

Why is it that nearly all aged persons are thin? And yet, when you think of it, what could you expect? Three score years of wear and tear are enough to make the digestion weak. Yet the body must be fed. In Scott's Emulsion, the work is all done; that is, the oil in it is digested, all ready to be taken into the blood. The body rests, while the oil feeds and nourishes, and the hypophosphites makes the nerves steady and strong.

For Tickets, rates and information apply to W. W. CLARKE Agent, Charlottetown. H. L. CHIPMAN Canadian Agent, Halifax N. S.

**Of Special Interest to our Farmers**

**How Pigs are Raised by a Successful Breeder.**

In looking for a sire to improve my hogs I selected the large Berkshire as having the qualities I desired in a hog, namely; large litters of pigs and early maturity, and making fine hams, bacon and pork. In breeding, my aim is to have two litters a year, one in the first of March and one in the first of September. The spring pigs are fed and sold the last of September or first of October, and the fall pigs go into the April market. My aim in feeding is to make a pound of pork a day on each pig. Doing this and weighing the feed occasionally, I am able to determine when I am feeding at a loss. In describing my method of feeding I expect to be criticised, and this is just what I want to show my weak points, but as I have always had the best results by feeding this way, I still follow it. The first thing that we have to consider is the feeding and care of the brood sow. My sows run in the hog house which is double boarded and paper between. In one end of the house is a door, and that is always open so the cows can run out in the yard. In the opposite end, protected by a partition, the sows have their bed, which is cleaned out once a week, and a large double box of straw provided. We put in enough so the sows can crawl in out of sight. Their feed is bran and shorts, equal parts, fed once a day, and corn once a day. I always have a few squash and beets and some small potatoes, which I feed also. The sows are provided with salt, ashes and charcoal. February 15th, or about three weeks before we expect the sows to farrow we move them into the back barn, where we have pens for them 5 1/2 x 8 feet with fenders all around the pens, 8 inches from floor 6 inches wide. The doors in these pens swing out and close the alley, so that the sow can run right into her pen. The sows are fed night and morning in the pens, and are turned out in the yard in the daytime. Two days before I expect the sow to farrow, I shut her in her pen and give her about two bushels of short straw or chaff, and this is renewed every day till she farrows I give warm water, and after 12 hours I add a handful of feed and increase the feed gradually as the pigs need it. The third day I let the sows run out in the yard a few minutes, and keep increasing time every day till the pigs are a week old, and then let them out, too. This is to give the pigs exercise, so they will not get too fat. As soon as the pigs begin to eat, I put a trough in an empty pen with a hole for the little pigs to get in. I commence by feeding a little warm skim milk, and after they have learned to take this, I add some shorts. In this it is necessary to be very careful and not feed too much and give the pigs the scours. At the age of four weeks we castrate all male pigs intended for pork. The pigs bedding must be changed every day, and they must be kept dry. Increase the feed as they grow older, and at from nine to ten weeks wean them. After this I feed some skim milk with shorts, corn and barley meal. The milk is fed first and then the meal is fed dry. I feed just enough so the pigs will clean the trough out, and would still eat a little more. This I do so the pigs will take plenty of exercise and not get off their feed. The hogs run in the yard two or

three hours in fine days in winter and in summer have a clover pasture. After the pigs are six months old weigh about 200 pounds, I keep them in a large pen and do not let them out. I feed them all they will eat, corn meal with what skim milk I have I give all the water they want once a day. At this time they will eat one-tenth as much charcoal as they will corn, and I am certain it adds nearly that much to the value of the corn. As I don't want to make my hogs a ball of lard, I only feed heavy from 30 to 40 days, just enough to make the meat solid and firm. I sell my hogs to the local butchers and dress them myself. In keeping the hogs out of the mud and on a dry floor with plenty of dry straw I find they dress easier and look nicer when taken to market. —W. J. Tingley, Minnesota, in the Dairy Reporter.

**Shying in Horses.**

The vice of shying is one of the most annoying and dangerous, and many farmers cannot understand why horses shy in the first place, and why it is so difficult to break them of this evil and dangerous habit. They do not stop to reflect that shying is simply a revival of an old habit essential to the very existence of the horse when it ran wild on desert or plain. Every horse from colthood up was obliged to be on the lookout for an enemy. Were it not for its speed the horse would be almost as defenceless as the sheep. The only reasonable way to break a horse of this habit is to require it to stop when ever it shies and let it see that there is nothing to be afraid of. Man himself is not much afraid of anything he clearly sees and understands. It is the unknown, the mysterious that which comes suddenly and takes us unawares of which we stand in fear.—Rural World.

**IT'S TOO RISKY**  
To undergo an operation for itching. Piles when Dr. A. W. Chase's Ointment is a surer, cheaper, easier way to cure.

Cruel, barbarous methods belong to the dark ages of the past. There was a time when a surgical operation was considered the only possible cure for piles. Not so now. Occasionally there is still found a physician who adheres to this dangerous and expensive method, but to every one who still believes in using the knife, ninety and nine recommend the use of Dr. Chase's Ointment. Dr. C. M. Harlan, writing in The American Journal of Health, said: "We know that 'Dr. Chase's Ointment' meets all the requisitions of the highest standard of worth, that it will be held in high esteem wherever it is used, and consequently we endorse it to every reader." "By force of merit alone Dr. Chase's Ointment has won its way into this wide, wide world, until it has made the name of Dr. Chase familiar in almost every home, and won for the venerable discoverer the title of 'America's Greatest Physician.'" Dr. Chase's Ointment has never been known to fail as a cure for piles. It matters not whether blind, itching, bleeding or protruding. Dr. Chase's Ointment is an absolute and perfect cure. Dr. A. W. Chase's Ointment is the discovery of the author of Dr. Chase's Kidney-Liver Pills, and is sold by all druggists, W. W. Chase & Co., Toronto.

**PERFECTLY SATISFIED.**  
Listowel Gentleman who has no Complaint to Make Regarding Dodd's Kidney Pills.

Listowel, Ont., July 10—Mr. Thomas Tamblin of the firm of Tamblin and Clime, grocer, was lately a recipient of a communication from a gentleman in Toronto who is gathering statistics as to cures by Dodd's Kidney Pills. Some three years ago Mr. Tamblin was troubled with a weak back and severe pain in the kidneys. He used Dodd's Kidney Pills and his trouble was removed. The Toronto enquirer asked if the cure had been satisfactory. Mr. Tamblin took the letter and wrote on the bottom in a firm hand, "The cure was quite satisfactory."  
T. TAMBLIN.

**Weary of Experimenting**  
With salves, suppositories and ointments and deeding a surgical operation, scores and hundreds have turned to Dr. A. W. Chase's ointment and found it an absolute cure for piles. The first application brings relief from the terrible itching, and it is very seldom that more than one box is required in effect a permanent cure.  
There is a better half in every wedding—but the best man doesn't get her.  
Minard's Liniment is used by Physicians.  
Great Britain, the United States, and France represent one-half of the total wealth of all nations.  
Keep Minard's Liniment in the House.

is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.  
The evil that men do is soon forgotten—by themselves.  
HIS OWN FREE WILL

DEAR SIR,—I cannot speak too strongly of the excellence of MINARD'S LINIMENT. It is THE remedy in my household for buras, sprains, etc., and we would not be without it. It is truly a wonderful medicine.  
JOHN A. MACDONALD,  
Publisher Inpropr Chronicle.

A literary statistician declares that for the year 1898 eight novels a day were published, Sundays and holidays not included.  
Ask for Minard's and take no other.

**School Girls' Nerves**  
Many a pale, weak school girl, suffering the evil effects of an exhausted nervous system, and thin, watery blood, has been fully restored to the vigor and buoyancy of robust health, by using A. W. Chase's Nerve Food. The beautiful glow on the cheek and the brightness in the eye tell of the building up process which is taken place in the body.  
The average man who tries heroic measures gets a misfit.

**Rheumatism Can't Exist**  
When the kidneys are kept healthy and vigorous by the use of A. W. Chase's Kidney-Liver Pills. It is Uric Acid left in the blood by defective kidneys that causes rheumatism. Dr. A. W. Chase's Kidney-Liver Pills make the kidneys strong and active in their work of filtering the blood, and this removes the cause of rheumatism. One pill a dose, 25 cents a box.  
The annual interest charge on the Spanish national debt is \$125,000,000 and the total revenue is only \$150,000,000.

**Active Man Wanted.**  
To read this advertisement and then give Putnam's Painless Corn Extractor a trial. It never fails to cure. Acts in twenty-four hours and causes neither pain nor discomfort. Putnam's Corn Extractor extracts corns. It is the best.  
It is said that the soldiers who had taken Hood's Sarsaparilla stood the long marches in Cuba much better than the others.
