N. S. Man Appointed Combines Commissioner

OTTAWA, Feb. 24 (CP)—Appointment of Thomas D. MacDonald, 41, former Deputy Attorney General of Nova Scotia, as Canada's chief combines commissioner was announced today in the Commons by Justice Minister Garson.

Mr. MacDonald, who has been in the Federal Department of Justice since last April, succeeds F. A. McGregor, who resigned Jan. 1 in protest over the Government's handling of his report on an alleged price-fixing combine in the flour-milling industry.

A lawyer by profession, Mr. MacDonald entered the Department of the Attorney General of Nova Scotia in 1933. He was appointed head of the Department as Deputy Attorney General in 1940 and, except for a period of war service, held that office until April, 1949.

Then he resigned to accept a position with the Federal Department of Justice as superintendent of bankruptcy and counsel in the Department. He was still in that post when appointed to the Combines Commission.

To Rule On Freight Rates March 1

OTTAWA, Feb. 26 (CP)—With more than \$40,000,000 a year in rail freight charges at stake, the Board of Transport Commissioners will rule March 1 on a railway application for higher rates.

The rate-regulating board, it was announced Saturday, will give a "final determination" on the application for a 20-per-cent rate increase made by the railways in the summer of 1948.

On that application, eight per cent was granted by the board last September as an "interim" increase pending further consideration. The March 1 decision will settle how much, if any, of the remaining 12 per cent the railways are to get.

Claims Tito Returning To Moscow Camp

PARIS, Feb. 24 (AP)—Former King Peter of Yugoslavia charged today that Tito has "practically returned to the group of Moscow satellites." The charge was made in a statement to the Agence France-Presse in a comment on Tito's recognition of the anti-French Ho Chi-Minh Government in Indo-China. Peter said he had private information from his homeland that Stalin and Tito are getting together again.

Eggs in Storage Show Reduction

MONTREAL, Feb. 26—Possibility of an increase in egg prices later in the year arose yesterday when a report was issued showing that accumulations of eggs in storage are substantially under the year ago comparisons, coupled with the fact that large producers are said to be cutting back production.

The marketing service of the Dominion department of agriculture reported that to the week ending Feb. 11, a total of 36,159 cases of eggs were stored compared with 88,485 cases to the same date in 1948. At that time the British food contract was in effect; today the British are taking no Canadian eggs.

Storing started earlier last year. In the two weeks from Jan. 30 to Feb. 11, 62,642 cases were stored against 38,499 this year. The Ottawa Government is committed under its price support program, to buy up surplus eggs at 38 cents a dozen for Grade A-large, plus the costs of storage, at the end of the 1950 season. However, trade sources believe that due to the drop in production, plus the increase in domestic consumption, the Government may find itself with only a relatively small quantity of eggs on hand.
