church picnic, Wednesday, July 21st.
- In Stock—Turnip Hoese, Forks, Fry Spray, W. I. Bowman.
- Dnce Pembroke school, Tuesday, July 13. Good music.
- Regular Tuesday night dance in Stanley Bridge Rink Hall cancelled tonight.
- Ice cream festival and ball game Head of Hillsboro School Tuesday, July 13th.
- Weekly dance Winsloe Station Hall every Tuesday. Doiron Bros. Orchestra. Canteen.
- Don't miss Vernon River party, Wednesday, July 14. Dance Wednesday night.
- Cerebral Palsy Family Picnic at MacRae's shore, Alexandria, Wednesday afternoon, July 14.
- Dance South Rustico Hall every Thursday night, music Rolfe MacKenzie's Orchestra.
- Annual meeting of the West River Telephone Co. will be held in Long Creek hall Tuesday evening.
- Kensington Ice cream festival, bazaar, games, refreshments, Catholic Church grounds this evening.
- Ice cream social at Augustine Cove School, Tuesday evening, July 13. Home made ice cream and cake.
- Regular Dance, Stanley Bridge Rink Hall every Tuesday night. Music, Rolfe MacKenzie's Orchestra.
- Unloading Tuesday and Wednesday, cement, asphalt and cedar shingles. Special prices. F. J. Noy & Co.
- Strawberry and ice cream festival at Beechwood Garden, Cornwall, July 14. Sponsored by Ladies' Aid.
- Ice Cream and Strawberry Festival, Tuesday, July 13th, Marshfield Presbyterian Manse grounds. Also sandwiches, cake and tea. 5.00 p. m. Standard Time.
- Come to the Ice Cream Festival and dance in De Gros Gros Marsh School Wednesday, July 14. Turners Orchestra.
- An important Legion meeting of the St. Lewis Branch will be held in the Memorial Hall at Mt. Stewart tonight Tuesday, July 13, 8.30.
- Kelly's Cross Tea Party, Wednesday, July 14th. Bingo, various games and forms of amusement, refreshments. Supper served from 4 o'clock. Dancing at night.
- A meeting of the Stanley Bridge School district, will be held in the school Friday night, July 16, at 8 o'clock to discuss the proposed regional High School.
- Picnic, Immaculate Conception Church grounds, Wellington, Wednesday, July 14th. Bingo, power swings, various games and forms of amusement. Refreshments. Supper served from 4 o'clock.
- A meeting of Morell Branch No. 26 Canadian Legion will be held in Legion Rooms in Morell Wednesday evening, July 14, 1954, at 8 o'clock. All Service Men and members please attend. Reggie McAdam Pres.
- The engagement is announced of Lois Elizabeth daughter of Mrs. Lloyd Cox and the late Mr. Cox of Morell to Mr. Alan Clark Snellgrove of Windsor, Connecticut. The marriage will take place in Marie United Church early in August.

# Dulles Starts Out On Surprise Visit TO Paris; Travels By Air

## City To Apply For \$168,000 Loan Toward High School Cost

Seven resolutions brought before the City Council at the monthly meeting yesterday afternoon dealt with financing all the way from \$168,000 as a non-interest bearing loan from the Provincial Government to \$400 towards expenses at the children's bathing pool at Brighton Beach.

A full attendance of Councillors with His Worship Mayor J. D. Stewart presiding heard with satisfaction from the half-yearly report of Councillor E. C. Johnston, chairman of the Finance Committee, that each department has been operating within the budget for the first half of the year.

Councillor P. R. McCormac reported increased activity in street construction and repairs due to favourable weather working conditions. Overtime was, however, a straight time basis and no extra expense was involved in pushing approved jobs ahead to early completion.

A plan submitted by Mr. George Johnston requesting the City to open up a new street about 800 feet long and 80 feet wide from Goodwill Avenue through to connect with Lansdowne Avenue, was referred to the Commissioners of Water and Sewerage for their comment and an estimate of the cost of supplying services to the homes in the area in question.

A letter from Mr. W. L. Jordan dealt with the proposed conveyance of land off Belmont Street, which was passed to the Street Committee as was also a petition from residents on Peake Street requesting a new sidewalk installation.

## Vienna Reported Braced For Flood Crest; Looters Become Problem In Some Areas

By JOHN SCALI  
WASHINGTON (AP)—State Secretary Dulles left by plane for Paris Monday night in a surprise move which he said demonstrates "the deep concern" he feels over developments in Indo-China and Europe.

Dulles expressed hope that conferences scheduled with French Premier Mendes-France and British Foreign Secretary Eden today would assure "co-ordinated action" by the three governments.

The U. S. secretary emphasized that his flying visit to Paris in no way means he has changed his previous decision to stay away from the Geneva Far East peace conference, where Indo-China peace talks are nearing a show down stage.

Dulles left aboard a four-engine U.S. air force plane, less than three hours after the state department disclosed that, in answer to an urgent French invitation, he agreed to talk with Mendes-France and Eden at meetings today.

**STANDES MAY DIFFER**

In a statement at the airport, Dulles said the United States might take an attitude different from that of France in its true aim at settling the Indo-China war.

"The United States itself is not a belligerent in Indo-China," he said. "It is not clear that the interests which we hold in common with France and Viet Nam, Laos and Cambodia will necessarily be best served by identical action in all respects."

"Therefore, my trip to Paris is without prejudice to the position previously expressed that neither I nor undersecretary (Walter Bell) Smith have at the present time any plans for going to Geneva where the United States is presently maintaining contact with developments through ambassador (to Czechoslovakia) Alexis Johnson and his associates."

French ambassador Henri Bonnet, who saw Dulles off at the airport, made it plain France continues to hope Dulles can be persuaded to go on to Geneva from Paris.

"I hope so, I hope so," Bonnet said when asked about this. He added: "You heard him—he made no promises, but one has hopes."

British ambassador Sir Roger Makins also saw Dulles off.

## Britain Revises Suez Role

LONDON (AP)—Britain has offered to give up her role as sole guardian of the Suez canal as part of a new defence settlement with Egypt.

Diplomatic officials said Monday British envoys in week-end meetings in Cairo with Prime Minister Gamal Abdel Nasser's government proposed control of Suez defences in future might be shared this way:

An Egyptian, responsible directly to the Cairo government, would be named commander-in-chief of the zone.

A Briton, wearing civilian clothes, would be appointed a deputy to the commander. He would head 2,000 civilian technicians who would remain in the canal zone after the British military garrison is withdrawn. These technicians would have the task of maintaining the complicated installations.

The foreign office refused comment on the Cairo talks beyond saying they will go on for some time. There were indications, however, the Egyptians have called for clarification of some of the British proposals.

**POINT YIELDED**

In the past, Britain has insisted the caretaker force left behind should be soldiers. The Egyptians rejected this. In that sense, the new British proposals—which President Eisenhower and Prime Minister Churchill discussed recently in Washington—mark a concession.

**KP May Disappear From U.S. Air Force**

CHICAGO (AP)—KP duty—the most universally cursed aspect of military service—may become a thing of the past in the U.S. air force.

That is, if an experiment to be tried at the Vance air force base, Enid, Okla., proves successful.

The experiment was signed a six-month contract under which the Nationwide Food Service of Chicago will turn out the chow for some 5,000 airmen at Vance.

Nationwide, which operates dining facilities in more than 200 industrial plants, schools and large office buildings plus the Senate restaurant in Washington, will do it all. This means the hated potato-peeling and pan-washing, as well as cooking and serving.

Nationwide's mess service already is a going business in Canada, where it began as a test at two military bases two years ago and since has spread to nine more bases.

**CHILD DROWNED**

SAINT JOHN, N.B. (CP)—Daniel Grandall, 8, was drowned in Saint John harbor Monday when he fell from a scow. He had boarded it from a wharf while playing.

## Two Miners Killed At Glace Bay

GLACE BAY, N. S. (CP)—Two miners were killed and two others injured Monday night by a fall of stone in the No. 25 colliery here.

The victims were identified as Thomas MacKie and John Beaver. Injured were Charles Currie and Alexander McLeod. Extent of their injuries were not known.

All four were trapped under the fall deep in the Gardner mine. Mine rescue crews brought Currie and McLeod to the surface but the other miners were dead when reached.

## Announce RCAF Appointment

OTTAWA (CP)—The air force has named its top man in polar navigation to the post of director of armament engineering here.

Air force headquarters Monday announced that Group Capt. Kenneth C. MacLure, inventor of a system of polar navigation which brought him international recognition in the past, has been named chief project engineer at the RCAF's central experimental and proving establishment here during the last year.

Group Capt. MacLure, 39-year-old native of Montreal, won the Air Force Cross and the first award of the Institute of Navigation in the United States for his work on polar flights eight years ago. As head of test and development work at the Empire Air Navigation School at Shawbury, England, he participated in the Royal Air Force flights over the North Pole in 1945.

## Britain Revises Suez Role

LONDON (AP)—Britain has offered to give up her role as sole guardian of the Suez canal as part of a new defence settlement with Egypt.

Diplomatic officials said Monday British envoys in week-end meetings in Cairo with Prime Minister Gamal Abdel Nasser's government proposed control of Suez defences in future might be shared this way:

An Egyptian, responsible directly to the Cairo government, would be named commander-in-chief of the zone.

A Briton, wearing civilian clothes, would be appointed a deputy to the commander. He would head 2,000 civilian technicians who would remain in the canal zone after the British military garrison is withdrawn. These technicians would have the task of maintaining the complicated installations.

The foreign office refused comment on the Cairo talks beyond saying they will go on for some time. There were indications, however, the Egyptians have called for clarification of some of the British proposals.

**POINT YIELDED**

**CHILD DROWNED**

SAINT JOHN, N.B. (CP)—Daniel Grandall, 8, was drowned in Saint John harbor Monday when he fell from a scow. He had boarded it from a wharf while playing.

## Vancouver Man Quits CCF Membership In Wake Of Quarrel Over Communism

VANCOUVER (CP)—Rod Young, former CCF member or Parliament for Vancouver Centre, Monday resigned from the party following his suspension by the provincial executive.

A member of the party for 20 years, his suspension and resignation is an aftermath of the June 12 annual convention of the CCF when during a stormy debate on communism, Mr. Young declared: "I would be proud to have people tell me I'm a Communist. I can personally introduce you to 50 former Communists in the CCF."

His declaration brought quick denials from party leaders. The provincial executive suspended Mr. Young on Saturday pending an executive trial set for July 24.

The executive said the complaint was that he had used the "proud to be called a Communist" statement knowing that it would bring the party into disrepute "contrary to his duty as a member and contrary to the constitution."

**WILL NOT APPEAR**

Mr. Young replied that the full convention of the party already had debated the subject, and he would have the right of automatic re-entry in the event of a Russian attack on Turkey or any Arab state. Egypt now is reported prepared to go along with the idea.

Egypt previously agreed to immediate British re-entry only in the case of an attack on an Arab state.

At the convention, Mr. Young denied he was a Communist. He explained he was developing a theme that there are many fine people in the rank-and-file of the Communist movement, people sincere in their beliefs.

## Miners Decide To Mend Ways

GLACE BAY, N.S. (CP)—Thirty-three hundred coal miners, suspended last Friday for throwing coal and abuse at mine officials, decided Monday to mend their ways and return to work.

The miners of the big I-B and 26 collieries, owned by Dominion Coal Company, agreed with a resolution of their union local to "refrain hereafter from the use of abusive language and from throwing missiles at any company officials."

The surprise announcement that Dulles was going to Paris from Washington to meet the French and British leaders buoyed the hopes of western diplomats that the U.S. may become less stiff-necked toward the renewed peace negotiations here.

## Driver Charged With Manslaughter

PORT ARTHUR, Ont. (CP)—James Godin, 21-year-old bush worker, has been charged with manslaughter before a justice of the peace in Nipigon hospital.

Godin was the driver of one of two cars involved in a head-on crash last Tuesday which killed four persons and injured nine, including seven children.

Godin was released from hospital and will appear in Port William court Friday.

## Break Off Talks At Geneva

GENEVA (Reuters)—French Premier Mendes-France and British Foreign Secretary Eden Monday night prepared to break off a series of talks here and fly to Paris today to discuss their Indo-China truce negotiations with U.S. State Secretary Dulles.

The surprise announcement that Dulles was going to Paris from Washington to meet the French and British leaders buoyed the hopes of western diplomats that the U.S. may become less stiff-necked toward the renewed peace negotiations here.

## Orangemen Parade In North Ireland

BELFAST, Northern Ireland (Reuters)—Mammoth parades and speeches through Northern Ireland Monday proclaimed the "Orangemen" loyalty to Queen Elizabeth and opposition to union with the Irish Republic south of the border.

The festivities marked the 24th anniversary of the Battle of the Boyne in which Protestant William of Orange defeated Roman Catholic King James II of England. James fled to France and William took throne.

Prime Minister Lord Brookeborough told a ceremony at Coleraine, Northern Ireland's allegiance to the crown remains "fixed and unalterable. He added that while Northern Ireland cannot merge, they can be "good neighbors" if they do not interfere in each other's affairs.

## Daughter of Late Sir Wm. Sullivan Dies at Ottawa

OTTAWA (CP)—Mrs. Alice May Scott, 78, daughter of the late Sir William Sullivan, Chief Justice of Prince Edward Island, died suddenly in hospital Saturday.

She had been in good health until taken ill last Thursday. Mrs. Scott was the widow of William Lewis Scott, prominent Ottawa lawyer who died in 1947.

Among survivors are two sons, Wilfred Scott, Toronto and Cuthbert A. Scott, Ottawa; a daughter Mrs. Malcolm Motley, London, England; two sisters Mrs. W. H. Sullivan, St. Catharines, Ont., and Mrs. Edward McManus, Memramcook, N. B.; a brother, Col. Arthur Sullivan, Winnipeg; and 10 grandchildren.

## Huge Freezer May Be Key To Potash

UNIFY, Sask. (CP)—A giant refrigerator operating here may prove the key to the firm's successful development of Saskatchewan's huge potash reserves.

The unit will have pipes running hundreds of feet into the ground around a 124-foot shaft being bored by the Western Potash Company of Calgary in search of the fertilizing mineral near this northwestern Saskatchewan town.

The shaft now is at the 800-foot level. It has almost 3,000 feet to go to reach the potash zone.

The refrigeration technique was adopted after months of trouble in boring through crumbling formations and water zones. It is the first time it has been used successfully in Canadian mining.

The firm struck quicksand near the surface and an artesian well zone at 235 feet. The foundation of the shaft crumbled and water oozed in continuously.

**FREEZE SHAFT**

At the 180-foot level, a drilling chamber was excavated and holes drilled around the shaft area. A refrigeration plant was set up in the chamber and brine pumped down until the entire shaft was frozen solid.

## Princess Margaret Charms Germans

BONN, Germany (AP)—Princess Margaret charmed the German people Monday during a precedent-breaking royal visit that inaugurated a new era of German-British relations.

The petite sister of Queen Elizabeth paid the first official call by a member of the royal family on a German head of state since 1912, when the Kaiser was on the German throne.

## Former Child Actress Is Granted Divorce

SANTA MONICA, Calif. (AP)—Jane Withers, former child actress, won a divorce and a \$1,000,000 property settlement Monday on testimony that her Texas oilman husband, William Moss Jr., 33, "drank and gambled excessively."

Miss Withers, 28, who charged Moss with mental cruelty, also was granted custody of their three children.

## Announce Queen To Hold Investitures

LONDON (AP)—Buckingham Palace said Monday the Queen will hold investitures Nov. 2, 9 and 16.

Investitures seldom are announced so far in advance.

There was speculation that the palace did so this time to dispel rumors that the Queen is expecting a third child.

## String of Bee Blamed For Death of Woman

PAYSON, Utah (AP)—The sting of a bee was blamed for the death Sunday of Mrs. Claribel H. Moore.

Her doctor said the 53-year-old woman was allergic to a bee sting and died from effects of anti-phylactic shock.

## Incandescent Spray

TORONTO (CP)—Canadian National Railway officials said Monday they will investigate charges made by Kitchener's fire chief Kenneth Putnam that a weed killer used by the railroad has started 15 fires when it was ignited by the heat of the sun.

## Huge Freezer May Be Key To Potash

UNIFY, Sask. (CP)—A giant refrigerator operating here may prove the key to the firm's successful development of Saskatchewan's huge potash reserves.

The unit will have pipes running hundreds of feet into the ground around a 124-foot shaft being bored by the Western Potash Company of Calgary in search of the fertilizing mineral near this northwestern Saskatchewan town.

The shaft now is at the 800-foot level. It has almost 3,000 feet to go to reach the potash zone.

The refrigeration technique was adopted after months of trouble in boring through crumbling formations and water zones. It is the first time it has been used successfully in Canadian mining.

The firm struck quicksand near the surface and an artesian well zone at 235 feet. The foundation of the shaft crumbled and water oozed in continuously.

**FREEZE SHAFT**

At the 180-foot level, a drilling chamber was excavated and holes drilled around the shaft area. A refrigeration plant was set up in the chamber and brine pumped down until the entire shaft was frozen solid.
