### HILLSBOROUGH BRIDGE.

Sir,—During the summer a petition was circulated to have the bridge placed as near to the city as possible, and signed by upwards of 400 citizens—who meant what they did and now fail to understand why that petition was treated in such a shabby manner, as they learn with surprise and regret that the government received documents which when signed would place the site at Kensington Range. All praise for the manner in which Premier Farquharson has withheld his signature. This is a matter of the most vital importance and nothing should stand in the way of placing it at the most convenient site practicable. The engineer knows full well that, if he only had the permission of Sir Louis, it could be placed leading off Cumberland Street; and a few thousand extra in interest should not stand in the way of so permanent and lasting a work. Let a public meeting at once be called, free and open to all, and if necessary let them send a delegation to Ottawa to urge upon the Government the Cumberland Street site and to find out, if possible, the cause of the change of site, and also who are responsible for it.

CITIZEN.

Sir,—I am glad to see that the question of the site of the bridge is being agitated. Certainly Mr. Farquharson deserves credit for standing out in the public interest, though this is his last chance. I hope that when the papers are brought down to the Board of Trade that they will include a sketch of the whole railway locality from Prince Street east to Cumberland. It seems to me that a clever engineer, who desires to do so, might by taking in Prince Street wharf—which the Provincial Government will not want—easily design a splendid railway junction and by some dredging out and some filling in give ample yard room, together with the Bridge at the foot of Cumberland Street at much less expense than the Kensington Range scheme will involve.

OBSERVER.

### WHAT ABOUT THE C. B. C. ?

Sir,—I am surprised at reading the evening papers and finding no mention of the C. B. C. at the procession the other night. The students of the C. B. C. filled with patriotism, were there in full force, and although they were last in the students' procession, they were by no means least. I think, anyhow, they were deserving of mention. Thanking you, Mr. Editor for your valuable space. I remain

One of her daughters is married to Mr. A. E. McEachen, the well known boot and shoe dealer. Her bereaved husband and family and other relatives have our sympathy.

The many friends of Corp. Coombs in this city hope his wound is not a serious one. He was undoubtedly better known in the Maritime Provinces than any other man who left with the first contingent. For years he has been prominent in athletic circles and possesses more than two hundred medals for first and second places secured at contests in various athletic meets. Over the high hurdles he had no equal in Canada and at jumping, pole vaulting and sprinting he was a foremost athlete. For many years he played on the Mohawk hockey team and twice captained them through a campaign which brought them to the championship. He was born in P. E. Island and was twenty-four years old.—St John Telegraph.
