CCF Speaker Says Program Aimed At Publicity Splash

OTTAWA (CP)—A CCF MP suggested Tuesday the government's winter works program was designed to make a publicity splash but it didn't measure up to its advance billing. Frank Howard, Skeena, made the accusation as the Commons again debated a \$15,000,000 spending estimate to cover federal contributions of half the payroll costs of municipal winter works projects.

AMONG THE FARMERS

With present provincial interest in the question of hospital insurance it may be of some interest to note that the CFA in its annual brief presented to the federal cabinet last week suggested the following: 'We would request the federal government give leadership in encouraging the extension of hospital insurance to cover registered nursing home services, mental hospitals and tuberculosis sanitariums. Failure to do so extends this coverage is likely to be not only inequitable to many families and individuals, but to lead to uneconomic use of hospital space.'

OSLO, Norway (AP)—Norway's Princess Astrid, 27, will leave for a three-week stay in Phoenix, Ariz., a palace announcement. Wednesday said she will travel by Scandinavian Airlines System via the polar route. She will stop in Los Angeles before going on to Phoenix.

involved in the international farm organization and who has attended numerous national conferences. Their knowledge of international affairs should hardly be described as "casual". In any event Red China is a great deal closer to western Canada than it is to Prince Edward Island and it may possibly be easier for people in western Canada to come to an objective conclusion in this matter uninfluenced by ideological bias and irrelevant considerations.

FROZEN EARTH

This winter's continued extreme cold and snow-free ground has had the effect of driving the frost much deeper into the earth than has been the case for some years. An unhappy result of this continued cold is an epidemic of frozen water pipes and sewage disposal systems out of operation. For the farmer with a large number of livestock who is dependent on water piped from another point, freezing up can be a very great inconvenience in fact may even border on a minor tragedy.
