"VISIT PRINCE COUNTY" — Mr. and Mrs. Jack Annear, Lower Montague and Mr. and Mrs. Lorne Wigginton, Montague, motored to the western part of the Island during the past week-end. Leaving Saturday, they spent the night in Summerside and Sunday morning left for Alberton and Pictou, which has some beautiful scenery, such as the Cape Egmont. While in the vicinity of Tryon they visited a number of relatives.

The regular monthly meeting was held in the United Church Hall, Souris, recently, with thirteen members present. The president, Mrs. A. J. Paquet presided. The meeting opened with the minutes of the August meeting by the secretary, Mrs. Kassner, followed by the treasurer's report by Mrs. M. J. McQuaid.

The buying committee reported having ordered two bolts of sheeting and unbleached sheeting for draw sheets. The sewing committee had nothing to report. This was followed by a discussion on the canteen for the Exhibition Sept. 13, 1950.

Now! Proof that BRUSHING TEETH RIGHT AFTER EATING WITH COLGATE DENTAL CREAM HELPS PREVENT TOOTH DECAY!

2 Years' research by LEADING UNIVERSITIES proves that test groups brushing teeth right after eating with Colgate Dental Cream showed amazing reduction in tooth decay!

Under the direction of eminent dental authorities, one group of college men and women always brushed their teeth with Colgate Dental Cream right after eating—while another group followed their usual dental care. The average of the group using Colgate's as directed, and using Colgate's exclusively, was a startling reduction in the number of new cavities—far less tooth decay. The other group developed new cavities at a much higher rate.

Research shows that decay is caused by mouth acids which are at their worst after meals. When you brush your teeth with Colgate's right after eating, you help remove mouth acids before they can harm enamel.

FURTHER PROOF FROM SCHOOL CHILDREN

Leading Canadian dentists examined and directed over 8,000 school children in corrective dental habits. In addition to diet changes where required, the children were asked to brush their teeth after each meal.

The results! 16% fewer children with tooth decay! . . . Cavities dropped from an average of 5 per child to just over 3! . . . 33% more children received dental care that prevented either loss of teeth or serious dental troubles later in life! . . . The number of children with no defects—increased by 200%!

HELP YOUR CHILDREN AVOID TOOTH DECAY! Insist that your children always brush their teeth right after eating with Colgate Dental Cream. They'll love Colgate's delicious double-minty flavor, so it's easy to get them to use Colgate's correctly.

ALWAYS USE COLGATE DENTAL CREAM right after eating HELP PREVENT TOOTH DECAY
