eas 6,011,000, nays 709,000. There was much speculation as to the new Press law, shortly to be promulgated. The best informed think that each Journal would have to deposit a certain sum with the Government as a security for their good behaviour. The offences of the Press are thus defined—first, an attack upon the President—second, inciting hatred among Citizens—third, an attack upon Religion, family or property. Each offence to be punished by fine and imprisonment.

Spain.—The Queen of Spain has been safely delivered of "a robust" Princess.

IMPORTANT FROM MOROCCO.

A letter from Gibraltar states the Emperor of Morocco has refused to ratify the treaty concluded between the French Admiral and the Pacha of Tangiers, and was marching towards that town at the head of an army of 40,000 men. These alarming reports have induced the Spanish Government to receive on board and relieve the Europeans who might wish to quit Morocco. There is little doubt but Tangiers and the other towns along the coast will be sacked by the Bedouins the moment hostilities commence.

Five Hundred Persons Destroyed by a Water-spout.—Yesterday intelligence was received at Lloyd's, under date Malta, Monday, the 8th Dec., of a most awful occurrence at the Island of Sicily, which had been swept by two enormous water-spouts, accompanied by a terrific hurricane. Those who witnessed the phenomena describe the water-spouts as two immense sperical bodies of water, reaching from the clouds, their cones nearly touching the earth, and, as far as could be judged at a quarter of a mile apart, travelling with immense velocity. They passed over the island near Marsala. In their progress houses were unroofed, trees uprooted, men and women, horses, cattle, and sheep, were raised up, drawn into their vortex, and borne on to destruction during their passage, rain descended in cataracts, accompanied with hailstones of enormous size, and masses of ice. Going over Castellamarre, near Stabia, it destroyed half the town, and washed 200 of the inhabitants into the sea, who all perished. Upwards of 500 persons have been destroyed by this terrible visitation, and an immense amount of property, the country being laid waste for miles. The shipping in the harbour suffered severely, many vessels being destroyed, and their crews drowned. After the occurrence, numbers of dead human bodies were picked up, all frightfully mutilated and swollen.

TWO WEEKS LATER FROM CALIFORNIA!

The Steamer Prometheus, eight days from San Juan, arrived at New York last Monday, with California dates to Dec. 1. She left San Juan in company with Steamer Falcon for Havana, and brings $63,000 in gold dust on freight, and $500,000 are estimated to be in the hands of passengers.

The markets are dull with a declining tendency, though no quotable change can be noticed.

Mining Intelligence.—Immense discoveries of gold have been made at Bear Valley. Nothing ever before discovered in California can compete in richness and extent with these diggings. The papers are filled with the details of them. The gold is exceedingly fine, being in the shape of minutely rounded points—finer even than the sand itself. The shafts have been sunk 25 feet, and the deeper the soil the greater the yield. One party took out in four days $220,000.

A lump of gold weighing 69 ounces had been taken out of Wood's Creek, in the Southern diggings. The miners were averaging from six to eight dollars per day. The mining news, especially that from Maraposa, is highly encouraging and recent discoveries are likely to make the Southern mines the centre of immense population, activity and trade.

Seat of Government.—The spot where the next Legislature should hold its session continnes to cause much discussion. The Governor has removed the seat of government to San Jose, on the ground that the law has not been complied with by Gen. Vallejo; but those who construe the law for themselves, still regard Vallejo as the Capital.

The agricultural interests of California continue favorable.

The people of San Francisco are planning a railroad connecting California with the Atlantic States.

The mate of the ship Challenge has been committed for trial. Captain Waterman surrendered himself at San Francisco on the 30th November, for trial.

The advices from Los Angelos give accounts of most serious Indian disturbances. Four Americans who had crossed the Colorado were killed by the Zumas, and it was reported that the Indians were forming a union to attack and exterminate the Americans in Los Angelos and San Diego. Active preparations to repel them were being made.

There had been great excitement at Marysville, on accounts of murders committed, in which the Sheriff of Yuba was shot.

A letter dated Mokulumne, Nov. 15th says:—The most horrible tragedy was perpetrated at Campo Seco, or Turnersville, last night, about 11 o'clock. A party of Mexicans, 4 in number, accompanied by 2 Englishmen and 1 American, entered a tent where lived four Americans, for the purpose of robbing them. Although the latter were unarmed they made a desperate resistance with tools and benches—one American was killed, and the rest more or less wounded, one of them so dangerously that he is not expected to live. A Mexican was caught, and on confession to having been accessary to the fact, was hung by order of Judge Lynch.

Later from Sidney.—By way of Sandwich Islands, we received intelligence from Sidney to Sept. 1st. The *Polynesian* says the mining reports from Australia continue favorable, and gold is procured in considerable quantities, selling at Sidney for £3 7s. 6d. per ounce. No diminutition of arrivals at the mines. The grand haul made by Mr. Kerr was sold for £4160 at the above prices, after raising some 3 pounds as specimens.

NOVA-SCOTIA.

A Public Meeting is to be held in Yarmouth, N. S., to consider the moral state of the Town!

The Cape Breton News tells us that it is probable the Schooner Dearing, of St. John, N.B., from Newfoundland for Sydney, was lost with all hands in the gale of the 13th November.

A new line of telegraph, in connection with the Halifax and Quebec line, has been erected along the coast of New Brunswick, embracing Chatham, Miramichi, Richibucto, and other places.

The late Chief Justice Chimpman has bequeathed £10 000 to the Church Society of N. B, and £5,000 to the Madras School.

The Rev, Robert Roach, has been appointed Assistant Minister in Prince Edward Island.—Church Times.

SUPREME COURT—QUEEN'S COUNTY.

The Hilary Term of this Court commenced it sitting on Tuesday last, before His Honor Mr. Justice Peters—His Lordship the Chief Justice, being we regret to say, too unwell to attend. The fellowing are the names of those sworn as Grand Jurymen:—

Robert Hutchinson, Esq. Foreman. Messrs. James Watts, James Duncan, John A. Macdonell, James N. Harris, Henry Longworth, James Walkingshaw, William Marshall, Patrick Stephens, John Douse, F. W. Hales, Ewen M'Millan, John C. Sims, George Bagnall, Charles Dempsey, James Anderson, Geo. Beer, jun., Charles Haszard, Richard Heartz, Joseph Ball, Chas. Wright, Joseph Crabb, James Miller.

The criminal Calendar would have been hardly worthy of mention, were it not for an Indictment, found against *Fade Hayden* and *John Hayden*, for Arson, in setting fire to a house belonging to the Hon. Donald MacDonald of Tracadie, the trial of which was set down for to-day.

Charles Hendrikan, was tried yesterday for a Larceny in stealing a silk handkerchief and three ninepenny pieces, and found guilty. *Janes Murphy* was tried last week for an assault and acquitted.

There are some Special Jury cases, but not, we understand of any interest as respects the public.

The Grand Jury made several Indictments of persons selling spirituous liquors without License. They also presented the state of the streets in Charlottetown, and the nonperformance of the duties of the Officers entrusted with the care of them They also prefered a Presentment stating that there were two Lunatics confined in jail for not being able to find securities to keep the peace, and recomended, that they be sent to the Lunatic Asylum.

The Haydens were acquitted, the Crown being unable to sustain the Charge—the burning if any, being of a barn not of a dwelling house.

Concert.—On Wednesday evening last, a vocal and instrumental Concert, was given in the Temperance Hall. Mr. Watson Duchemin accompanied by his three daughters, and assisted by the band of the Sons of Temperance, gave an intellectual treat to a numerous and highly respectable audience. Those who profess to be judges of music and singing, give great praise to the performance, regretting only that there are not more frequent displays of the same kind. Now that there is a place where these and similar exhibitions can be got up with satisfaction, both to the performers and the audience, we may reasonably hope to have more of them. Native talent should always be fostered and encouraged, and we have long been acquainted with, and highly appreciate that of the family of Duchemin.

The Weather.—We have had for the last eight or ten days, one of those intervals of weather, so mild as to be, if we may venture to call it as unseasonable, it would seem as if it were sent to make up for the want of the Indian Summer, and the premature severity of the early part of the winter.
