THE BEAUTY OF CHILDREN.
A WORD TO MOTHERS.

There is no object in the world more pleasant to look upon than a beautiful child. Even the crustiest of old bachelors must acknowledge this in his heart, however appointment may have scoured his temper. Unfortunately, however, the freshness and natural bloom of childhood are often marred by disfiguring disorders. Sometimes we see youthful faces blemished with fiery circles, and looking as if Disease had been at work upon them with a pair of compasses dipped in red ochre. Of course every mother recognises this description of RINGWORM, to which the still more disgusting cutaneous affection known as SCALD HEAD is next of kin. Probably nine-tenths of us have had a touch of these unpleasant eruptive complaints at one time or the other, and most of us know that they are not only disfiguring, but excessively annoying and painful. We are aware too, that, most of the nostrums recommended for them merely spread and aggravate inflammation, and that it frequently leads to confirmed disease of the skin. Under these circumstances, it is to be presumed that all parents who are not conversant with the wonderful properties of HOLLOWAY'S OINTMENT will be glad to learn, on good authority, that, it is a quick and thorough remedy for RINGWORM and SCALD HEAD, as well as for other external diseases. The testimony which goes to establish the fact is incontrovertible, and every mother who wishes to see the faces of her darlings unclouded by eruptions, and their heads uncrusted with excrescent matter, is entitled to know it.

Professor Holloway has obtained such a reputation through the world for his external and internal remedies, that his name must, of course, be familiar to our readers; but, after all, there is no harm in giving extra force to general commendation by specifying many diseases in which one knows that they have wonderful effect. The effect of the Ointment in cases of RINGWORM and SCALD HEAD is but a specimen of its marvellous operation in all skin diseases, yet, we dare say, there are many who have used it for boils, bruises, blotches, &c., &c., we have scarcely thought of it with reference to these two diseases of childhood. If any mother should try it on our recommendation we have little doubt she will give it a prominent place in her nursery closet for some time to come. Much may be done to prevent the ordinary diseases of children by proper diet, strict cleanliness and regular exercise in the open air; but after the disease has actually developed itself, there is no curative equal to HOLLOWAY'S OINTMENT.
