THE QUEEN'S BIRTHDAY

HOW IT WAS OBSERVED

Excursions to Pictou,

CRAPAUD, AND OTHER PLACES.

Football Match at Pictou.

THE ABEGWEITS' EASY VICTORY.

The seventieth birthday of Her Majesty the Queen was quietly observed on Saturday. With the exception of a slight cloudburst in the afternoon, which was, however, of short duration, the weather throughout was fine and cool. The public offices and other places of business were closed during the day, and there was a fair display of bunting from the different public buildings and stores and the shipping in the harbor. At noon the usual royal salute of twenty-one guns was fired from Fort Edward by a detachment from No. 2 Battery, G. A., under command of Captain Longworth. Every person who could get out of town made a point of doing so. At an early hour crowds could be observed wending their way in the direction of the railway station, Steam Navigation Company's wharf, and the different livery stables. Some were bound for Pictou, others on fishing excursions, and others again to visit relatives and friends. All were on pleasure bent, and all enjoyed themselves.

THE EXCURSION TO CRAPAUD.

Nearly three hundred people took passage in the steamer Princess of Wales for the excursion to Pictou. The run across was delightful, the water calm and everybody thoroughly enjoyed the passage. Pictou was reached at 12 o'clock, and, after partaking of an excellent dinner on board, or else at the Revere House, the excursionists proceeded to "do" the town. Quite a large number visited the Acacia Nursery, and brought home with them beautiful bouquets of flowers. At two o'clock a move was made to the grounds of the Pictou Athletic Club, where the match between the Abegweits and Pictou team was to be played.

THE FOOTBALL MATCH.

The following is the list of the team sent over by the Abegweits:—
Back—Alex. McDonald.
Half-backs—George E. Robinson, Percy McDonald, A. E. Ings, (Capt).
Quarter-backs—J. F. Whear, G. Rankin.
Forwards—A. H. McNeill, C. Leigh, Jr., F. W. Moore, A. A. McDonald, K. J. Martin, W. Matheson, R. H. McDonald, J. Ross, A. Harding.

Play was begun about half-past two. The Pictou Captain won the toss and elected to defend the northern goal, thereby gaining, during the first half of the game, the aid of a strong wind that was blowing diagonally across the field. The ball was kicked off for the Abegweits by Ings, and before it could be returned by the Pictou backs the Abegweit forwards were upon them and Pictou was compelled to rouse. The play continued for some time a succession of brilliant though unsuccessful runs by the Abegweit half-backs, followed by desperate scrummages along the Pictou goal line. This was varied by a fine attempt by Robinson at a goal from the field. As the ball soared high in the air it was thought that it would fall between the posts, but a strong gust of wind carried it to one side and the half-formed cheer died away from the throats of the Abegweits. But the monotony of rouses and scrummages was soon again to be raised. Percy McDonald got the ball and after a sharp run crossed the goal line closely pursued by four Pictonians. It seemed apparent, to every Abegweit at least, that Percy had sole possession of the ball when he crossed the line. But the Pictonians did not see the matter quite in that light, and a struggle, unequal numerically, for the possession of the ball began between the one Abegweit against four Pictonians. Excitement ran pretty high for a time, until the referee, who was not altogether clear as to the merits of the contention ordered it to cease and the ball to be taken out five yards and there scrummaged. Another try was also claimed by the Abegweits, but disallowed. On half time being called, no decisive advantage had been secured by either side, although the Abegweits had some minor points in their favor. On play being resumed, the Abegweits had the wind slightly in their favor. It was not long before Robinson, by the best run of the day, passed successfully through the Pictou forwards and half-backs and made a touch-down directly behind the goal. The ball was taken out by the Captain and a goal kicked by Leigh. Heretofore, the Abegweits have been content with one goal, or even a try in the course of a game, but they were not so easily satisfied on Saturday. In a very few minutes after the first goal was made, Robinson, by a drop kick from about the twenty five yard line, made the second goal for the Abegweits. This was unprecedented. But the record was to be still more completely broken. After a number of runs by the half-backs the ball was sent into touch a few yards from the Pictou goal line. On the throw-in Reginald Macdonald secured the ball, and by a sharp dash made another try. This was easily converted into a goal by Leigh. The game soon after terminated in a victory for the Abegweits of three goals and several minor points to nothing.

D. H. Robinson umpired for the Abegweits and Dr. Stewart acted as referee. Other matches which had been arranged for Friday, fell through owing to the Charlottetown excursion having been changed to Saturday. A match was played on Friday between the Pictou and Westville teams, with a goal in favor of Pictou.

THE RETURN TRIP.
The steamer left at 5 o'clock on return. When half way out of Pictou harbor, it was discovered that several passengers were left behind on the wharf. In answer to their signals the steamer was slowed up, and they were brought off, some in a tug and some in a sail-boat. They were received on board the steamer with cheers of welcome which were not so much appreciated as their heartiness deserved. After tea the young men on board, headed by our lusty football champions, started some songs. It was now beginning to be rough, and whether it was the troubled ocean or the songs, or both, it soon came to pass that the decks were cleared of a number of passengers. There was not very much sea-sickness, although some of the fair sex did not reappear until the voyage was ended. So between singing and joking, and music from the Band of the 82nd Battalion, the five hours passed quickly. At ten o'clock the steamer touched the wharf at Charlottetown and landed its load of passengers, some of them tired, some of them sick, but all well pleased with the manner in which they had spent the seventieth anniversary of the birthday of Her Most Gracious Majesty Queen Victoria.

BOATING ACCIDENTS.

The excursion to Crapaud in the afternoon was also a very pleasant affair. The Heather Belle left Steam Navigation Company's wharf at three o'clock with a goodly number of people on board, and returned shortly before ten in the evening. The sail was thoroughly enjoyed.

BOATING ACCIDENTS.

Boating was indulged in to a considerable extent during the day. Several upsets are reported. One boat capsized off Rocky Point about noon, and the five occupants clung to her for about an hour when a boat from a schooner put out to their assistance and took them off. One of the number lost his boots and another his coat. Their stock of refreshments also came to grief. Another boat capsized off Peako's No. 2 wharf later in the afternoon, and for a time there was a profusion of dry goods clerk and private picnic supplies floating about. Several other accidents of a similar nature are reported, but fortunately, no lives were lost. Three young lads left early in the day on a fishing excursion to Johnstone's River, but, becoming afraid of the weather, on their way home put in for shelter at a farm-house, above Fullerton's Marsh, where they remained all night. Their parents, of course, did not know what delayed them, and their feelings can easily be imagined. But the lads turned up all right yesterday morning.

A FISH STORY.

A merry party of ladies and gentlemen passed the day fishing at a well-known resort not a dozen miles from town. One story is to the effect that the total catch of the ladies consisted of a flat-fish, pin-fish, cobbler and gudgeon, and that of the gentlemen of—a curtain lecture each. The other is that the fish fought shy of the pond during their stay and they didn't even get a bite. The latter story is probably correct. Ladies, as a class, are more expert at angling for another kind of fish.

THE DAY AT GEORGETOWN.

A royal salute was fired from this port by the boys, under command of Lieut. Stewart, and by the Artillery Company under Captain Owen. The boys used a brass cannon generally placed at their disposal by Capt. McLaren, of Her Majesty's cruiser Critic, and handled it very well for their first attempt. After this, these loyal boys, who compose the Georgetown Band, played the National Anthem; and, perhaps, in no part of the Empire were the strains more cheering and patriotic. It is well to see these growing hopefuls do their part to bind stronger the chain—even if in sentiment alone—that unites us to the mother land. They also played several choice selections for the pleasure of the citizens. A few flags were given to the breeze, and the Critic was gayly decorated with bunting. Some enjoyed a boat sail in the harbor; others drove into the country, which is now looking delightfully green.

NOTES.

Isn't it about time we had an excursion from Pictou on the Queen's Birthday or Dominion Day? A number of very pleasant private picnics were held at Rocky Point and elsewhere during the day. What about a return match between the Abegweit and Pictou teams, on Victoria Park, on Dominion Day? It would draw. This everlasting "excursion to Pictou" is becoming monotonous. Let the next excursion be to some of the outports on the Island. Many people would appreciate the change.

NAUFRAGE HARBOR.

SIB.—My attention has been called to a letter in yesterday's EXAMINER under the above heading and signed "Monticello." As I sometimes correspond over that name, the impression was that I must have been the author of the letter in question. I take this opportunity to say that I can lay claim to no such honor.

Yours, J. O'BRIEN.

May 24th, 1889.

She—"I like you George, but—" He—"But what I love?" She—"Why, all the girls know I never had a beau before, and they would tease me to death if I accepted any first offer."

FISHING GEAR.—We have the largest and best assortment of hook flies, casting lines, and hair lines, gut hooks, fishing baskets, etc., etc.—Geo. E. Hughes, Apothecarie's Hall.

Local and Other Items.

TO COMMENCE.—The Mount Stewart Hall Company will have a tea party at Mount Stewart, on Wednesday, the 26th day of June. Remember to look for advertisement.

MACKEREL SCARC.—The Yarmouth Times says: "A few mackerel are being taken in the traps and nets, but the fishermen do not feel much encouraged by the outlook at present."

The entering wedge of a complaint that may prove fatal is often a slight cold, which a dose or two of Ayer's Cherry Pectoral might have cured at the commencement. It would be well, therefore to keep this remedy within reach at all times.

A PROGRESSIVE CITY.—The Sydney C. B. Reporter says: "The town council had a meeting yesterday morning, and elicited the surprising fact that more than 120 citizens had signed a petition that cows be permitted to roam and graze about the streets."

TEMPERANCE.—The semi-annual meeting of the grand division, sons of temperance, of New Brunswick, shows an increase in membership for the six months of 368. The number initiated was nearly 1,300, but nearly 300 withdrew and 500 were suspended.

The prevalence of scrofulous taint in the blood is much more universal than many are aware. Indeed, but few persons are free from it. Fortunately, however, we have in Ayer's Sarsaparilla, the most potent remedy ever discovered for this terrible affliction.

MORE "BLUE RUIN".—The Transcript reports that the value of land in Moncton is going up at a surprising rate. Two years ago the owner of a lot on Lutz street, 50 by 100 feet, and situated about 100 yards north of St. George street, offered it for \$400. To-day an intending purchaser was informed that he could get the land for \$800.

CANADIAN CATTLE THE PREFERENCE.—Says a London despatch: "The hot weather has caused a great glut of United States cattle at Liverpool and 1,500 are held over, while nearly 2,000 will arrive in the next few days. The first Canadian cattle proved of extra good quality, meeting a ready sale at fair prices. The Canadian being free of disease were allowed to go forward to the country market alive, and thus have upwards of ten dollars per head advantage over United States cattle. The imperial authorities are rigidly examining the arrivals of Canadian stock."

ADVICE TO MOTHERS.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural quiet sleep by relieving the child from pain; and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup, and take no other kind. (April 1 '88)

Railway Mishaps.

On Saturday morning last, as No 2 locomotive of the C. R. and C. Co., was hauling duff for ballasting on the Springfield and Oxford R. R., she ran against a tree that had fallen or had been placed across the track near Salt Spring. The locomotive and tender were seriously damaged. No one was injured. If the cars had been loaded, the locomotive and train would probably have gone over a steep embankment with consequent disastrous results.

There was quite a serious accident at Pettoctidoc on Wednesday morning. An engine of the Pettoctidoc, Elgin and Havelock road was doing some shunting on the Elgin side of the I. C. R. main line, but was unable to clear the switch and came in a side collision with conductor Colley's special from Moncton, which was passing on the I. C. R. main line. Four flat cars of conductor Colley's train were thrown off the track and the tender and cab of the Elgin road engine were smashed. Driver Killam of the Elgin road, who was in his engine, was slightly hurt.

Personal.

Old men are in a state of decay, rapidly increasing with every year; and they must take this fact into the account in what they attempt to do.

Mr. Gladstone, who was offered by a newspaper syndicate the handsome sum of \$25,000 for a series of twenty-five articles on subjects of current interest, showed his good sense in declining the offer by saying: "At my age the stock of brain power does not wax, but wane. And the public calls upon my time leave me only a fluctuating residue to dispose of. All idea of a series of efforts is, therefore, I have decided, wholly beyond my power to embrace."

Summerside Exports.

Summerside, May 22—Shipped per steamer St. Lawrence, Cameron, master, for Point du Chene:

129 cases eggs.....	\$164
95 bags potatoes.....	52
20 cattle.....	800
1 carcass beef.....	50
1 box fowl.....	3
