NEW YORK (AP)—The stock market declined last week in the most hectic five sessions in more than three years.

Monday and Tuesday, proposed mergers in the steel industry, reorganization of several railroads and record earnings by aircraft companies combined to push many stock prices to their highest levels since 1929.

Wednesday rumors began to filter through brokerage houses that the Bethlehem Steel merger with Youngstown Sheet was falling through.

Profit-taking started among the steels and spread throughout the rest of the market. But a recovery movement that day carried the market back almost to where it had started.

Thursday the market became selective. Profit-taking appeared among high-priced stocks but buying of medium and low-priced issues was plentiful enough to produce a mixed close.

CHRYSLER CUT DIVIDEND
After the market closed Thursday, the United States third major automobile maker, Chrysler Corporation, cut its dividend in half: Friday morning, sell orders for Chrysler poured into brokerage houses.

When Chrysler opened nearly three hours after the start of business at 80% off 4% points on 35,000 shares, another selling wave took place. Late in the afternoon prices began to improve, but the market couldn't muster the buying power for another recovery.

The Associated Press average of 60 stocks was off 1.40 on the week at \$131.80. Industrials and railroads were the cause of the decline. Utilities remained steady. Volume for the week totaled 15,943,400 shares compared with 13,049,021 last week. It was the busiest week since Jan. 20, 1951.

Canadian issues were lower on the stock market Friday. Canadian Pacific was off 1/4. McIntyre fell 1/4. International Nickel and Distillers Seagram both slipped 1/4. Dome Mines lost 1/4 and Hiram Walker was down 1/4.

Canadian issues on the American stock exchange were mixed. Royalite oil added 1/4 while Giant fell 1/4. low knife fell 1/4.
