Mills; Vice Do., Hugh Findley; Secretary, ... Angus McLeod; Treasurer, Norman McDonald; Librarian, John J. Fletcher. Committee:—Wm. Findley, Chairman, John R. McLeod, John Fletcher, Neil McLeod, and Alex. McDougall.

The opening lecture for the season was to be given by our friend D. A. W. Kennedy; but he failing to appear, the platform was occupied by Mr. E. B. Smith, who agreeably entertained the audience for a considerable time on the "American Question." The lecture was well received. An animated discussion ensued, and much information was elicited from the lecturer. The Society tenders its thanks to those gentlemen who so kindly gave it lectures last year, and begs to state that lectures will be as thankfully accepted as usual.

(Report of Committee for 1862.)

One year has now elapsed since our Institute was organized; it has been to us a year of prosperity; our expectations have been realized. Although obstacles have stood in the way, our Society still exists, and bids fair for a long and prosperous life. The departure, to other parts of the world, of our esteemed friends, the Secretary and Treasurer, to pursuits more congenial to their desires, is an event which this Institute must deplore. Yet this loss will be compensated for by the accession of a staff of new and promising members. Viewing matters in all their bearings, we look forward with hopeful anticipations.

During the past year we have had quite a number of instructive lectures; and, in the absence of those, our evenings were taken up with recitations and profitable discussions. Your Committee would recommend that evenings for recitation would become more frequent, as it is calculated to confer much good on both actor and listener. The library established in connexion with this Institute has succeeded remarkably well; and when your new supply of books shall be received — which will be before long — our library will present a respectable appearance. The consequence will be that it shall be more highly prized, and finally be a great good to the community. Resigning all into the hands of our successors, and wishing the Institute a long, happy and prosperous existence, we subscribe,

J. H. FLETCHER, Chairman,
ANGUS MCLEOD, Secretary.

THE JEWLERY OF THE WASHINGTON NUPTIALS.—The jewlery of Miss Chase's *strousseau*, from the superb engagement ring, about which some intrusive paragraphist made an item some weeks since, down to the smallest shawl-pin of the outfit, has been for weeks a subject of deep speculation among the ladies. To enumerate the items, or give a detailed description of each, is consequently superfluous. The jewelry worn upon that bridal occasion consisted of a tiara of pearls and diamonds, and a bracelet and pair of ear-rings of kindred material. The tiara has for a base a line of pearls of exquisite symmetry and exceedingly rare color. This is shaped cunningly to fit the lady's small head, swelling as it advances from either ear into a beautiful garland of orange leaves and blossoms, formed of the precious matters before suggested, and meeting at the front in a deftly-tied bow of brilliants, upon which rests a marvellous pearl in size and orient well worthy the old Roman appellation *unio*. By a dexterous mechanical *coup*, this tiara is so fashioned as to furnish, as need may be, four distinct ornaments; in the first place, the true lover's not detached, and with its dazzling diamonds and its mammoth pearl, the largest in America, forms a unique brooch. Next, the garland separates into two graceful sprays, available as head ornaments when the whole tiara is not requisite. Finally, the base line of pearls leaves its ribs of gold and becomes a necklace. The bracelet is a circlet of five rows of pearls of exemplary beauty, meeting in a head of diamond open work bearing a *Maltese cross* of brilliants which enclose a very rare pearl. The ear-rings are pear-shaped pearls, mounted in small brilliants. Since the famous diamond wedding of the Cuban magnifico, no such jewelry has been worn.—*N. Y. Times*

GIANT STRIDES IN THE NINETEENTH CENTURY.

It *is* a world of wonders nobody can deny, we take up the *periodical* of the day with the expectancy of reading some new theory or discovery, *as well as seeing news in the abstract. The* transatlantic electric cable, at the time we write, is fast expanding from its central point in mid-ocean to its two "termini" on land, to link the hemispheres; but at the same time that we justly look upon this as a convincing proof of the great "march of intellect," we must not lose sight of another and no less great palpable evidence of what a giant intellect, single handed, can accomplish. Thomas Holloway, whose name (as the great medical dictator of the present age) it needs no submarine telegraph to herald from one clime to another, has, by means of his two remedies, a *Pill* and an *Ointment*, long established a chain of communicating agencies around the globe, without having recourse, however, to the aid of electricity or a metal wire. As the poet has designated man to be but "*a link in the great chain of causation*," so may Holloway be said, through the instrumentality of his all-powerful remedies, to have organized a *Universal Dispensary* for the sick of all nations without regard to creed or colour, whether civilized or savage, simple in their all-sufficiency, and within the reach of all.

What has led to these remarks at the present was a visit we paid some time since to Dr. Holloway's establishment, and the inspection with which we were then favoured of some of the innumerable proofs of his vast enterprise, from which we deduced the almost inconceivable extent to which his labours have extended, and the consequent universal acceptation of his twin remedies as specifics for internal and external disease—pages might be written in adducing proofs of this, but one will serve to elucidate the fact in the present instance sufficient to convince the most sceptic. In proportion as countries are distinct and diversified, so are the means of reaching all the scattered members of the human family difficult to accomplish. *To do this*, it would be necessary to employ an almost "Penticostal" array of different tongues. Accordingly, in almost every living language has this enterprising man made known his mission to suffering humanity, and in no less than thirty distinct dialects have the wondrous properties of his medicines been actually printed, thus in their own tongue enabling millions to apply to their own peculiar cases these all-powerful curatives.

Such "*Giant Strides*" as these show the possibility of *one* master mind successfully competing with the capacities of hundreds backed by science itself. We then say to such of our readers as may be labouring from weakness and debility, or whose liver and stomach are disordered, or those whose blood is impure, go and procure some of the Pills,—as, by their means, there will be found health for all.—*Temperance Courier.*

PARIS.—Of the hundreds of elegant seats put up all over the city for the repose of the public, I have not seen one disfigured by a penknife. From one end of the town to the other, everywhere, the choicest flowers are blooming with only a barrier a foot high around the beds, and yet not a single plant or flower is ever touched. Paris has become the best lighted city in the world, and will soon be if it is not already, the best ventilated. Its drainage is known to be nearly perfect. The policemen are not ruffians, but as civil as gentlemen-ushers of the black and white rod. In the most polite and civil manner all your enquiries are answered, and every reasonable assistance is rendered if you get into a strait. If an Englishman should tumble into a gutter in returning from an evening party, he would be lifted as by the gentle hand of the good Samaritan, and placed upon his own beast.

Twenty thousand pounds is the modest sum demanded by the London clergyman whose dometic peace Lord Palmerston has invaded. The lady is said to be young, pretty and charming.

WELL REPRESENTED IN THE ARMY.—The city of Baltimore discovered the other day that since the war commenced one woman has received every month the city bounty for two husbands.

HOLLOWAY'S OINTMENT.—*Agonizing Pains.*—It is gratifying to hear sufferers recount the ease they derived when first they applied this Ointment to their ulcers, sores, or abscesses, with which they had been afflicted for years. Soon after its application to a bad leg or inflammatory ulcer, it restrains the excitement of blood-vessels and nerves, which at once brings coolness and comfort, and furthers the gradual deposits of healthy materials to fill up the ravages caused by violence, debility, or disease. It expels all noxious matters, and heals all sores soundly. It gives ease to varicose veins, bad legs, and swellings of the feet and joints, when the agony is almost unremitting and the pain too much for a giant's strength.

SPEEDY AND EFFECTUAL.—Rev. Robert McLain, Enterprise, Miss., writes—"I have used Mrs. S. A. Allen's World's Hair Restorer, and pronounce it an effectual and speedy restorer of the hair to its original color. It effects the desired end without injury to the hair or head. The Hair Dressing I consider the best ever used in my family."

If consistent piety, uniform kindness as a husband and father, uprightness and integrity in business transactions, and abundant but ostentations liberality to the suffering indigent, are worthy of praise, the deceased will long remain gratefully embalmed in the memory of his survivors.

At Strathalbyn, Lot 67, on the 19th instant, after a brief but painful illness, which she bore with unmurmuring patience and resignation to the Divine Will, Margaret, the beloved wife of Mr. Malcom McLeod, in the 62nd year of her age, much and deservedly beloved by all who had the pleasure of her acquaintance.

In the Barracks of Charlottetown, on Tuesday, 26th November, of disease of the heart, after a long illness and a great deal of pain, borne with more feeling for his offspring than himself, Sergeant Thomas Bennett, Pensioner, a native of Baunagher, King's County, Ireland, in the 67th year of his age. He enlisted in the 30th Regiment in 1819; volunteered to the Royal Newfoundland Companies in 1834, and came to this Island and became a pensioner about the close of 1843, having served 24 years and 10 months in the British army, a non-commissioned officer the whole time, from the month of his enlistment—highly respected by his officers, comrade sergeants, and all others who served with him or knew him. It will be some consolation to his friends to know that he retained his senses to the last, and that his attention, although suffering much pain, was elevated in the noblest way, so that

He view'd in contemplation
The Almighty One in Three,
Sitting in the highest station
O'er vast Infinity:
On a throne of grandeur founded,
By a power that is unbounded,
By a host of choirs surrounded,
Pleased with choicest melody.

[From the Richmond Whig.]

The Charleston 'Courier' makes a timely suggestion in recommending the attention of our government to the naturalization and cultivation of Calisaya, for the preservation of the health of our soldiers. This article has a peculiar effect upon the liver, and guards the system against disease by exposure and irregular diet. It is said that the great success of the Plantation Bitters of Dr. Drake, which, previous to our unhappy difficulties was found in most Southern homes, was owing to the extract of Calisaya Bark which it contained as one of its principal ingredients.—"In confirmation of this, we have heard one of our most distinguished physicians remark, that whenever he felt unwell from ordinary dietetic or atmospheric causes, he invariably relieved himself by Plantation Bitters. Now, that these Bitters cannot be obtained, a substitute should be prepared.—We understand our government has opened negotiations with Dr. Drake through a secret agent, but with what truth we do not know." * * * *

We are exceedingly obliged to the Richmond 'Whig' for its remembrance of "Auld Lang Syne," but we can assure "Our Government" that the Plantation Bitters are not for sale to any "secret agents," North or South. There is probably several *other things that "Our Government"* will yet want.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

Physicians are compelled to recommend it.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI, King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhœ, Colic, and diseases of the stomach and bowels.

DANDELION.—For Inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also, clove-buds, orange caraway, coriander, snake-root, &c.

S.—T.—1860—X.

Another wonderful ingredient, of Spanish origin, imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

Humbugs and quacks howl about the Plantation Bitters; but the following is what's the matter, and they know it:

PLANTATION BITTERS WILL CURE
Cold Extremities and Feverish Lips.
Sour Stomach and fetid breath.
Flatulency and Indigestion.
Nervous Affections.
Excessive Fatigue and Short Breath.
Pain over the Eyes.
Mental Despondency.
Prostration, Great Weakness.
Sallow complexion, Weak Bowels.
LIVER COMPLAINT AND DYSPEPSIA.

Very particularly recommended to Clergymen, Merchants, Lawyers, and persons of sedentary habits. Also for delicate females and weak persons who require a gentle stimulant, free digestion, good appetite and clear mental faculties.

Sold by all respectable Physicians, Druggists, Grocers, Hotels, Saloons, Country Stores, &c.

Be particular that each bottle bears the fac simile of our signature on a steel plate label, with our private government stamp over the cork.

Stoves! Stoves! Stoves!

New and Improved Style.

For Economy, Comfort and Cheapness, can't be beat.

JUST RECEIVED at ORWELL CHEAP STORE, a new Stock of the almost everlasting Yarmouth, N. S., STOVES — with Single and Double Ovens for Cooking. ALSO,

Large and Small Franklin & Box Stoves, For School-houses, Churches, &c.

They will be sold on favorable terms, if taken during this month, so as to make room for other Fall Supplies. In use, they will save over other Stoves one half in firewood, besides much valuable time, which is equal to money. They have given general satisfaction to all parties who have used them for the last five years, and who are ready to testify to their usefulness. The readiness with which they impart great heat, has been remarked by all who use them, and in old dwellings as well as new have been productive of great comfort, while they do not cost more than the old brick or stone chimneys, which take up so much room, and are now being generally thrown down. They are supplied with large metal Boilers, very useful for dyeing purposes, making soap, or preparing food for cattle, and can be kept constantly in use, at a very small cost for fuel, and without the least risk from fire In short, the great advantages to be derived from these wonderful, celebrated, and unsurpassing STOVES can only be known from a trial of them; and farmers and others are now invited to come and select for themselves, before the cold winter sets in upon them.

The present Stock of STOVES have the new and Improved OVENS, that can be cleansed without risk of moving them. This is a decided advantage lately added; to be had at the ORWELL CHEAP STORE, cheaper than the cheapest Country Store on the Island, where the greatest variety of GOODS may be found, from a NEEDLE to an ANCHOR, both included.
