THE DAILY EXAMINER.

NOVEMBER 11, 1889.

In Memoriam.

THOSE who knew Mr. Patrick McQuaid —and who in Charlottetown did not know him?—will deeply regret to learn that he died at Toronto at five o'clock yesterday afternoon. He fell a victim to typhoid fever. After his arrival at Toronto he was for some time a member—an esteemed member—of the staff of the Toronto *Globe*. Subsequently he entered into partnership with a Real Estate agent, with good prospects of success. At the same time he frequently undertook special work for the *Globe*. He was engaged in writing a series of sketches of the towns of Ontario for the Saturday *Globe*, when he was seized, at Oshawa, by fever. Returning to Toronto, he entered a hospital, where despite the most skilful medical aid and careful nursing he passed away. He was a young man of excellent social qualities, and very active and popular as a journalist. He made hosts of warm friends wherever he went. For twelve long years he was attached to THE EXAMINER office. His fellow-workers here mourn his death as their loss, and as the cutting short of a bright and hopeful career.

City Council Meeting.

THE regular monthly meeting of the City Council was held last evening. There was but one absentee—Councillor Davison. After the minutes of the previous meeting were read and approved and some other routine business was transacted, Mayor Haviland submitted the correspondence received since last session.

THEY WANT BETTER QUARTERS.

The memorial of Tremont Hose Co. asked that they be furnished with a suitable room in which to hold meetings, etc., as the one they had at present lacked both heating and seating accommodation; or in default of the providing of such room that they be voted $30 with which sum they would fit up suitable quarters themselves. The memorial was referred to the Public Property Committee.

AGAIN TO THE FRONT.

The Mayor explained that a leading citizen had called his attention to the unwholesome condition of the exit for the dyes and other polluted water connected with the Woolen Factory and adjacent premises at Spring Park. In view of the existing state of affairs there he thought it was no wonder that as a rule fevers start in that quarter of the city. The Woolen Company, not having provided the necessary pipes for the conveyance of this polluted water to the river, some of it found its way into the spring and was drank by the cows pastured in the fields through which the stream runs; and we all know, he added, that contaminated milk is one of the surest sources of fever. The leading citizen, in the course of the conversation referred to, also told him that if he were the Attorney General of this province he would have the company indicted before the grand jury. He himself thought it would be the most effective way of dealing with the matter. As mayor of the city he thought it his duty to bring the subject before the Board in the hope that action would be taken.

Councillor Morris said that in passing the premises complained of he had found a bad smell emanating therefrom. He also saw a cow drink the polluted water. He thought some action should be taken at once. He also drew attention to the unhealthy condition of the drain leading from Heartz's pump to Black Sam's Bridge. He said that people living along Euston Street were obliged to keep their windows closed, so strong was the filthy odor from this drain. He thought it would be a good idea to cover over the gratings, at least for the present.

Councillor Douse said now as he said when Mr. Theophilus Stewart brought the woolen factory matter up some years ago, that if the business belonged to a private citizen instead of to the company it does, it would have been closed up long ago. He knew that cows drank the polluted water; and that one had swollen up so badly after drinking it that she almost died from the effects. True, he said, the company, some years ago, built a box-drain to carry off the refuse matter, but it was not at all fit for the purpose. He would go for compelling them to provide a proper mode of carrying off this polluted water at once.

The Recorder thought that a meeting of the Board of Health should be called at once and the matter laid before them. At that meeting action should be taken; the directors of the woolen factory and the manager of the premises adjacent should be told that if they did not take the proper steps for at once abating the nuisance complained of they would be prosecuted.

THE WATER COMMISSIONERS ACCOUNTS.

The report of W. E. Dawson, Esq., *in re* his examination of the books of the Water Commissioners, is as follows:—

To His Worship the Mayor an City Council:

GENTLEMEN,—Upon being furnished by your clerk with the copy of a resolution passed by your Council on the 10th September, authorizing me to examine the books of the Water Commissioners, my first act was to ascertain my duties and powers, and upon consulting the "Charlottetown Waterworks Act, 1887," I found them defined in sections 16 and 18 of said Act.

I have now the honor to report that I have carefully examined the "separate books and accounts of the receipts and disbursements for and on account of the said waterworks," and also the book kept "for the purpose of recording the whole of their official proceedings," and find that in so far as such books and records show the Commissioners have carefully carried out the various provisions of the "Waterworks Act, 1887."

It may be of interest to the Council to have the information that there is still due to Messrs. McDonal & McIntosh on their reservoir contract some ($2000) two thousand dollars; to Messrs. Galvin & Co., on hydrant contract the sum of ($2167) two thousand one hundred and sixty-seven dollars; and to Mr. W. H. Fraser a large amount for an unsettled claim.

In addition to my careful examination of the books I spent several hours with Messrs. Laird and Kelly (two of the Water Commissioners) during [illegible] with the works and the various contracts, and I found they evinced a desire to afford all necessary explanations, and I have to express my sense of obligation for the courtesy extended both by these gentlemen and their clerk, Mr. Duncan McLean.

I have the honor to be, Sir,
Your obedient servant,
W. E. DAWSON.

Charlottetown, 11th Nov., 1889.

On motion of Councillor Douse this report was ordered to lie on the table.

Council adjourned.

BOARD OF HEALTH MEETING.

The Board of Health met after the Council meeting adjourned last evening.

SANITARY CONDITION OF THE CITY.

Dr. Johnson's report for the past four weeks is as follows:—

To His Worship the Mayor, Chairman of Board of Health:

SIR,—My former report, dated Oct. 12, gave you information of the number of cases of infectious diseases of which I had up to that time been notified. It showed that between Aug. 9 and Oct. 12, notices had been received of 63 cases of typhoid fever with three deaths therefrom, and of 30 cases of scarlet fever with 2 deaths therefrom. I have now to report having received further notice of 36 cases of typhoid with 2 deaths therefrom, and of 5 cases of scarletina without any more deaths therefrom. The totals up to the present are thus shown to be 99 cases of typhoid with 5 deaths, and 35 cases of scarletina with 2 deaths. I have reason to think that there have existed from 15 to 20 cases of typhoid, and probably one fourth of that number of scarletina, which have not been formally certified. If these be added to the ber of cases certified, the rate of mortality from this disease would be about four per cent. of the cases, which is not, in regard to either form of disease, a high rate.

The indications now are that the epidemic of typhoid is on the rapid decline, and that if colder weather prevails the disease will soon disappear from our midst. The fact that five cases of scarletina are certified for the four weeks now reported upon, against four cases for the preceding four weeks, indicates that the strictest precautions against the spread of the disease are still called for, as against its advances the colder weather is not to be considered to be a counteracting force. Full lists of the notices are appended hereto. Respectfully submitted.

RICHARD JOHNSON,
Health Officer.

Ch'town, Nov. 9, 1889.

THAT NUISANCE AGAIN.

The Woollen Factory nuisance matter, brought up at the Council meeting, was again discussed. The following resolution was moved by Councillor Eden and seconded by Councillor Taylor:—

Resolved, The Board of Health having had brought to their notice the polluted state of the stream running through a portion of the city known as Spring Park stream, desire to notify the Woollen Factory Company and all other companies, or persons permitting refuse, deleterious or impure matter to flow into said stream after this date, that they will be proceeded against as causing a nuisance within the city limits, as well under all powers given this Board as a Board of Health as by prosecution before the Grand Jury at the ensuing term of the Supreme Court of this Province.

Carried unanimously.

Council adjourned.

The Turf.

THE MATCH RACE YESTERDAY.

The match race between the pacers Harry G. and Albert E. for a purse of $200, came off on the Driving Park yesterday afternoon and was won by the former. The weather was fine and clear, and the track in good condition. The attendance of spectators was fair. Four out of the five heats were trotted. Albert E. won the first, easily defeating Harry G., who broke badly four or five times in the mile. In the second, third and fourth heats this order was reversed; it was Albert E. that only did good work in spots and Harry G. who sailed over the course in splendid form. The race throughout was somewhat one-sided, there being as a rule no company-keeping after the half of the first quarter was traversed. Between the heats there was some little betting, but no fortunes were won or lost. The judges were J. J. Davies, W. S. McKie and Robert Crabbe, the first-named acting as starter. Below is the

Summary:

Nov. 11, 1889. Charlottetown Driving Park. Match pacing race for a purse of $200. Mile heats, best 3 in 5 to harness.

P. P. Gillis' bk. g. Harry G. (Steele) 2 1 1 1
Geo. Essory's b.g. Albert E. (Brown) 1 2 2 *2
Time, 2.49½, 2 42, 2.44, 2.42.
*Essory drove Albert E. this heat.

MORE RECORD BREAKING.

At San Francisco on Saturday last, Senator Stamford's filly Sunol made a mile in 2 10½, lowering the three-year-old record of 2.12, recently made by Axtell. Count Valensius' Faustino lowered the yearling stallion record by trotting a mile in 2.35. Regal Wilkes beat Axtell's two-year-old stallion record by trotting a mile in 2.20¾.

CHANGED HANDS.

It is reported that the pacer Albert E. has been purchased by Mr. J. M. McLeod, of the Amherst Boot and Shoe Factory, for $300.

ANOTHER MATCH.

Another match race between the pacers Harry G. and Albert E. has been arranged for to-morrow afternoon at the Driving Park. The stakes are $100 a side. The race will start at one o'clock.

SHOULD BE ATTENDED TO.

The press quarters at the drivlng park are well located, but they lack some of the facilities necessary for the compiling and transmitting of news. There is an entire absence of anything in the shape of a desk or a table whereat to extend notes; and there is not even the soft side of a plank to sit upon between the heats. Then there is neither telephonic nor other communication with the city. The attention of some of the directors was drawn to these matters at the opening meeting, and on the strength of their promise that the improvements suggested would be made, nothing was said on the subject at that time. But as yet nothing has been done. The directors cannot expect reporters to do their best work when they have little or no accommodation; and in a room, too, which is frequented largely by persons who have no business there—whose proper place is—well, anywhere else.

TELEGRAPHIC NEWS.

SPECIAL DESPATCHES TO THE EXAMINER.

Catholic Congress.

BALTIMORE, Md., Nov. 11.

The 1,200 delegates to the first Catholic Congress of the Catholic laymen of the United States was called to order shortly before noon to-day by Hon. W. J. Onahan, of Chicago. Archbishop Ireland briefly invoked the Divine blessing. Onahan then introduced ex-Governor Carroll as temporary chairman. The mention of the name of Pope Leo was received with a tumult of enthusiasm. Onahan's suggestion that he hoped in the not far distant future to see an international congress of lay Catholics, also met with hearty approbation. Ex-Gov. Carroll spoke briefly. A cablegram from Rome was read bestowing the Pope's blessing on the members of the congress. Daniel Dougherty, of New York, then delivered the opening address.

A Great Hit.

TORONTO, Nov. 11.

Sir Adolphe Caron's speech here was a great hit. After thanking the citizens for their hospitality, he said: "Let me state that we in Quebec are as proud of your development, your success, as we are in the great development and great prosperity of Montreal. We are only one people whether we speak French or English. We have only one Queen and one flag, and to the citizens of Toronto I say that I never knew better defenders of my Queen and flag than in the old city of Quebec. As long as a heart beats within me, I tell you it will be in unison with the people of Ontario, to make of our Canada one country."

Stanley's Hopes.

ZANZIBAR, Nov. 11.

Gerald H. Portal, the British agent here has received a letter from Henry M. Stanley, in which the explorer says he hopes to reach Zanzibar about the middle of January.

The Chief Justiceship.

OTTAWA, Nov. 11.

It is stated that at to-day's meeting of the Dominion Cabinet Premier Sullivan of P. E. Island was appointed Chief Justice of the Supreme Court of that Province.

The Report Confirmed.

LONDON, Nov. 11.

Despatches received at the Foreign Office from Zanzibar confirm the report of the massacre of Dr. Peter's and his party by natives near Kokora, East Africa.

Distributing Salmon Fry.

OTTAWA, Nov. 11.

Regulations have been issued in reference to the application for and distribution of salmon fry from the various hatcheries throughout Canada.

Non-Confidence Voted.

OTTAWA, Nov. 11.

A private telegram from Regina states that the Legislative Assembly today voted non-confidence in the new Advisory Council.

Developing the Resources.

QUEBEC, Nov. 11.

Operations on a large scale to develop the petroleum resources of Gaspe are to be commenced by American capitalists.

Declared a State.

WASHINGTON, Nov. 11.

The President signed the proclamation declaring Washington a State this afternoon.

Weather Bulletin.

TORONTO, Nov. 12.—10 a. m.

Moderate winds, partly cloudy or cloudy; not much change in temperature.

—It is pleasing to note that the people of Summerside are taking the proper steps towards a public garden. For many years the garden of Mr. R. T. Holman has been the brightest spot in Summerside. We may, in future, hope to see, in addition, the drill shed square evidencing the good taste and culture of the town.

CHIEF CONSULTING SURGEON
—OF THE—
International Medical Council Association of Detroit, Michigan,

Graduate of McGill College, Montreal, P. Q.; Licentiate Royal College Physicians and Surgeons, Edinburgh, Scotland, and London, England,

—IS NOW AT THE—
HOTEL DAVIES, CHARLOTTETOWN,

Where, until further notice, he can be CONSULTED FREE, on all
PRIVATE AND CHRONIC DISEASES.

To the Citizens of P. E. Island and Invalids Especially:—

We come to you not entirely as strangers, but for the first time, and beg leave, therefore, to inform, in as brief a manner as possible, those not acquainted with us or our institute who we are, where we come from, and what we are doing

Dr. Kergan and the surgeons comprising his staff, better known in the United States and Canada as his International Medical Council, have for years been regarded as the most reliable, most skillful and most successful specialists in the treatment of all chronic diseases, deformities and diseases peculiar to men and women in America.

In 1878 our present institution was founded by Dr. Kergan in Detroit, and has from year to year grown in such rapid proportions that at present a staff of 18 medical and surgical experts is required to attend the home and foreign patients This staff comprises men of age, education, extended experience and superior ability, all being graduates of leading English, Scotch, French, Irish, German, Canadian and American universitities, and admitted to become a member of Dr. Kergan's Medical Council only after they have devoted themselves to the study and treatment of chronic diseases or deformities, and obtained positive and superior knowledge and success in diagnosing and treating those diseases.

Thousands of rare and obscure cases are yearly treated by them; therefore, by the experience received from treating so many cases, aided by all that medical science of to-day affords, it can readily be seen why it is that they are so successful in the curing of all private and chronic diseases.

WHAT WE CURE.

Chronic Diseases of the Nasal Passages and Respiratory Organs.
Catarrh, Hay Fever, Laryngitis, Bronchitis, Asthma, Consumption, Emphysema, Pneumonia.

Chronic Diseases of the Circulatory Organs.
Functional Heart Disease, Organic Heart Disease, Dropsy, Varicose Veins.

Chronic Diseases of the Blood and Skin.
Scrofula, Ulcers, Rheumatism, Gout, Lumbago, Anaemia, Cancer, Tumors, Skin Diseases.

Chronic Diseases of the Urinary Tract.
Kidney Disease, Gravel or Stone, Bright's Disease, Diabetes, Chyluria, Bladder Disease, Inflammation, Incontinence.

Chronic Diseases of the Alimentary Tract.
Mercurial Sore Mouth, Enlarged Tonsils, Stricture of the Throat, Dyspepsia, Gastritis, Ulceration, etc., Liver Complaints, Gall-stones, Rupture or Hernia, Constipation, Diarrhœa, Piles, Tissure, Fistula Rectal Ulcer, Tapeworm, Round and Pin Worms.

Chronic Diseases Peculiar to Women.
Retarded Menses, Amenorrhœa, Dysemenorrhœa, Menorrhagia, Change of Life, Chlorosis, Leuchorrhœa, Displacement, Prolapsus, Uteri, Flexions and Versions, Inversion, Ulcerations, Cancer, Inflammation (Uterus and Ovaries), Tumors, Pruritis, Vaginismus, Barrenness.

Chronic Diseases Peculiar to Men.

WHAT WE DO NOT PROPOSE TO DO.—We do not propose to raise the dead, nor can anyone else; we do not propose to furnish new lungs, the man who promises to do so is a fraud; we do not propose to furnish youth to the aged, it's impossible; we cannot cure every case of heart disease, and the doctor who agrees to is a humbug; we cannot cure every case of kidney disease, no man of reputation professes to do so; we cannot cure an incurable disease—frauds alone promise the impossible.

WHAT WE PROPOSE TO DO.—We propose to give correct and honest opinions; we propose to only make reasonable promises; we propose to give our best attention to every case; we propose to cure in the shortest possible time; we propose to cure for the smallest fee consistent with honest skill; we propose to cure by the most pleasant possible method; we propose to refuse to treat any case that we think we cannot help; we propose to cure every curable case; we propose to continue to conduct a reputable Medical Institution in the future as we have the reputation of doing in the past; we propose to be able to produce the evidence that we have more members of the Royal College of Physicians and Surgeons of Great Britain on our staff than any single institution in America.

Remember, our Location during our stay in Charlottetown is at HOTEL DAVIES.
