LETTERS TO THE EDITOR.

The Bishop at St. Paul's.

Sir,—The editor of the Guardian, speaking yesterday of "one of the ablest addresses" of the Lord Bishop of Nova Scotia, says—"It was not, however, exactly the teaching St. Paul's congregation have been accustomed to, being practically an exposition of the doctrine of Baptismal Regeneration—that when a child is baptized it then becomes regenerated, a child of God and an inheritor of the Kingdom of Heaven." It is presumed that the congregation of St. Paul's Church, being of the Church of England, uphold her doctrines, and that the clergy of St. Paul's being loyal sons of the same, teach unflinchingly the doctrines of the Church of England. How then can the doctrine of Baptismal Regeneration, as expounded by the Lord Bishop of the Church of England in this diocese, in the sense referred to above, be new to St. Paul's congregation when I read from the Baptismal Service as follows:—

"Dearly beloved, for as much as all men are conceived and born in sin, and that our Saviour Christ with none can enter the Kingdom of God except he be regenerate and born anew of water and the Holy Ghost: I beseech you to call upon God the Father, through our Lord Jesus Christ, that of his bounteous mercy he will grant to this child that thing which by nature he cannot have, that he may be baptized with water and the Holy Ghost and received into Christ's Holy Church and be made a lively member of the same."

This undoubtedly states that the child is not yet regenerate, that he may become regenerate and born anew of water and the Holy Ghost, and prays that such a result may be granted by Almighty God, who in the collects following is addressed as "who by the baptism of Thy well beloved Son, Jesus Christ, in the river Jordan, didst sanctify water to the mystical washing away of sin," and is petitioned as follows: "We call upon Thee for this infant, that he, coming to Thy Holy Baptism, may receive remission of his sins by spiritual regeneration and enjoy the everlasting benediction of Thy heavenly washing."

In due course, the priest, blessing the water to be used, prays God to "sanctify this water to the mystical washing away of sin," and, after baptizing the child, says, "Seeing, now, dearly beloved brethren, that this child is regenerate." The catechism states of baptism, "Wherein I was made a member of Christ, the child of God, and an inheritor of the Kingdom of Heaven." From this it is plain that whether the Church of England is right or wrong, she undoubtedly does teach "that when a child is baptized it then becomes regenerate, a child of God, and an inheritor of the Kingdom of Heaven"; and this being so, it follows that if it is a new doctrine of the congregation of St. Paul's, they have not been properly instructed in the doctrines of the Church of which they profess to be loyal children.

CONSISTENCY.

"A Famous Canada Dairy Farm."

Sir,—This is the heading of a brief sketch which I ask you to reproduce from the American Agriculturist for October, of what is probably the most noted Dairy Farm in the Dominion. The cuts of the small private dairies in the Province, each of which turns out a limited quantity of very excellent butter, the enterprising proprietor of East View Farm, in Charlottetown, is so far as the writer knows, the only person who is moving in the direction indicated on lines calculated so insure success. Mr. Brow is building upon a thoroughbred Guernsey foundation, and from a small beginning made a few years ago, he has now a nice herd of valuable animals that share with the Jersey the honor of being the greatest butter-producing breed in the world.

At the recent Provincial Exhibition here there were several specimens of very fine Jersey and Guernsey bulls, but the low prices at which some of the owners of the former offered their animals for sale would seem to indicate a lack of appreciation in the section of the country whence they came. This is not as it should be, for if the Province is to prosper in future it is by the great bulk of our farmers abandoning without delay the methods of the past, and having recourse to dairy farming instead. And standing at the head of all dairy breeds is the Jersey, small in bulk, it is true, but besting the world in the production of high-class butter, for which article a remunerative market will always be found. If some enterprising dairyman would bring to the Province some of the blood with which Mrs. Jones has had such unbounded success, the investment could not fail to benefit the community. F. J. Brow is the sketch above referred to:—

"Near Brockville, on the Canadian side of the St. Lawrence river, just below the beautiful Thousand Islands, is Belvidere, the famous Jersey dairy farm of Mrs. E. M. Jones. The owner is a practical business woman, managing the farm herself, being able, should necessity arise, to milk, separate the cream, churn, work the butter and prepare it for the regular customers. By strict personal supervision and atten-

tion to every detail of the farm, the dairy and the market, Mrs. Jones built up such a reputation for her butter in the New York market that it was eagerly bought at \$1 per pound. But at present the increased tariff causes the yearly output of the company in Canada. The herd comprises about fifty of the very best animals obtainable. All are thoroughbred, but actual merit, as shown by good butter records, is needed to secure an animal a place in the herd. As the home dairy farm contains only 80 acres of poor, stony land, two other small farms are rented. Siling is practiced, as there is no good pasture land within reasonable distance, the intensive farming followed, furnishing immense quantities of green food. Besides the crops used for siling, the small farms annually produce about sixty tons hay, twenty acres corn fodder, 1,000 bushels oats, 1,000 bushels roots, and all the fruit and vegetables needed by a large household. Lately a few choice horses have been added to the stock, among which is Othello, a noted \$1,000 saddle horse. The cattle, however, are the special pride of the farm. At the head of the herd is Canada's Sir George, the famous St. Lambert Jersey, and second to him is Massena's Son, sired by a pure St. Lambert. The dam, Massena, gave, in her sixteenth year, 8,290 pounds of milk which yielded 654 pounds of butter. Many costly prizes have been won by Canada's Sir George and Massena's Son. Three of the Jersey cows have yielded a profit of 47 per cent on the value of food consumed, and all the herd give good returns, being excellent butter producers.

Eighteen years ago the Belvidere herd began with two Jerseys tethered on the lawn, and a few pounds of butter were sold to a neighbor. The wonderful growth of the business under Mrs. Jones's successful management has brought many requests that she write a book on the dairy and dairy farm. The world would be glad to know how this kind of farming pays and how one woman has made it pay, by personal supervision winning deserved success.

AMATEUR.
King's County Exhibition.

Corrections in prize list of King's County Exhibition, 1892:

Best Carriage Filly under 4 years—Wallace Reilly, Montague, instead of William McDonald, Panmure Island.

Second best Cart Mare with her foal—Cyril White, Kilo Bay, instead of Mrs. William Megatt, Lower Montague.

These mistakes were made through wrong numbers being entered in the judges' books at the time the judging took place.

Mr. Reilly's filly is sired by All Right, 537, and was entered to trot at the three-year-old class in the races, but owing to that class not filling, did not have an opportunity to show his speed.

Personal.

Mr. Gladstone will take up his residence in Downing Street on October 23rd, when the Cabinet will actively resume its councils.

Emperor William has left Potsdam for Weimar, where he will attend the golden wedding celebration of the Grand Duke of Saxe-Weimar.

Lieutenant-Governor Schultz declines to say anything regarding his alleged refusal to sign an order-in-council legalizing Winnipeg relations between himself and his ministers.

The late Duke of Sutherland bore an excellent reputation as a landlord, and spent a very large amount of money in trying to bring into cultivation a great extent of the waste land of his native county. He was born in 1828, and succeeded to the title in 1861. He had been a director in the Highland Railway Company from its earliest days. The short line which runs from Galespie to Helmsdale, a distance of 17 miles, was built entirely at his grace's expense, and is called "The Duke's Railway." The duke, who all through his life took the greatest interest in railway matters, was very fond of riding on the engine when opportunity offered.

SKODA'S DISCOVERY, the Great German-American Remedy for Heart, Nerves, Liver, Kidneys, Blood. Guarantee CONTRACT with every bottle. Pay only for the good you receive. At all Druggists, \$1.00 per bottle, six bottles \$5.50.

New Light.—This book contains a full account of the recent Salvation Army troupes in Canada and is edited by P. W. Philpott, ex brigadier, and A. W. Roffe, ex adjutant. Get one at the Diamond Bookstore. Price 15 cents.

No man ever smoked "Myrtle Navy" tobacco for a fortnight and then took to any brand in preference to it. It bears its own testimony of its quality, and it is testimony which is always convincing. The smoker who uses it is never annoyed by getting it sometimes of good quality and sometimes of bad. The arrangements of the manufacturers for keeping its quality equal are very elaborate and complete, and are the results of many years of experience and close observation.

The estimate is made that 20 per cent. of the people who ride on the street cars manage to evade payment of their fare. The Psalmist's remark that all men are liars might, without doing injustice to the situation, have added to it, that many of them are thieves.

FOR OVER FIFTY YEARS Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best-known remedy for diarrhoea, whether arising from teething or other causes. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind. 17r

Hamburg's cholera record had dwindled to 24 new cases and 4 deaths on Friday.
