## BRITISH RULE IN AFRICA.

Those who are interested in the future  
of South Africa cannot do better than  
read Lord Cromer's report on Egypt in  
1899. Although handicapped by the  
jealous interference of France, the hos-  
tility of the Khedive, and an artificial  
system of finance which compels the  
Government to raise £1,200,000 more  
than the national expenditure requires,  
Lord Cromer has worked miracles since  
he undertook the regeneration of Egypt.  
He has reformed the administration,  
abolished swindling, extortion, and pecu-  
lation, reconstituted the army, purified  
justice, and liberated the peasant popula-  
tion from practical slavery and constant  
robbery at the hands of local chiefs. He  
has tripled the beneficent power of the  
Nile, operated the industrial transforma-  
tion of the land, provided Alexandria with  
a modern system of drainage and water  
supply, made Cairo a brilliant and  
fashionable winter resort for cosmopolitan  
pleasure-seekers, and rescued the Soudan  
from the grip of the bloodthirsty savages  
who had terrorised these regions. It may  
be assumed that British rule in South  
Africa will produce equally satisfactory  
results in a much shorter time, the con-  
ditions being more favorable. There will  
be equal rights for all white men, security  
for industry and commerce, protection of  
the native races, and justice for all. The  
Boers themselves will be the first to bene-  
fit from the new regime—the honest  
Boers.

## NOTES AND COMMENTS.

—The Montreal Witness declares that  
the debate on Mr. Flint's prohibition  
resolution was unsatisfactory in the ex-  
treme, as it contained little else than  
party ranting and crimination.

—All efforts to solve the mystery of the  
Welland Canal outrage have so far failed.  
Theories are numerous enough, but no  
reasonable explanation has yet been given  
why anybody should seek to injure Canada  
in the way that was attempted.

—An Englishwoman of blessed mem-  
ory said one day: "You fuss over styles  
too much here, and you change them too  
often. We buy better goods than you do,  
and we wear our bonnets and our gowns  
until they are shabby. You are shiftless  
about clothes."

—An Irish-bred Clrdesdale sire is now  
on his way out to Canada. This is the  
station Scottish Celt, 10007, lately owned  
by the Messrs Montgomery, of Netherhall,  
but bred by Mr. O'Neil, at Kinsealy  
House, St. Doloughs, Co. Dublin, which  
has lately been sold for exportation to  
Canada.

—Commenting upon the muddling of  
the Canadian exhibits in Paris, Mr. Mc-  
Laren, M. P., who perhaps knows more  
about the butter and cheese business than  
any other Canadian, says that the great  
trouble with the Canadian arrangements  
is that the government has not sent  
enough experts to Paris, and has employ-  
ed too many party hacks.

—One curious effect of the war in South  
Africa has been little noticed. It has  
greatly affected the supply of ostrich  
feathers. It is estimated that there will be  
a deficiency of nearly £54,000 worth of  
feathers at the next sale in Mincing Lane.  
Over £900,000 worth are sold every year,  
making an average of £150,000 at each of  
the six sales.

—One of the most experienced and ac-  
complished officers of the United States  
navy recently remarked: "I can see noth-  
ing but foolishness in the idea of our  
giving up any of our present overseas hold-  
ings. We are bound by force of circum-  
stances, as I see them, not only to hold  
what we have, but to extend somewhat.  
The Islands of San Domingo and St.  
Thomas must be under the United States  
and I can see no escape from taking over  
the general management of a large part of  
Central America. This latter will be an  
inevitable outcome of an isthmian canal,  
though there are very strong reasons for  
our interference there in any case. I regard  
these changes as 'inevitable,' whether we  
wish it or not. I have been much in the  
West Indies, and this is, as I see it, the  
sure trend of events."

—Shortly after the Jameson Raid a  
Boer was loudly asserting that they could  
easily drive the English before them in  
headlong confusion. An Afghan, a resi-  
dent of Johannesburg, quietly remarked:  
"We understand the great English in our  
country. You people do not. Sometimes we  
have a little trouble, and they send a few  
men, and we wipe them out. A little time  
goes on, and they send another lot, and we  
wipe them out, and yet again we wipe out  
another lot, and we say we have finished  
with them. All this time the English  
have had a little book putting it all down.  
Then they add it up, and come to us with  
a great force and show us a little account,  
and say pay, and we have to pay. You  
have Laing's Nek—it's down in the little  
book. Majuba Hill—that's down in the  
little book. And Jameson's Raid—that,  
also, is down in the little book; and it's all  
added up now, and you'll have to pay.  
Ah! we know these English."

## STOCK GOSSIP.

### The Grits and Paternal Govern- ment.

ST.—When the Conservatives were at  
the head of affairs the grits were sorely  
grieved at what they were pleased to call  
the paternal policy of the government.

Now we have those same grits in office,  
and their fatherly care for the farmer and  
stock raiser is carried to the extreme and  
absurd extent of providing bulls and  
stallions.

As may be expected from such a set of  
blunders as the present Government are,  
their efforts in the stock-breeding lines  
are turning out to be a most disastrous  
business for some of its friends.

In a late issue of your paper the state-  
ment is made that some cattle owned by  
Mr. Rogers had been slaughtered on ac-  
count of their being diseased. The story  
would have been more complete had it said  
that the Avshire bull reported to have  
come from the Government Farm was so  
diseased that he died without the assist-  
ance of the butcher's knife, while a newly-  
calved cow in a still feverish state had  
been condemned and slaughtered. This  
is only given on "hearsay evidence," but  
if true the latter act is an outrage on  
dairymen's property which should not  
pass unnoticed.

If the Government makes as good a job  
of importing stallions as it does of breed-  
ing bulls the sooner it goes out of the  
"fatherly care business" the better it will  
be for its dutiful son.

FREETOWN.

## Canada's Charms.

Canada's charms are not too well-known.  
The grandeur of her lake and mountain  
scenery, the beauty of her rivers and  
forests and the charm of her summer cli-  
mate are all well illustrated and described  
in the "Tourist Number" (May) just issued  
by the Canadian Magazine. The colour-  
ed cover is quite typical and the hun-  
dred illustrations which brighten its  
pages give a comprehensive view of what  
the frontispiece is a reproduction of a  
typical scene in the Rockies and indicates  
very graphically the splendid scenes  
which delight the eye and mind of the  
traveller. There are reproductions of  
scenes in British Columbia, in the fa-  
mous 30,000 islands of the Georgian Bay  
Archipelago, of Muskoka, Niagara, the  
St. Lawrence, the Ottawa, the St. John  
River, and the cliffs and sand-dunes of  
Prince Edward Island with articles de-  
scribing each district.

Nor is this all. This number contains  
a bright Nova Scotian story by Professor  
Charles G. D. Roberts, special South  
African illustrations, "Heinrich Heine"  
by W. A. R. Kerr, "Twenty Years on the War  
Path" by Frederic Villiers, a bright story  
by Virna Sheard, "An Eastern Holiday"  
by Jean Blewett, "An Historical Naval  
Battle" by Dr. G. Archie Stockwell, and the  
usual short articles and departments.

This an excellent number for our patri-  
otic citizens to buy for the purpose of  
sending abroad to show the people of the  
United States and Europe what a beauti-  
ful country Canadians inhabit.

## PERSONAL

The German Emperor proposes to visit  
England this year. His Majesty may be  
expected at Cowes about August 2nd, in the  
yacht Hohenzollern, and he will, no doubt,  
resume his active interest in the Regatta  
week, during which time the Queen will  
be residing at Osborne.

## KIDNEY

A Disease Peculiar  
to Railroad Men,  
which is readily  
Cured by

### Dr. Chase's Kidney-Liver Pills.

Did it ever occur to you that most railroad  
men die of kidney disease?

Such is the fact, however, and the disease is  
known among railroaders as "railroad kidney."

The first and most marked symptom is weak-  
ness and aching back. You may think at first  
that you are only tired; but as this trouble in-  
creases day by day, kidney disease, with all its  
terrors, is fast claiming you as a victim.

Mr. Geo. Cummings, for over 20 years en-  
gineer on the Grand Trunk running between  
Toronto and Allandale, says: "The constant  
fatigue with my work gave me excessive pains in  
my back, racking my kidneys. I tried several  
remedies until I was recommended by my fire-  
man, Mr. Dave Conley, to try Dr. Chase's  
Kidney-Liver Pills. Two boxes have com-  
pletely cured me and I feel to-day a better man  
than ever. I recommend them to all my  
friends."

## THE MERCHANT OF VENICE.

(Barrie City Times.)

There was a good-sized audience at the  
opera house last evening to witness the  
presentation of "The Merchant of Venice"  
by the Lyceum Company. The presenta-  
tion was excellent in many ways and as a  
whole is to be highly commended. Shake-  
spearian plays are so seldom given now-  
adays they are in the nature of a novelty,  
but the Lyceum Company is success-fully  
giving a high-class performance of one of  
Shakespeare's best comedies, and they de-  
serve to succeed. The audience in at-  
tendance last evening was highly pleased  
and it is hoped the Lyceum Company may  
return to Barrie again.

The Portia of Miss Effie Hext and the  
Shylock of Edouard D'Oize were inter-  
pretations found only amongst the masters of  
play actors' art. Miss Hext has a perfect  
conception of the delicate, yet strong and  
persuasive character of Portia; its humor-  
istic pathos, its tenderness and its boldness.  
In the court scene she was particularly  
strong, and together with Mr. D'Oize as  
Shylock, brought down the house repeat-  
edly. The Shylock of Mr. D'Oize was  
a most admirable interpretation, combin-  
ing the plausible eloquence of the suitor-  
at-law with the crafty cunning of a legal  
money dealer.

MEDALS WILL BE GIVEN.—It is under-  
stood that should a soldier die in South  
Africa in the course of the present cam-  
paign, who, if he had survived would have  
been entitled to a medal, the War Office  
will see that such a medal is forwarded to  
the soldier's next of kin. This procedure  
is to apply to colonial troops and volun-  
teers as well as to men in the regular  
army.
