Earl Walls On Suspended List

EDMONTON, (CP)—The Edmonton boxing commission has placed Canadian heavyweight champion Earl Walls of Toronto on the "unavailable suspension" list of the National Boxing Association of America and the Canadian Boxing Federation until he honors a commitment to fight Freddy Beshore of Los Angeles here.

The commission announced its decision Thursday following a special meeting. It said the action was taken because Walls and his manager, Jimmy Jones, had repudiated their commitment to the commission and Edmonton promoter Jack Berry. Walls was scheduled to fight Beshore here Monday night but after he injured his hand in training he and his manager requested and received a postponement. Bobby Volk of Portland, Ore., last-minute substitute for Walls, was knocked out by Beshore in the second round of a scheduled 10-round bout before 2,500 fans.

Montague Shmohawks Win King's Co. Ch'ship

—The Montague Shmohawks captured the King's County intermediate B hockey championship last night at Montague when they defeated the Souris squad 11-4, taking the round 25-13. The Shmohawks will now meet either Milton or Cornwall for the King's Queen's championship.

Playing a first class brand of hockey, Montague out-played and out-passed the visitors to take command of the game from the first period. With classy passing plays, the locals pierced the Souris defense time and again to sweep in on the unprotected goalie who rose to great heights as he repelled many of their attacks. But such constant pressure was telling, and Montague routed the visitors in the third period scoring six times with only one return.

The play in the first two periods was more evenly matched, and Souris strove to regain the five points lost in the first game, but the local team and goalie withheld the attacks and held them off. Although fast and rugged, the game was played cleanly.

Westville Mine Accepts Order

MONTREAL, (CP)—The Drummond Coal Company of Westville, N. S., has accepted a new offer by the Canadian National Railways to ease the effect of the cancellation of a large order for coal, it was learned Thursday.

Recently the CNR cancelled the 14,000-ton remainder of a 40,000-ton coal order on the grounds that the Drummond coal was of too poor quality for use by the railway. The cancellation was discussed here Wednesday at a meeting of the CNR with representatives of the coal company and the Dominion coal board. The CNR told the meeting the cancellation order would have to stand. However, to give the coal company an opportunity to try to make other arrangements, the CNR offered to take 1,000 tons of coal a week from the company until the end of March. The company accepted the offer.

Father and Son T. B. Patients

LAFAYETTE, Ind., (AP)—Chuckie asks a lot of questions, even for a six-year-old.

"How long do fingernails last? daddy? Why have we got toes? Where does the sun go at night? Patently, his dad runs a 24-hour-a-day answering service. Most fathers take their turns at satisfying young curiosity, but for Robert Biggs it is an inescapable full time occupation.

Biggs and his son, Chuckie, share a two-bed ward in a sanatorium near here, undergoing treatment for tuberculosis. Dr. J. W. Strayer, superintendent of the William Ross Sanatorium, says it is the only father son combination he has ever heard of. Biggs, 36, learned he had tuberculosis last December when a mobile x-ray unit made its annual visit to the printing plant at Crawfordville, where he worked. Routine x-rays of Biggs' wife and three children disclosed Chuck had the disease. Doctors say Chuckie may have had it before his father.

Murray Hbr. Native Dies At Toronto

TORONTO, (CP)—Mrs. Mary Richardson, 72, a commercial traveller for 29 years, died here Thursday. The wife of William Richardson, she represented her husband's firm and as recently as 1953 she spent four months in western Canada. Born at Murray Harbour, P.E.I., she trained in a Boston hospital and later was engaged in private nursing in Boston and Edmonton. She is survived by her husband and two sisters, both in Alberta.

KING COLE COFFEE Best because it's always fresh!

Fifth Kings Member Condemns Poaching And Stresses Need Of Ferry

The disastrous results of lobster poaching and the need of a winter ferry connecting Georgetown and Pictou were stressed by Mr. George E. Saville, Liberal Member from Fifth Kings as he spoke on the Draft Address in the Legislature yesterday afternoon.

Mr. George E. Saville

"Unless there is something done to curb lobster poachers there will be a very great reduction of income in the lobster industry in a few years," stated Mr. Saville. "Lobsters are not as plentiful today as they were fifty or sixty years ago," he continued, "and the way things are going we will lose the industry completely."

"A few years ago Maine almost lost their lobster industry due to poachers, but the Government clamped down and that industry is worth tens of thousands of dollars today." He stated that the packers license should be limited to two months of the season where lobsterers were concerned. "The packers should have a license but it should be specified that they do not pack lobsters during the closed season."

"Fishing should be put on a legal basis. There is no worries about the market. The main thing is to keep the industry so that we can supply the demand," he stated.

"When these fisherman poach lobsters, and they are doing it down East, they are catching a fish every fisherman has a claim to. You can't eat your loaf and have it too," concluded the Member from Fifth Kings.

Speaking of the Georgetown Harbor, Mr. Saville stated "Georgetown Harbor is one of the most natural resources of Prince Edward Island. There should be a winter ferry running between Georgetown and Pictou."

"The lack of transportation to the mainland is a tremendous handicap to the people of Kings County," he continued. "We have nothing to carry our trade to Nova Scotia or Newfoundland and of late years our trade with Sydney has been decreasing."

"I feel sure that the Federal Government will provide a ferry at Georgetown during the next five years and as a result there will be a great financial improvement in Kings County ten years from now."

"We want the same consideration in the Eastern part of the Province as the people here in Prince County and people in the Province should stand together to obtain this need. I am quite confident that this Island can stand a population of several hundred thousand if we get the proper transportation system to move our products," he said.

Thanks Minister Mr. Saville thanked the Minister of Public Works and Highways for the consideration he had given to the Georgetown district last year. "This year I am able to talk about the tremendous amount of work done in my district," he stated.

The Member stated there were 197 miles of road in the district. "Of this amount nine miles have been paved and 106 have been sub-graded and either gravelled or covered with shale. There are 83 miles yet to be sub-graded or paved," he said.

He pointed out that the problem of winter roads is becoming more difficult every year but that last year there were only two days during which the roads in the Georgetown district were blocked.

Speaking about the ferry at Lower Montague and Georgetown he stated it had been running a long time and had once been a great service. "However, with the improvement of the roads and the use of large trucks to carry our produce that service has become increasingly less," he added.

"It costs about \$10,000 a year to maintain this ferry service and in addition the wharf at Georgetown will have to be repaired."

"I suggest that half the money be spent in improving the roads in that area. New roads could be built and new lands opened up so that fishermen could build homes on 10 or 15 acre plots and earn some additional revenue. I am going after the Minister on this angle this summer," he stated.

"The farmers don't like Daylight Saving Time and never

How to KEEP FIT after 50

In the old days fifty seemed the signal to slow down—like things easy—watch your diet—get more rest. It's still good advice. But these days you can face fifty with many interesting and active years ahead—active, that is, if you can avoid backache and the "tired-out" feeling, due to kidney and bladder disorders, that often develop in middle age. For more than 60 years Dodd's Kidney Pills have been helping men and women of all ages to keep kidneys and bladder in good order,—helping them to feel better, to work better, and get more fun out of life. If you are approaching fifty, or past it, Dodd's Kidney Pills may help you, too. You can depend on Dodd's. 54
