Speed-up In Annulments Seen Needed

VATICAN CITY (AP)—A retired archbishop said that Roman Catholic couples seeking to have their marriages annulled have to put up with interminable delays within the church hierarchy.

Msgr. Thomas D. Roberts, a Briton, said he felt that the most urgent of all needed church reforms is elimination of red tape in the tribunals deciding marriage annulments.

"We have reached a stage where the faithful are frequently told locally that delays in Rome are responsible for inaction, whereas Rome itself blames local authority," said the Jesuit prelate.

He retired as archbishop of Bombay in 1950 and lives in London.

Archbishop Roberts told reporters he made his proposals in a written statement submitted on the floor of the Vatican ecumenical council. He singled out church handling of marriage cases—cases where one party or both are seeking to have their marriage invalidated or annulled—as the worst example of delay in the church's investigative apparatus.

"There are thousands of young people for whom it is like waiting all their lives in a car for a red light to turn green," he said.

He suggested that the slow handling of cases by diocesan marriage tribunals and by the Roman Rota, the second-highest court at the Vatican, might prove to be one of the biggest causes of Catholics leaving their church.

Premiers Asked To Assist In Senate Study

OTTAWA (CP) — Provincial premiers are being asked to help the Senate's study of aging.

Senator David Croll (L—Ontario), chairman of the Senate's special committee on aging, has released the text of a letter to the premiers in which he asked for provincial government briefs within the next couple of months.

"This would provide a welcome opportunity for us to learn in detail about your principal programs in the interests of old people and also to exchange views about the nature and extent of the total subject we are endeavoring to investigate," he said.

Senator Croll outlined the committee's aims as "a comprehensive survey of the needs of older people in Canada and the services and opportunities available to them."

Art Treasures Found In Car

CHICAGO (AP) — An auto abandoned on a Chicago street has yielded a collection of Polish national art treasures stolen when the largest Polish-American museum in the U.S. was ransacked Sept. 22.

The treasures, received by FBI agents here, included personal effects of the late Polish premier, Ignace Padewrewski, and relics of Polish kings and leaders dating to 100 AD.

George C. Walters, curator of the Chicago Museum, said the only items still unaccounted for are gold chalices and a small cross once owned by Bishop Cieplak of Russia and Siberia.

Police traced the auto's registration to Brune Despenza, 21, of Chicago. They said he was one of five men released on bond earlier Friday after appearing on a burglary charge involving another break-in.

COMMANDOS LAND

JAKARTA, Indonesia (AP)—Indonesia has parachuted crack army commandos into the jungle bordering Malaysian North Borneo, the official Antara news agency announced Wednesday. It was the first reported parachuting of Indonesian troops into Borneo since President Sukarno's government began a military buildup in support of its opposition to the Malaysian federation, formed Sept. 15. Antara did not specify where the commandos were parachuted.

CONTRACT BRIDGE

1. The best line of play, after drawing trumps and cashing the ace of clubs, is to lead a club and finesse the jack. If the finesse wins, the slam is made, so let's assume the jack loses to the queen and a club is returned on which you discard a diamond.

Now cash the A-K of diamonds and ruff a diamond. If the suit is divided 3-3, dummy's last diamond becomes a trick on which a spade can be discarded, but if the diamonds are divided unevenly, you still have a spade finesse to fall back on.

This succession of plays offers the maximum number of opportunities of making the contract. Of course, all three possibilities may fail, in which case the slam is defeated, but if this happens, try some other game for a while.

2. The problem is to overcome the block that exists in diamonds and at the same time cater to the probability that North started with five clubs to the A-Q. The way to do this is to win the jack of diamonds with the king and return a club to the nine.

If North is kind enough to cash all his clubs, you will be able to dispose of a diamond on the fourth round of clubs and thus unblock the diamonds and make the contract. But if North sees through your plan and shifts to a spade or a heart after taking the nine of clubs with the queen, you force him back into the lead with the king of clubs.

North still can't afford to cash his other club, so he returns a spade or a heart. When he does this, you play the ten of diamonds and let South win with the queen, thus unblocking the diamonds. If South has a club to return, you make three notrump, losing three clubs and a diamond; if South has no more clubs, you make four notrump.

DAILY CRYPTOQUOTE — Here's how to work it:

A X Y D L B A A X E
is L O N G F E L L O W

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophies, the length and formation of the words are all hints. Each day the code letters are different.

THERE'S NEARLY HALF A MILLION POUNDS IN THE HALL, GURRIE!
NICE SMALL NOTES, TOO! JUST LIKE YOU PREDICTED!
COUNT OUT THE SHARES!
LOOK, PAL!
NEVER TEN MINUTES TO MAKE THE SPLIT BEFORE THE POLICE GET WIND OF THE HAUL AND COME LOOKING FOR US!
