**Veteran Fire Chief And Athlete Passes In Souris**

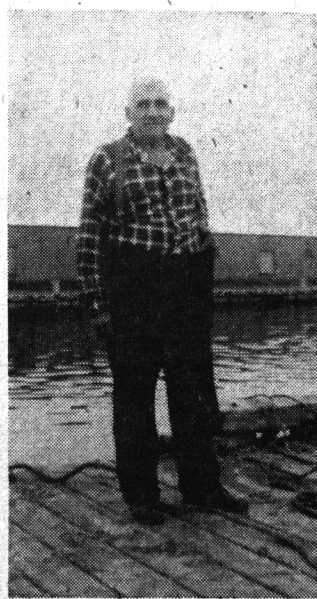

Angus Lavie, one of the colorful personalities of Prince Edward Island, died Wednesday at his home in Souris, at the age of 77, after a lengthy illness.

Scion of early pioneer stock, his heritage combined Acadian and old country French parentage with a strong admixture of Irish blood which produced an athlete, mechanical genius and citizen-extraordinary who was truly unique. None who knew Angus could forget him. None who saw the impact he made on his hometown but wanted to remember him.

As an engineer, master-builder and fire chief his many gifts of craftsmanship and leadership found expression in private and public service to his community and province.

An athletic career which commenced before the turn of the century as a member of one of Souris' earliest hockey teams, continued to find expression more than half a century later in the management of the Souris rink where his partisanship for certain teams was always vocal and stimulating to a high degree.

He is survived by his wife, the former Sarah Shea, and one son

**Canada May Launch Big Push For Trade With China**

By HAROLD MORRISON  
Canadian Press Staff Writer  
OTTAWA (CP) — Canada may begin a "big push" to build trade with Communist China, Trade Minister Churchill is known to be eager to explore every avenue of trade with the mainland market of some 600,000,000 people. He may climax his moves with a personal visit to Peking in the fall.

accord the Communist government diplomatic recognition. Another is the stiff control on the export of so-called strategic goods to the Chinese. These controls have been tougher on China than even on shipments to Russia. A third is the United States prohibition on trade by American corporations and subsidiaries with the Chinese.

The strategic controls are about to be relaxed, opening the way for trade in a large number of industrial goods previously prohibited. Canada is unlikely to take any speedy action on granting diplomatic recognition to Mao Tse-tung but she already has initiated moves to lift American trade restrictions on subsidiaries operating in Canada.

Out of such a visit could come Canada's first trade agreement with the government of Mao Tse-tung who overwhelmed the forces of Chiang Kai-shek nine years ago.

So far trade with China is small. Canada exported only \$1,000,000 worth of goods to the mainland in 1957, down from \$2,000,000 in 1956. Imports slipped to \$5,300,000 from \$5,700,000. This year interest perked up with China's purchase of more than \$5,000,000 worth of Canadian wheat.
