SEE PARTICULARS in our pamphlet, which we desire to mail free to any address.  
Mack's Magnetic Medicine is sold by Druggists at 50 cts. per box, or 12 boxes for \$5, or will be mailed free of postage, on receipt of the money, by addressing  
**MACK'S MAGNETIC MEDICINE O.,**  
Windsor, Ont., Canada.  
Sold in Charlottetown by Apothecaries Hall Co., Agents for Prince Edward Island, and by all Druggists everywhere.

**THE TANTAH FAIR.**  
Few Christians ever attend the mammoth gathering known among the ranks as the "Tantah Fair," because of the danger attending intercourse with fanatics maddened with the potent Araki, a beverage brewed from rice. The Herald correspondent visited one of these great religious mobs, which, in fine, is nothing more than a Mohammedan camp meeting, and being in Christian garb, with even the fez, he was everywhere regarded with scowls of hatred, gestures of defiance, and words of menace. It was a singular spectacle to be in the midst of one of these huge assemblies, numbering as high as 300,000 souls, coming from every part of Syria, Arabia, even India and Northern Africa, and particularly at night by their rude camp fires, bearing on the top-tops, singing rude negro and

**Egyptian War Notes.**  
SEYMOUR'S PROCLAMATION.

Dervish Pasha, who represents the Sultan in Egypt, is at once the most vigorous and unscrupulous of all the generals of the Ottoman army. Although he is now 70 years old, he is quite as capable of ordering a massacre of the Mamelukes as was Mehemet Ali himself. He speaks nothing but Turkish, and brought two dragomans with him to Egypt, one Arab and one French.

NEW YORK HERALD BUREAU, ALEXANDRIA, July 27.

Admiral Seymour has addressed the following important letter to the Khedive:

"In the proclamation of your Highness of the 22nd July, which will be read and understood by the Egyptian people the action of the British Government and the necessity of this action have been distinctly set forth. Nevertheless, having regard to the false statements circulated by Arabi Pasha, the leader of the rebellion, and those acting under his orders, I, as Admiral in command of the British ships, think it right at once to repeat to your Highness that the British Government has no intention of conquering Egypt for itself, nor of interfering in any way with the religion or liberties of the Egyptians. Their only object is to protect your Highness and the people of Egypt against the rebels. The British Government is determined to suppress the rebellion against your Highness, and to restore order in the country by relieving it of the oppression exercised by the rebel officers. I beg your Highness will, as an act of kindness, warn the Egyptian soldiers not to obey the rebel commanders, but to return to their homes and to acknowledge your Highness as their sovereign. The British Government being well disposed toward the people of Egypt, advise them to act in regard to the rebel Arabi and his accomplices as traitors to their sovereign and enemies to themselves and their country.  
"I have the honour to be,  
"BEAUCHAMP SEYMOUR."

This letter produced an excellent effect at the Palace where it is hoped it will greatly strengthen the Khedive's position in the country. The letter will be published in the *Moniteur Egyptian* tomorrow.

**THE INDIAN CONTINGENT.**  
Says the New York Graphic:—Poor India! Indian troops are to be conveyed to Egypt to fight England's battles against their own co-religionists, and India is to bear the burden of the expedition. It is rather hard on a dependency to ask it to fight for the Home Government and at the same time to pay for the privilege of being allowed to fight. But Mr. Goldwin Smith tells the Canadians that this sort of thing is perfectly right, and Mr. Goldwin Smith is generally right in his own estimation, but he places the rest of the world in the persistently painful position of being always in the wrong. The man who is always right is an unpleasant sort of person.

**SCENE OF THE LATEST WAR OUTRAGES.**  
Tantah, the scene of the latest Egyptian massacres, scarcely less fiendish in their cruelty than those of Alexandria, is the capital of the Gorbeych provinces in the Delta. The city is fifty-four miles north of Cairo and Alexandria railroad, and is the third city in Egypt. Its population is variously estimated at from 60,000 to 100,000 souls. In the military operations doubtless soon to follow, Tantah will become an important strategical point, and a rallying centre for the adherents of Arabi, for this unique city is the capital of religious fanaticism in Lower Egypt. Its situation in about the middle of the Delta renders it easily accessible to those who there on the triennial religious pilgrimages to celebrate the birthplace of a great Moslem saint, the Seyyid Ahmed El-Bedawee. The greatest of these festivals, which is near the end of the Christian year, attracts more pilgrims than any other in Egypt, and in this respect, is second only to the pilgrimage of Mecca. They are characterized by debauchery, crime, and riot, and excel in this respect the revelries of Babasti and Canopus.

**THE TANTAH FAIR.**  
Few Christians ever attend the mammoth gathering known among the ranks as the "Tantah Fair," because of the danger attending intercourse with fanatics maddened with the potent Araki, a beverage brewed from rice. It was a singular spectacle to be in the midst of one of these huge assemblies, numbering as high as 300,000 souls, coming from every part of Syria, Arabia, even India and Northern Africa, and particularly at night by their rude camp fires, bearing on the top-tops, singing rude negro and

Egyptian chants, telling fortunes, with the howling dervishes sending forth the most hideous and earrending howls while whirling in their maddening testimony of fealty to the Moslem God. It can be imagined that when sometimes 500,000 strangers have thus gathered on the plain of Tantah, with water by no means plenty, and with the modern Egyptian by no means disposed to use it, cleanliness would not be a prevailing virtue. In fact, it is doubtful if any camp city was ever the theatre of so much general and personal filth, with all its consequences, as the chief pilgrimage in honor of the patron saint of Tantah.

**The Light of the Future.**

A late number of the Paris *Figaro* contains a lengthy article describing a remarkable invention which has just been made in Paris by which ordinary gas is made to give a light equal if not superior to the electric light itself. The invention in itself is said to be due to Mr. Clamond, a specialist in such matters. Several experiments have already been made and lately one hundred and fifty gentlemen, mostly all directors and managers of gas factories, witnessed an exhibition of the invention in Paris and pronounced it highly satisfactory. The gas used was the ordinary gas supplied to the city and with the use of magnesium and jets of peculiar make and of a small airy tube and ventilator the most brilliant light was obtained. The engines which are required to produce the electric light are dispensed with altogether, as well as the complicated contrivances used in connection with the electric light lamp. It is claimed that by this process a much smaller supply of gas is needed than with the ordinary gas light, and that the heat arising from it is not so great. In fact, it is claimed that the cost of light by the Clamond invention is two-thirds less than by any other mode or process. The light produced by it has much more resemblance to the electric than to the gas light and gives a most steady light.

**Lawn Tennis at Wimbledon.**

From the London Daily News.  
The rain, which stopped one of the most interesting matches ever played at Lord's on Monday, seems to have visited Wimbledon with less violence. The lawn tennis tournament went on, and, if we wait long enough, will doubtless be finished before the end of the session. Lawn tennis has lost none of the favour which it won years ago. In some dawdling districts it has made efforts to supplant cricket. But while we are worthy of the name Englishman no game played with a soft ball will be our national sport. At lawn tennis you may, with luck, sprain an ankle, but that amount of peril is nothing to the risk of being "cut over" by a fast bowler or receiving the balls in your mouth at the wicket. Lawn tennis does require some endurance, especially in single matches; but nothing like the endurance requisite to field out for 300 runs on a hot day. Still, "condition" tells, and he will not carry off the championship whose nights are all dances, as were the days of the morbid enthusiast in a lyric of Edgar Poe. Lawn tennis at Wimbledon is played with the rigour of the game. The great players can "smash" almost everything by volleying; they can "place" their returns as accurately as Mr. Grace places his near short leg and in the slips. They can keep an opponent rushing from one to the other extreme corner of the court, and, in fact, the best players can do marvellous things with the ball. If many people were of this force, the middle-aged, the lazy, the short-sighted, and all ladies would have to forswear lawn tennis. But, happily, there are countless shades and degrees of excellence. The Scotch proverb, consolatory to the timid bachelor, says that "for every silly Jockey there is a silly Jenny." So among the compensations of life we find that he who is called a "duffer" can find other duffers of both sexes to make up a game with him. A contemporary, "than whom one less sporting," as an old stylist would have said, was lately exercised about the irrefutable minimum of healthy exercise. Is it exercise enough to sit for an hour in the open air and pick daisies? We think this minimum is too much reduced. But any man who plays lawn tennis from eleven o'clock to luncheon time and from three to six, may be said to have taken enough exercise for one day. His dreams should be few and pleasant; his meals and his consumption of various cups considerable and innocuous. Some, of course, are prevented by the base needs of existence from playing as much lawn tennis as this. They may secure cone traced exercise when they do play, in courts with side and back walls. From that amusement it is but a step to real tennis, the game of Kings and the king of games. Lawn tennis may be most favorably regarded as a schoolmaster to bring men to real tennis. This noble sport will amply repay the study of a life-time—which, indeed, it demands. The scoring is about as hard to learn as it is to acquire a colloquial command of the Basque language. But, when once learned, it is never forgotten.

**Lawn Tennis at Wimbledon.**  
From the London Daily News.  
The rain, which stopped one of the most interesting matches ever played at Lord's on Monday, seems to have visited Wimbledon with less violence. The lawn tennis tournament went on, and, if we wait long enough, will doubtless be finished before the end of the session. Lawn tennis has lost none of the favour which it won years ago. In some dawdling districts it has made efforts to supplant cricket. But while we are worthy of the name Englishman no game played with a soft ball will be our national sport. At lawn tennis you may, with luck, sprain an ankle, but that amount of peril is nothing to the risk of being "cut over" by a fast bowler or receiving the balls in your mouth at the wicket. Lawn tennis does require some endurance, especially in single matches; but nothing like the endurance requisite to field out for 300 runs on a hot day. Still, "condition" tells, and he will not carry off the championship whose nights are all dances, as were the days of the morbid enthusiast in a lyric of Edgar Poe. Lawn tennis at Wimbledon is played with the rigour of the game. The great players can "smash" almost everything by volleying; they can "place" their returns as accurately as Mr. Grace places his near short leg and in the slips. They can keep an opponent rushing from one to the other extreme corner of the court, and, in fact, the best players can do marvellous things with the ball. If many people were of this force, the middle-aged, the lazy, the short-sighted, and all ladies would have to forswear lawn tennis. But, happily, there are countless shades and degrees of excellence. The Scotch proverb, consolatory to the timid bachelor, says that "for every silly Jockey there is a silly Jenny." So among the compensations of life we find that he who is called a "duffer" can find other duffers of both sexes to make up a game with him. A contemporary, "than whom one less sporting," as an old stylist would have said, was lately exercised about the irrefutable minimum of healthy exercise. Is it exercise enough to sit for an hour in the open air and pick daisies? We think this minimum is too much reduced. But any man who plays lawn tennis from eleven o'clock to luncheon time and from three to six, may be said to have taken enough exercise for one day. His dreams should be few and pleasant; his meals and his consumption of various cups considerable and innocuous. Some, of course, are prevented by the base needs of existence from playing as much lawn tennis as this. They may secure cone traced exercise when they do play, in courts with side and back walls. From that amusement it is but a step to real tennis, the game of Kings and the king of games. Lawn tennis may be most favorably regarded as a schoolmaster to bring men to real tennis. This noble sport will amply repay the study of a life-time—which, indeed, it demands. The scoring is about as hard to learn as it is to acquire a colloquial command of the Basque language. But, when once learned, it is never forgotten.
