## and PRINCE COUNTY CHRONICLE

### Leary And Vicinity

Checkley Wilkinson has returned to Springfield West, spending the winter in Florida.

Harold Jolley left Friday on a holiday trip to Toronto to visit his brother Ray.

Blair Baker has returned from the Agricultural College. We are glad to note that Blair has been successful in his year's work and has received a diploma.

Gilbert Finnan, Howlan, has taken a position as egg-grader for Burns of Freestown.

The changes recently made in the highway sections has been the cause of the moving of families both in and out of Leary during the past week. Mr. Gille has moved from here to the eastern end of the Island and three new sections have moved in, two with families, which will add somewhat to the population.

Three road machines were unblocked here during the past week. Let us hope they will get busy and give us some improvements on the roads, for they have been and still are in a deplorable condition. At one would almost think they were riding over the rocky roads to Dublin.

The annual meeting of the O'Leary Branch, Canadian Legion P.E.S.L. was held at the home of Mr. and Mrs. Ivy MacFadyen, Bras, on Thursday, April 30th. The following officers were appointed for the ensuing year: President, Chesley Woodside; Vice-president, Dan McDonald; Recording Secretary, Brad McKay; Financial Secretary, Chad Dennis. After the business was disposed with, a very pleasant social evening was spent by all. Refreshments were served by the hostess.

Mr. Spurgeon McNeill left Monday morning for Charlottetown to resume his summer duties as painter of the Canadian National Railways.

Mr. Joseph R. Gallant sold his trotting horse "Honesty." He is on the lookout for something more speed.

Congratulations to Mr. and Mrs. Martin, Bloomfield, on the arrival of a new baby boy.

### Fight Against Cancellation Of Power Contracts

By Guardian's Special Wire) TORONTO, May 4.—The Ottawa Hydro-Electric Power Commission today opened a fight against cancellation of power contracts it held with the Ontario Hydro-Electric Commission, with company counsel occupying most of the day's session.

The High Court reserved its judgment in the motion of the Ontario Hydro-Electric Commission, representing the Attorney General's Department, that the Attorney General be dismissed as a party in the case. The company seeks to have the cancellation legislation declared ultra vires of the legislature and seeks \$115,000 from the Ontario Hydro-Electric Commission for power value when the contracts were cancelled by legislation proclaimed Dec. 5, 1935.

Defendants in the action are the Attorney General, the Hydro Commission and the Royal Trust Company which acted as trustee under deed of trust for the company bonds.

Mr. Humphries argued that including the Attorney General was vexatious and frivolous, but W. N. Riley, for the company, maintained the Attorney General was called on merely so he could defend the legislation passed by the Ontario government.

### X-Governor Honored

By Guardian's Special Wire) NEW YORK, May 4.—Former Governor Alfred E. Smith was awarded the medal of the Order of St. Sebastian by the Roman Catholic Veterans, Inc., tonight. It is the highest honor given by the organization.

A resolution said the "warriors of the World War are happy to acclaim the 'Happy Warrior' as the outstanding Catholic layman in the United States," and praised him as having met intolerance with tolerance.

### WAKE UP YOUR LIVER BILE

and You'll Jump Out of Bed in the Morning

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food does not digest, just decays in the bowels. Gas bloats you, constipation, you get constipated, harmful poisons go into the body, and you feel sour, rank and the world looks pink.

The "bowel movement" does not always get the liver as well. It takes those good, old "Little Liver Pills" to get those two pounds of bile flowing freely and make you "wake up and up." Harmless and gentle, they take the bile flow, and you feel clean, contented, but have no constipation or mercury in your system. For Carter's Little Liver Pills are small, round, and contain no mercury.

### Wheat 'Probe' Nears Conclusion

(C. P. By Guardian's Special Wire) OTTAWA, May 4.—The unexpected happens, the House of Commons has heard its last witness. A sub-committee now will start preparation of its report.

Suggestion of Opposition leader Bennett and E. E. Perley (Cons., Qu'Appelle) that John I. McFarland, former chairman of the Canadian Wheat Board, be called as witness was still before the main committee. They contended he should be given opportunity to answer the impression he had exceeded his authority in connection with the purchase of 10,000,000 bushels of wheat by the Canadian Co-operative Wheat Producers, Ltd., between mid-August and mid-October last year.

### BORDER TOWN PUPILS MEET

(By The Canadian Press) WOODSTOCK, N. B., May 4.—The phrase "hands across the border" has real meaning for students of Woodstock High School and Ricker College Institute at Houlton, Me. History and social science classes of the two schools are holding a series of joint meetings to discuss current problems of mutual interest to Canada and the United States.

Selection of the topic for the first meeting was made part of the regular work in history and social science in the two schools, both situated in border towns. The pupils were unanimous in choosing for discussion the Canada-United States trade treaty. A student from each school presented his country's point of view.

Education systems of the two countries were compared, with particular attention given to methods of teaching history. A Houlton student explained what he had learned about Canada, and the Canadians then expressed their views as to the soundness of the

### Safety Ports For Migratory Birds

(A.P. By Guardian's Special Wire) WASHINGTON, May 4.—Seeking safety ports for transient ducks and geese, the government plans to acquire 5,200,000 acres for bird refuges during the next four years.

A spokesman for the Bureau of Biological Survey, which has supervision over migratory birds, said today the Bureau's goal was the acquisition of 7,500,000 acres of refuge lands by 1940. To achieve that more than 1,000,000 acres must be obtained annually.

It has been recommended the Bureau purchase and develop 2,244,000 acres of nesting refuges, 1,096,000 acres of feeding and resting refuges and 1,879,000 acres of wintering refuges, or a total of 5,219,000 acres.

The survey now owns and administers 99 refuges covering 2,118,433 acres. The Bureau actually has provided 3,117,831 acres of bird refuge land, however. Options for the purchase of nearly 1,900,000 other acres have been approved and the owners, are now or soon will be functioning as waterfowl refuges.

The land now owned by the bureau for migratory waterfowl use is valued roughly at \$14,000,000. Several additional millions of dollars of valuable land is owned by the various states and used for refuges. Before the ducks fly south again, the bureau expects to have some new wintering ranges. Six refuges are being acquired in Arkansas, Louisiana, Mississippi and Texas. These have 355,000 acres.

### Taxation Not the Only Way to Balance Budget

(C.P. By Guardian's Special Wire) TORONTO, May 4.—Taxation is not the only way of balancing the budget, said Sir John Alder, president of the Canadian Bank of Commerce, when commenting on the weekend on the corporation income tax increase announced in the Dominion government budget. Economy was needed, Sir John stressed.

"The debt of the country has become so heavy they have to make it up somehow," he said. "Economy is needed. There are 10 governments in this country, provincial and federal with hundreds of members and many commissions, all expensive, which could easily be reduced."

"Taxation is not the only way of balancing the budget; it is more important that economy be affected as a means to that end."

### Missing Boy's Body Found on Cliff

BAY ROBERTS, Nfld., May 4.—(C.P. Cable)—The body of seven-year-old Peter Walsh who disappeared here last December 12, was found Saturday on the top of a cliff a mile from his home.

The child's disappearance without a trace of his whereabouts gave rise to many rumors in this community. Theories advanced were that he had been murdered by some deranged person, kidnapped or possibly killed by some motorist who feared to admit the accident and had sunk the body in some nearby pond.

No post-mortem examination has been held yet. The general opinion is that the boy missed his way home in the dark and died of exposure.

### In Ottawa

(O.P. By Guardian's Special Wire) OTTAWA, May 4.—The post-office sustains an annual loss of \$4,476,254 per annum in carrying newspapers "and other similar periodicals at a cut rate for this class of mail." Postmaster General Elliott told T. L. Church (Cons. Toronto-Broadview) in the House of Commons today. This figure represented the difference to the department of the actual cost of carrying such mail and the money received for performing that function.

### 143 Prosecutions

Prosecutions under the weights and measures act numbered 143 during the first quarter of the current calendar year, 99 more than in the same period last year, Trade Minister Euler told the House of Commons today.

Last year's quarterly convictions totalled 39. There were 111 the first three months of 1936.

### R.C.M.P. Housing Costs

In the last three years \$1,017,504 has been spent on Royal Canadian Mounted Police barracks and officers' residences, Agnes Macphail (U.P.O.-Lab. Grey-Bruce) was told by Justice Minister Lapointe in the House of Commons today.

Direct payments from the R.C.M.P. appropriation for barracks totalled \$423,855; disbursements by the public works department \$145,984, while \$312,180 was paid direct from the public works appropriation.

For officers' residences \$134,628 was paid for rentals and \$85 for furnishings.

### F. C. A. Operations

Since the Farmers' Creditors' Arrangement Act became operative 18 months ago a total of 11,011 settlements, involving \$51,127,475 of debt, have been effective, according to the first report of the committee in charge, tabled in the House of Commons today. Reductions actually effected totalled \$15,241,430, with an annual interest saving of \$1,228,718.

The report sets forth that 19,091 farmers submitted proposals, and 11,011 settlements had been made, with an average annual interest saving to individual debtors of \$151.21.

Settlements effected under the act, by provinces, follow: Prince Edward Island, 224; Nova Scotia, 36; New Brunswick, 182; Quebec, 1,221; Ontario, 1,261; Manitoba, 875; Saskatchewan, 1,182; Alberta, 1,041 and British Columbia, 36.

In addition to this total of 6,118 voluntary settlements accounted for 4,893, making a total of 11,011.

### Marine Insurance Reduced

Marine insurance rates on the Hudson Bay route have been reduced for the coming year, and the season extended eight days, Railway Minister Howe announced in the House of Commons today. The season this year will last from Aug. 5 to Oct. 10 before surcharges are added to marine insurance. The season last year was from Aug. 10 to Oct. 7.

### Garbo Returns To America

(By Seth Mosley Associated Press Staff Writer) NEW YORK, May 3.—Greta Garbo, who bade adieu to America a year ago with "I tank I go home now," came back today and said: "I have no home. I'm just a wanderer."

The wanderer, frightened, nervous wan-looking, paced the deck of the liner Gripsholm, in from Sweden, and lifted blue eyes from viewing the upper bay.

"Not a Gypsy, you know, just sort of a wanderer." The voice was crisp, low and thoroughly Americanized. "I did not enjoy my year in Sweden. How can you enjoy yourself when you have been sick?"

"It was something—well, like 'gritte'."

She wore a black tulle suit, a grey scarf, and low-heeled black oxfords.

"A romance?" she repeated the question, and looked over the railing. "Isn't life full of romance?" "I'm so terribly nervous. I'll never go on the stage because of that. To be seen in the movie is enough."

She will go to Hollywood at the end of the week.

### BRING PECULIAR FISH TO COLONY

(By The Canadian Press) HAMILTON, Bermuda, May 4.—Specimens of some of the peculiar fish captured in the Pacific ocean are on display at the Bermuda government Aquarium, brought here in Vincent Astor's yacht Nourmahal.

Louis Mowbray, curator of the aquarium, had charge of the 1,052 variety, taken during a 62 day voyage from San Pedro, Calif., to the Galapagos Islands in the Pacific and thence to Bermuda by way of the Panama Canal.

Twenty-one penguins formed the outstanding part of the vast collection. Curator Mowbray explained the permission of the Ecuador government had to be obtained before capture of these, because the species was being depleted by unnecessary slaughter and activity of sharks.

### HUNGARIAN FARMERS LONG-LIVED

BUDAPEST—The Hungarian statistical bureau's longevity census has revealed 65 persons more than 90 years old in the farming community of Szeged. Mrs. Joseph Tandari, 115, lives with an 82-year-old son.
